Volume 10477

Proceedings of SPIE, 1605-7422, V. 10477

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Mechanisms of Photobiomodulation Therapy XIII*, edited by Michael R. Hamblin, James D. Carroll, Praveen Arany, Proceedings of SPIE Vol. 10477 (SPIE, Bellingham, WA, 2018) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Authors*
vii *Conference Committee*

SESSION 1 PBM THERAPY IN NEUROREGENERATION AND NEUROREHABILITATION

- 10477 03 **Optimization of low-level light therapy's illumination parameters for spinal cord injury in a rat model** [10477-2]
- 10477 04 **Measurement of light penetration of near-infrared laser at the lumbosacral nerves in rats** [10477-3]
- 10477 07 **Therapeutic effect of forearm low level light treatment on blood flow, oxygenation, and oxygen consumption** [10477-6]

SESSION 2 PBM THERAPY FOR COSMETICS AND ESTHETICS

- 10477 0A **Blue light-irradiated human keloid fibroblasts: an in vitro study** [10477-9]
- 10477 0B **Spot fat reduction by red and near infrared LED phototherapy** [10477-10]

SESSION 3 CLINICAL APPLICATIONS FOR PBM THERAPY

- 10477 0D **Prolonging shelf-life of platelets by low-level laser** [10477-13]
- 10477 0G **Influence of phototherapies on the outcome of complete tibial fractures grafted or not with MTA: Raman spectroscopic study on rabbits** [10477-16]

SESSION 4 MECHANISMS OF PBM THERAPY

- 10477 0J **Wavelength dependence of intracellular nitric oxide levels in hTERT-RPE cells in vitro** [10477-20]
- 10477 0K **5-ALA photopreparation using pulsed NIR enhances skin fluorescence via temperature-independent cell signaling pathways** [10477-21]
- 10477 0L **Novel approach to elucidate the nature of photomodulation therapy** [10477-22]
- 10477 0M **Intra-articular laser treatment plus Platelet Rich Plasma (PRP) significantly reduces pain in many patients who had failed prior PRP treatment** [10477-23]
- 10477 0N **Design and reliability analysis of a novel laser acupuncture device** [10477-24]

10477 0Q **Redox reactions of cytochrome c in isolated mitochondria exposed to blue or red lasers using resonance Raman spectroscopy [10477-27]**

POSTER SESSION

10477 0S **LED photochemotherapy against *Staphylococcus aureus*: an in vitro study [10477-29]**

10477 0Y **Safety and efficacy of photobiomodulation therapy for weight loss: a review [10477-35]**

10477 0Z **Photo-kinesiotherapy: photobiomodulation associated with some kinesiotherapies for orofacial rehabilitation [10477-17]**
