

PROCEEDINGS OF SPIE

LIDAR Imaging Detection and Target Recognition 2017

**Daren Lv
Yueguang Lv
Weimin Bao**
Editors

**23–25 July, 2017
Changchun, China**

Organized by
Chinese Society for Optical Engineering (CSOE) (China)
Photoelectronic Technology Committee, Chinese Society of Astronautics (China)

Sponsored by
Chinese Society for Optical Engineering (CSOE) (China)
Chinese Academy of Engineering (China)
National Natural Science Foundation of China (China)

SPIE

Volume 10605
Part Two of Two Parts

Proceedings of SPIE 0277-786X, V. 10605

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *LIDAR Imaging Detection and Target Recognition 2017*, edited by Daren Lv, Yueguang Lv, Weimin Bao, Proceedings of SPIE Vol. 10605 (SPIE, Bellingham, WA, 2017) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xi	<i>Authors</i>
xvii	<i>Conference Committee</i>
xix	<i>Introduction</i>

Part One

SESSION 1	LIDAR IMAGING DETECTION
10605 02	Super-resolving polarization rotation angle measurement using parity detection at shot noise limit [10605-1]
10605 03	Anti-dynamic-crosstalk method for single photon LIDAR detection [10605-2]
10605 04	Intensity and average orbital angular momentum of partially coherent flat-topped vortex beam in slant atmospheric turbulence [10605-4]
10605 05	The study of a high-precision and wide-range echo-laser simulator [10605-12]
10605 06	Detection probability limitation of a pulsed Gm-APD laser ranging system with turbulence effects [10605-13]
10605 07	Analysis of continuous and pulsed laser ranging systems based on electro-optical modulation [10605-62]
10605 08	Computational three-dimensional imaging method of compressive LIDAR system with gain modulation [10605-78]
10605 09	Research of cartographer laser SLAM algorithm [10605-104]
10605 0A	Investigation of 100 mJ all solid state end-pumped 1064 nm Q-switched laser [10605-106]
10605 0C	Ranging accuracy improvement of time-correlated signal-photon counting lidar [10605-115]
10605 0D	The analysis of application of telescopic system in pulse-dilation framing tube [10605-117]
10605 0E	The effects of laser beam incident angle and intensity distribution on Fabry-Perot etalon spectrum [10605-120]
10605 0F	Optimization of single photon detection model based on GM-APD [10605-124]
10605 0G	Multiple targets detection method in detection of UWB through-wall radar [10605-134]

10605 OH	Barycenter location of planar or shelly target in laser reflective tomography imaging [10605-144]
10605 OI	Design of pulsed laser diode drive power for ZY3(02) laser altimeter [10605-149]
10605 OJ	Application of backpack Lidar to geological cross section measurement [10605-154]
10605 OL	A 1J LD pumped Nd:YAG pulsed laser system [10605-162]
10605 OM	Key technologies of laser point cloud data processing in power line corridor [10605-164]
10605 ON	Method study on acquiring space borne laser elevation control point [10605-201]
10605 OO	Electro-optical design of a long slit streak tube [10605-221]
10605 OQ	Opto-mechanical design and gravity-deformation analysis on optical telescope in laser communication system [10605-232]
10605 OR	Differential absorption lidar observation on small-time-scale features of water vapor in the atmospheric boundary layer [10605-236]
10605 OS	Research on large-aperture primary mirror supporting way of vehicle-mounted laser communication system [10605-239]
10605 OT	Overview of the Chinese lidar satellite development [10605-244]
10605 OU	Research on recognition of healthy situation of vegetation leaves based on multispectral LiDAR [10605-246]
10605 OV	The development of a high speed underwater optoelectronic imaging module [10605-266]
10605 OW	An image registration algorithm for interferometric synthetic aperture lidar [10605-268]
10605 OX	3D range-gated super-resolution imaging based on stereo matching for moving platforms and targets [10605-269]

