Volume 10580

Proceedings of SPIE, 1605-7422, V. 10580

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Medical Imaging 2018: Ultrasonic Imaging and Tomography*, edited by Neb Duric, Brett C. Byram, Proceedings of SPIE Vol. 10580 (SPIE, Bellingham, WA, 2018) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii	<i>Authors</i>
ix	<i>Conference Committee</i>
xi	<i>Awards</i>

KEYNOTE AND PHOTOACOUSTICS II

10580 05	An advanced photoacoustic tomography system based on a ring geometry design [10580-31]
----------	---

PERFUSION AND CEUS

10580 06	Perfusion flow phantoms with randomly oriented microchannels [10580-1]
10580 07	Imaging biomarker development based on microbubble perfusion and oxygen saturation in a rat model of liver cancer [10580-2]
10580 08	Combining adaptive demodulation with singular value decomposition filtering for improved non-contrast perfusion ultrasound imaging [10580-3]
10580 09	Respiratory compensation in contrast enhanced ultrasound using image clustering [10580-4]
10580 0A	In vitro high-frame-rate contrast-enhanced ultrasound particle image velocimetry in a carotid artery stent [10580-5]

SIGNAL PROCESSING AND B-MODE

10580 0B	B-line detection using amplitude modulation-frequency modulation (AM-FM) features [10580-6]
10580 0C	Wavelet shrinkage-based adaptive compounding for improvement of SNR in high volume-rate ultrasound imaging [10580-7]
10580 0D	Synthetic recovery of the complete harmonic data set [10580-8]
10580 0E	Real-time volumetric ultrasound imaging using free hand scanning [10580-9]

10580 OF **ADMIRE applied to fundamental and harmonic data acquired using a modern clinical platform** [10580-10]

10580 OG **Suppressing off-axis scattering using deep neural networks** [10580-11]

ULTRASOUND TOMOGRAPHY I

10580 OH **Time-domain spectral-element ultrasound waveform tomography using a stochastic quasi-Newton method** [10580-12]

10580 OI **Optimized transducer configuration for ultrasound waveform tomography in breast cancer detection** [10580-13]

10580 OJ **Solving the ultrasound inverse scattering problem of inhomogeneous media using different approaches of total least squares algorithms** [10580-14]

10580 OK **Reconstruction of ultrasound tomography for cancer detection using total least squares and conjugate gradient method** [10580-15]

ULTRASOUND TOMOGRAPHY II

10580 OM **Experimental evaluation of straight ray and bent ray phase aberration correction for USCT SAFT imaging** [10580-17]

10580 ON **Oil-gel-based phantom for mimicking wave refraction of breast in ultrasound computed tomography** [10580-18]

10580 OO **Animal study of high-speed iterative refraction calibration method for ultrasound computed tomography** [10580-19]

10580 OP **In vitro and in vivo evaluations of breast ultrasound tomography imaging system in HUST** [10580-20]

10580 OQ **USCT reference data base: conclusions from the first SPIE USCT data challenge and future directions** [10580-22]

10580 OR **Toward parallel optimal computation of ultrasound computed tomography using GPU** [10580-21]

PHOTOACOUSTICS I

10580 OT **Ultrasound and photoacoustic imaging for enhanced image-guided endovenous laser ablation procedures** [10580-24]

10580 OV **Combined phased-array ultrasound and photoacoustic endoscope for gynecologic cancer imaging applications** [10580-26]

10580 OW **Assessment of blood oxygen saturation using spectroscopic photoacoustic imaging as a biomarker for disease progression in a small-animal leukemia model** [10580-27]

QUANTITATIVE ULTRASOUND AND REGISTRATION

- 10580 12 **Echographic measurement method of time-varying wall-shear-stress distribution for early arteriosclerosis detection** [10580-37]
- 10580 14 **K-means clustering for high-resolution, realistic acoustic maps** [10580-39]
- 10580 15 **Comparison of two approaches for attenuation imaging using the spectral log difference method: regularized inversion versus image filtering** [10580-40]
- 10580 16 **Spectral analysis of ultrasound radiofrequency backscatter for the identification of five tissue types found in and around the paravertebral space** [10580-41]
- 10580 17 **Automated registration and stitching of multiple 3D ultrasound images for monitoring neonatal intraventricular hemorrhage** [10580-42]

POSTER SESSION

- 10580 19 **Investigation of priors mismatch in ultrasound tomographic reconstruction** [10580-44]
- 10580 1A **Ultrasound segmentation of rat hearts using convolution neural networks** [10580-45]
- 10580 1B **In vivo ultrasonic measures of skin layer thicknesses at various body locations and postures** [10580-46]
