

PROGRESS IN BIOMEDICAL OPTICS AND IMAGING

Vol. 18 No. 16

Optogenetics and Optical Manipulation

Samarendra K. Mohanty

Nitish V. Thakor

E. Duco Jansen

Editors

28–29 January 2017

San Francisco, California, United States

Sponsored and Published by
SPIE

Volume 10052

Proceedings of SPIE, 1605-7422, V. 10052

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Optogenetics and Optical Manipulation*, edited by Samarendra K. Mohanty, Nitish V. Thakor, E. Duco Jansen, Proceedings of SPIE Vol. 10052 (SPIE, Bellingham, WA, 2017) Seven-digit Article CID Number.

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print. Papers are published as they are submitted and meet publication criteria. A unique citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a seven-digit CID article numbering system in which:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages.

Contents

v	<i>Authors</i>
vii	<i>Conference Committee</i>

DETECTION I

10052 02	Super-duper chemiluminescent proteins applicable to wide range of bioimaging (Keynote Paper) [10052-1]
10052 04	Using stereotactic brain atlases for small rodents and nonhuman primates for optrode array customization [10052-3]

DETECTION II

10052 07	Micro-device combining electrophysiology and optical imaging for functional brain monitoring in freely moving animals [10052-6]
----------	--

STIMULATION II

10052 0G	3D Monte Carlo model with direct photon flux recording for optimal optogenetic light delivery [10052-15]
----------	---

STIMULATION III

10052 0J	Short infrared laser pulses block action potentials in neurons [10052-17]
10052 0K	Active implant for optoacoustic natural sound enhancement [10052-18]

APPLICATION

10052 0Q	Multi-characteristic opsin enabled vision restoration [10052-24]
----------	---