SESSION 2 TARGET RECOGNITION

10605 OY	Research on implementation of an improved finite state machine model in satellite simulated system [10605-5]
10605 OZ	Reflector control technology in space laser communication [10605-6]
10605 10	A design of high-precision BLDCM drive with bus voltage protection [10605-8]
10605 11	A novel rotational invariants target recognition method for rotating motion blurred images [10605-14]
10605 12	Localization of subastral point based on matching between salient regions [10605-15]

- 10605 13 **On-line bolt-loosening detection method of key components of running trains using binocular vision** [10605-16]
- 10605 14 **Trajectory control method of stratospheric airship based on the sliding mode control and prediction in wind field** [10605-18]
- 10605 15 **Research on compressive sensing reconstruction algorithm based on total variation model** [10605-20]
- 10605 16 **Performance evaluation of sea surface simulation methods for target detection** [10605-21]
- 10605 17 **Brain MRI tumor image fusion combined with Shearlet and wavelet transform** [10605-24]
- 10605 18 **Structure design of AlN double-ended tuning fork resonators** [10605-34]
- 10605 19 **Structure design of a high-performance aluminum nitride differential resonant accelerometer** [10605-35]
- 10605 1A **Application of industrial robots in automatic disassembly line of waste LCD displays** [10605-36]
- 10605 1B **Calibration method for equivalent extinction ratio of polarized pixel in integrated micropolarizer array camera** [10605-37]
- 10605 1C **A method of camera calibration in the measurement process with reference mark for approaching observation space target** [10605-39]
- 10605 1D **Design of platform for removing screws from LCD display shields** [10605-40]
- 10605 1E **Research on automated disassembly technology for waste LCD** [10605-41]
- 10605 1F **Design of an S band narrow-band bandpass BAW filter** [10605-42]
- 10605 1G **A novel star extraction method based on modified water flow model** [10605-45]
- 10605 1H **Surface EMG signals based motion intent recognition using multi-layer ELM** [10605-46]
- 10605 1I **Research on autonomous identification of airport targets based on Gabor filtering and Radon transform** [10605-51]
- 10605 1J **Robotic fish tracking method based on suboptimal interval Kalman filter** [10605-52]
- 10605 1K **A new readout structure with multiplexed output circuits for monolithic uncooled FPA** [10605-53]
- 10605 1L **An improved multi-targets tracking algorithm based on cubature information particle filter** [10605-56]
- 10605 1M **Influences of artificial biological particles structures on far-infrared extinction performance** [10605-58]
- 10605 1N **A new improved HSV image fusion method** [10605-59]

10605 1O	A background extraction technique based on hyper circle with LMS algorithm [10605-60]
10605 1P	Intrusion recognition for optic fiber vibration sensor based on the selective attention mechanism [10605-61]
10605 1Q	Research on image complexity evaluation method based on color information [10605-64]
10605 1R	Fast infrared sea ship target detection based on improved BING algorithm [10605-67]
10605 1S	Hand gesture recognition based on convolutional neural networks [10605-68]
10605 1T	A novel readout integrated circuit for ferroelectric FPA detectors [10605-70]
10605 1U	Research on facial expression simulation based on depth image [10605-72]
10605 1V	Three-dimensional particle cloud simulation based on illumination model [10605-74]
10605 1W	A trajectory design method via target practice for air-breathing hypersonic vehicle [10605-75]
10605 1X	Multispectral image compression algorithm based on spectral clustering and wavelet transform [10605-76]
10605 1Z	Multi-model convolutional extreme learning machine with kernel for RGB-D object recognition [10605-80]
10605 20	Research of test fault diagnosis method for micro-satellite PSS [10605-81]
10605 21	Research on installation quality inspection system of high voltage customer metering device based on image recognition [10605-82]
10605 22	Change detection from remote sensing images based on fractional integral and improved FLICM [10605-83]
10605 23	The small low SNR target tracking using sparse representation information [10605-84]
10605 24	A kind of graded sub-pixel motion estimation algorithm combining time-domain characteristics with frequency-domain phase correlation [10605-93]
10605 25	A novel algorithm for electronic image stabilization based on improved optical flow [10605-94]
10605 26	Target tracking algorithm based on Kalman filter and optimization MeanShift [10605-95]
10605 27	Improved gap filling method based on singular spectrum analysis and its application in space environment [10605-97]

