**Volume 10408**

Proceedings of SPIE 0277-786X, V. 10408

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Laser Communication and Propagation through the Atmosphere and Oceans VI*, edited by Jeremy P. Bos, Alexander M. J. van Eijk, Stephen M. Hammel, Proceedings of SPIE Vol. 10408 (SPIE, Bellingham, WA, 2017) Seven-digit Article CID Number.

ISSN: 0277-786X

ISSN: 1996-756X (electronic)

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at [copyright.com](http://copyright.com). Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/17/\$18.00.

Printed in the United States of America

Publication of record for individual papers is online in the SPIE Digital Library.

---

**Paper Numbering:** *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

vii *Authors*  
ix *Conference Committee*

---

## SESSION 1 FREE SPACE OPTICAL COMMUNICATIONS I

---

- 10408 02 **Testing of a compact 10-Gbps Lasercomm system for maritime platforms (Invited Paper)**  
[10408-1]
- 10408 03 **Phase and amplitude modification of a laser beam by two deformable mirrors using conventional 4f image encryption techniques** [10408-2]
- 10408 04 **Design and flight test results of high speed optical bidirectional link between stratospheric platforms for aerospace applications** [10408-3]
- 10408 05 **Overwater ultraviolet non-line-of-sight communication channel modeling and analysis**  
[10408-5]

---

## SESSION 2 FREE SPACE OPTICAL COMMUNICATIONS II

---

- 10408 07 **Performance analysis of stationary Hadamard matrix diffusers in free-space optical communication links** [10408-7]
- 10408 08 **Simulating the performance of adaptive optics techniques on FSO communications through the atmosphere** [10408-8]

---

## SESSION 3 BEAM PROPAGATION

---

- 10408 0A **Atmospheric propagation of coherently and incoherently combined quantum cascade lasers (Invited Paper)** [10408-10]
- 10408 0B **Study on the effect of anisotropy on a propagating beam** [10408-11]
- 10408 0D **Analysis of the covariance function and aperture averaged fluctuations of irradiance to calculate  $C_n^2$**  [10408-13]
- 10408 0E **Optimization of wavefront-sensorless adaptive optics for horizontal laser beam propagation in a realistic turbulence environment** [10408-14]

---

## SESSION 4 AIRBORNE SATELLITE APPLICATIONS

---

- 10408 0F **Cloud free optical link probabilities to satellites from multiple ground stations** [10408-15]

10408 0G **Modeling of ground based laser propagation to low Earth orbit object for maneuver**  
[10408-16]

10408 0I **Polarized photon transport through fog** [10408-47]

---

**SESSION 5 ORBITAL ANGULAR MOMENTUM**

---

10408 0K **OAM of beam waves in random inhomogeneous medium** [10408-20]

10408 0L **Shack-Hartmann measurements of the transverse linear and orbital angular momenta after propagation through turbulence** [10408-21]

---

**SESSION 6 IMAGE DEBLURRING**

---

10408 0M **Image blurring due to turbulent wakes for airborne systems: flight tests** [10408-22]

10408 0N **Image blurring due to turbulent wakes for airborne systems: simulation and modeling**  
[10408-23]

---

**SESSION 7 ATMOSPHERIC CHARACTERIZATION I**

---

10408 0P **Atmospheric characterization on the Kennedy Space Center Shuttle Landing Facility**  
[10408-25]

10408 0Q **A machine learning approach for predicting atmospheric aerosol size distributions**  
[10408-26]

10408 0R **Climatological assessment of maritime atmospheric profiles: model-based and LIDAR-based approaches** [10408-27]

---

**SESSION 8 ATMOSPHERIC CHARACTERIZATION II**

---

10408 0T **Determination of accurate vertical atmospheric profiles of extinction and turbulence**  
[10408-29]

10408 0U **Investigation of the height dependency of optical turbulence in the surface layer over False Bay (South Africa)** [10408-30]

10408 0V **In-situ and path-averaged measurements of aerosol optical properties** [10408-31]

10408 0W **Determination of the spectral behaviour of atmospheric soot using different particle models**  
[10408-32]

---

**SESSION 9 HORIZONTAL IMAGING AND BEAM PROPAGATION**

---

10408 0X **Saturation of the anisoplanatic error in horizontal imaging scenarios** [10408-33]

- 10408 0Y **Hybrid wavefront sensing and image correction algorithm for imaging through turbulent media** [10408-34]
- 10408 0Z **Numerical simulation and analysis of aero-optical effect of the 3D side window** [10408-36]

---

**POSTER SESSION**

---

- 10408 10 **Hemispherical optical dome for underwater communication** [10408-4]
- 10408 11 **Coherent optical communication detection device based on modified balanced optical phase-locked loop** [10408-37]
- 10408 12 **The integration of laser communication and ranging** [10408-38]
- 10408 13 **Radial partially coherent beams for free-space optical communications** [10408-39]
- 10408 14 **A variable rate communicate method for self-differential coherent DPSK** [10408-40]
- 10408 15 **Optical axis stability system based on acousto-optic deflector** [10408-41]
- 10408 16 **Fine track system of space coherent optical communication without position detector** [10408-42]
- 10408 18 **Multiple wavelength spectral system simulating background light noise environment in satellite laser communications** [10408-44]
