

PROCEEDINGS OF SPIE

Window and Dome Technologies and Materials XV

Brian J. Zelinski

Editor

11–12 April 2017

Anaheim, California, United States

Sponsored and Published by
SPIE

Volume 10179

Proceedings of SPIE 0277-786X, V. 10179

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Window and Dome Technologies and Materials XV*, edited by Brian J. Zelinski, Proceedings of SPIE Vol. 10179 (SPIE, Bellingham, WA, 2017) Seven-digit Article CID Number.

ISSN: 0277-786X

ISSN: 1996-756X (electronic)

ISBN: 9781510608597

ISBN: 9781510608603 (electronic)

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v	<i>Authors</i>
vii	<i>Conference Committee</i>

NEW APPLICATIONS OF INFRARED MATERIALS AND TECHNOLOGY

10179 04	Evaluation of undoped ZnS single crystal materials for x-ray imaging applications [10179-3]
10179 06	Superhydrophobic, infrared transmissive moth eye-like substrates for use in wet conditions [10179-5]

INFRARED WINDOW AND DOME TECHNOLOGY OVERVIEWS

10179 09	Weibull analysis and area scaling for infrared windows [10179-8]
10179 0A	Slow crack growth study of polycrystalline alumina and multispectral zinc sulfide [10179-9]
10179 0B	Low-level background absorption in durable window materials [10179-10]

OPTICAL/ELECTRICAL PROPERTIES OF INFRARED WINDOW AND DOME MATERIALS

10179 0D	Scattering properties of hot isostatic pressed multispectral zinc sulfide [10179-12]
10179 0E	High-temperature material characterization for multispectral window [10179-13]

ADVANCES IN MID-WAVELENGTH INFRARED WINDOW AND DOME MATERIALS

10179 0F	Refractive index of infrared-transparent polycrystalline alumina [10179-14]
10179 0G	Strength characteristics of transparent alumina and spinel ceramics [10179-15]
10179 0I	Conformal ALON and spinel windows [10179-17]
10179 0J	Scale up of large ALON and spinel windows [10179-18]

INFRARED WINDOW AND DOME PROCESSING AND MANUFACTURING TECHNOLOGY I

- | | |
|----------|---|
| 10179 OK | Drying step optimization to obtain large-size transparent magnesium-aluminate spinel samples [10179-19] |
| 10179 OL | Development of optical ceramic materials for infrared applications by optimizing sintering conditions [10179-20] |
| 10179 OM | Manufacturing and metrology for IR conformal windows and domes [10179-21] |

INFRARED WINDOW AND DOME PROCESSING AND MANUFACTURING II

- | | |
|----------|---|
| 10179 ON | 18x36x1.5 inch sapphire panels for visible and infrared windows [10179-22] |
| 10179 OO | Refractive index homogeneity TWE effect on large aperture optical systems [10179-23] |
| 10179 OP | New advancements in freeform optical metrology [10179-24] |
| 10179 OQ | Grinding and polishing of conformal windows and domes [10179-25] |