Part Two

10605 28	Image segmentation algorithm based on improved PCNN [10605-99]
10605 29	The extraction for echo signal of pulse laser ladar [10605-100]
10605 2A	Target recognition based on convolutional neural network [10605-105]
10605 2B	Crack image segmentation based on improved DBC method [10605-109]
10605 2C	A new airborne laser rangefinder dynamic target simulator for non-stationary environment [10605-110]
10605 2D	Spatio-temporal distribution of total suspended sediment concentration derived from MODIS data in the Yellow and East China Seas from 2001 to 2013 [10605-112]
10605 2E	Uyghur face recognition method combining 2DDCT with POEM [10605-113]
10605 2F	Feature extraction based on LBP in bar code detection [10605-116]
10605 2G	High power solid state laser with corner cube retro-reflectors of mutual-injection confinement [10605-122]
10605 2H	Coarse-to-fine deep neural network for fast pedestrian detection [10605-126]
10605 2I	The method of micro-motion cycle feature extraction based on confidence coefficient evaluation criteria [10605-127]
10605 2J	Water quality real-time monitoring system via biological detection based on video analysis [10605-128]
10605 2K	Distance information extraction method of moving target based on single photon [10605-129]
10605 2L	Target detection method by airborne and spaceborne images fusion based on past images [10605-130]
10605 2M	Projector calibration algorithm in omnidirectional structured light [10605-131]
10605 2N	Single image super resolution algorithm based on edge interpolation in NSCT domain [10605-132]
10605 2O	Evolution-based outlier removal for geometric model fitting [10605-133]
10605 2P	Investigation of combining output a uniform flat-top beam of six solid state lasers by DOE [10605-135]
10605 2Q	Application of high precision temperature control technology in infrared testing [10605-138]

10605 2R	Influence of fundamental mode fill factor on disk laser output power and laser beam quality [10605-139]
10605 2S	AOD furnace splash soft-sensor in the smelting process based on improved BP neural network [10605-140]
10605 2T	Research on optimization method of deep neural network [10605-141]
10605 2U	Structure guided GANs [10605-142]
10605 2V	An online ID identification system for liquefied-gas cylinder plant [10605-143]
10605 2W	Space target recognition method based on dynamic template matching of HRRP [10605-146]
10605 2X	The optional selection of micro-motion feature based on Support Vector Machine [10605-145]
10605 2Y	Spectral clustering for water body spectral types analysis [10605-147]
10605 2Z	Multi-focus elemental images fusion via NSCT in integral imaging [10605-150]
10605 30	Adaptive compressed sensing of multi-view videos based on the sparsity estimation [10605-158]
10605 31	Research on multi-source image fusion technology in haze environment [10605-159]
10605 32	Low illumination color image enhancement based on improved Retinex [10605-160]
10605 33	Distance-based over-segmentation for single-frame RGB-D images [10605-163]
10605 34	Dissipation function and adaptive gradient reconstruction based smoke detection in video [10605-165]
10605 35	Monitoring <i>Ulva prolifera</i> in the Yellow Sea and East China Sea derived from multi-source remote sensing images [10605-170]
10605 36	Detecting of foreign object debris on airfield pavement using convolution neural network [10605-172]
10605 37	Crowd counting via region based multi-channel convolution neural network [10605-174]
10605 38	Generation of vector beams with polarization rotation metasurfaces [10605-175]
10605 39	Testing of null correctors by tilted computer-generated holograms with maximum likelihood algorithm [10605-177]
10605 3A	Analysis on detection accuracy of binocular photoelectric instrument optical axis parallelism digital calibration instrument [10605-179]
10605 3B	Geometric shapes inversion method of space targets by ISAR image segmentation [10605-180]

