

PROCEEDINGS OF SPIE

Smart Biomedical and Physiological Sensor Technology XV

**Brian M. Cullum
Douglas Kiehl
Eric S. McLamore**
Editors

**15–17 April 2018
Orlando, Florida, United States**

Sponsored and Published by
SPIE

Volume 10662

Proceedings of SPIE 0277-786X, V. 10662

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Smart Biomedical and Physiological Sensor Technology XV*, edited by Brian M. Cullum, Douglas Kiehl, Eric S. McLamore, Proceedings of SPIE Vol. 10662 (SPIE, Bellingham, WA, 2018) Seven-digit Article CID Number.

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/18/\$18.00.

Printed in the United States of America

Publication of record for individual papers is online in the SPIE Digital Library.

SPIE. DIGITAL LIBRARY

SPIDigitalLibrary.org

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v	<i>Authors</i>
vii	<i>Conference Committee</i>

ADVANCED MATERIALS

10662 03	Growth of bio sensor materials by physical vapor transport method [10662-2]
10662 05	Design and characteristics of hydroxyapatites: effect of radiation [10662-4]
10662 06	Crystallization behavior of biochemicals: morphologies and kinetics of complex multinary organics (Invited Paper) [10662-5]

ADVANCES TOWARD CLINICAL

10662 0A	Kapton polyimide-based EEG microelectrode array and interfaces for mice brainwave recordings and analysis [10662-9]
10662 0B	Extraction of vector dipoles from bathtub ECG leads for single and double ellipsoidal phantoms [10662-10]
10662 0C	A system for unassisted ECG/fECG and novel VLSI architecture-and-microcells for it [10662-11]
10662 0D	Theoretical and experimental studies of transcranial alternating current stimulation (tACS) beating signal in phantoms and mice brains [10662-12]

MEDICAL MONITORING AT THE FOREFRONT

10662 0E	FocusLocus: ADHD management gaming system for educational achievement and social inclusion [10662-14]
10662 0F	Wearable biosignal acquisition system for decision aid [10662-15]
10662 0H	Multi-level analysis of spatio-temporal features in non-mass enhancing breast tumors [10662-17]
10662 0I	Detection of the breast cancer based on the electrical impedance myography parameters using finite element method [10662-18]

BIOSENSING PLATFORMS ON THE HORIZON

- 10662 0K **Salicylic acid (SA) detection using bi-enzyme microfluidic electrochemical sensor** [10662-20]
- 10662 0O **Near infrared spectroscopy as a tool for in vivo analysis of human muscles** [10662-24]

POSTER SESSION

- 10662 0Q **Temporal and strain dependence of scattering coefficients for fiber optic sensing** [10662-26]
- 10662 0R **Sol-gel channel waveguide for optical manipulation** [10662-27]
- 10662 0S **Triple wavelength fiber laser employing SOA incorporated with a tapered fiber** [10662-28]
- 10662 0T **Surface variation analysis of proximal interphalangeal joint of osteoarthritis with fringe projection profilometry** [10662-29]
- 10662 0U **Breast surface coordinate variation analysis caused by round shape tumor with fringe projection profilometry** [10662-30]
- 10662 0V **The cadmium sulfide light emitting diodes die performance based on different structures** [10662-31]