10605 3D	Tissues segmentation based on multi spectral medical images [10605-183]
10605 3E	Fast iterative censoring CFAR algorithm for ship detection from SAR images [10605-186]
10605 3F	Review of intelligent bionic vision navigation [10605-187]
10605 3G	High-resolution extraction of particle size via Fourier Ptychography [10605-188]
10605 3H	High precision surface measurement with a trans-scale optical measurement method [10605-189]
10605 3I	Deep residual networks of residual networks for image super-resolution [10605-190]
10605 3J	High speed 3D two-photon fluorescence microscopy by femtosecond laser pulses [10605-195]
10605 3K	Environment exploration and SLAM experiment research based on ROS [10605-199]
10605 3L	Measurement of atmospheric NO₂ profile using three-wavelength dual-differential absorption lidar [10605-204]
10605 3N	Face sketch recognition based on edge enhancement via deep learning [10605-207]
10605 3O	3D face analysis by using Mesh-LBP feature [10605-215]
10605 3P	Multi-sensor image fusion algorithm based on multi-objective particle swarm optimization algorithm [10605-216]
10605 3Q	Pedestrian detection in infrared image using HOG and Autoencoder [10605-217]
10605 3R	Convolutional neural network for road extraction [10605-218]
10605 3S	Dimensionality-varied convolutional neural network for spectral-spatial classification of hyperspectral data [10605-219]
10605 3T	Image defog algorithm based on open close filter and gradient domain recursive bilateral filter [10605-220]
10605 3U	X-ray counting imaging based on spherical collimation [10605-223]
10605 3V	Navigation system based on machine vision of multiple reference markers [10605-226]
10605 3W	Automatic detection method of sea surface target based on morphological processing [10605-230]
10605 3X	A multichannel and wide suitability digital control device for liquid-crystal microlens controlled electrically [10605-234]
10605 3Y	Learning binary code via PCA of angle projection for image retrieval [10605-240]
10605 3Z	Remote sensing image ship target detection method based on visual attention model [10605-241]

- 10605 40 **Present situation and trend of precision guidance technology and its intelligence** [10605-243]
- 10605 42 **Quality assessment method based on the image edge for monoclonal-picking instrument** [10605-247]
- 10605 43 **Image denoising method based on FPGA in digital video transmission** [10605-248]
- 10605 44 **A new registration evaluation index of multi-mode images** [10605-249]
- 10605 45 **Study on extraction method of smoke contour by improved vibe algorithm and watershed algorithm** [10605-251]
- 10605 46 **Design of real-time communication system for image recognition based colony picking instrument** [10605-252]
- 10605 47 **TWT transmitter fault prediction based on ANFIS** [10605-256]
- 10605 48 **Non-linear phase noise processing method in thin film measurement with the frequency domain white light microscopic interferometry** [10605-257]
- 10605 49 **Optical second harmonic generation in monolayer MoS₂** [10605-258]
- 10605 4A **An intelligent identification algorithm for the monoclonal-picking instrument** [10605-259]
- 10605 4B **Induced subgraph searching for geometric model fitting** [10605-260]
- 10605 4C **Survey of computer vision technology for UVA navigation** [10605-262]
- 10605 4D **Optical measuring system for the geometrical parameters of Rockwell and Vickers diamond hardness indenters** [10605-263]
- 10605 4E **An improved self-correct algorithm for pavement texture** [10605-264]
- 10605 4F **Design of an adaptive regulator for an automated microscope stage** [10605-267]
- 10605 4G **Novel dual-probes atomic force microscope for line width measurements** [10605-270]
- 10605 4H **Moving object detection in video satellite image based on deep learning** [10605-272]
- 10605 4I **Estimation for aerial detection effectiveness with cooperation efficiency factors of early-warning aircraft in early-warning detection SoS under BSC framework** [10605-274]
- 10605 4J **High order sum and difference of axial neighborhood algorithm for subpixel edge localization** [10605-275]
- 10605 4K **Design method of LED rear fog lamp based on freeform micro-surface reflectors** [10605-276]
- 10605 4L **Influence of atmospheric turbulence on lidar performance** [10605-277]
