Volume 10695

Proceedings of SPIE 0277-786X, V. 10695

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Optical Instrument Science, Technology, and Applications*, edited by Nils Haverkamp, Richard N. Youngworth, Proceedings of SPIE Vol. 10695 (SPIE, Bellingham, WA, 2018) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Authors*

vii *Conference Committee*

ix *Introduction*

SESSION 1 SPACE AND REMOTE SENSING

10695 02 **Algorithm design for image-based wavefront control without wavefront sensing** [10695-1]

10695 03 **Formation flying metrology system for the ESA-PROBA3 mission: the Shadow Positioning Sensors (SPS)** [10695-2]

10695 04 **Adaptive wireless sensor for aerospace application** [10695-3]

SESSION 2 OPTICAL AND PHOTONIC INSTRUMENT APPLICATIONS

10695 06 **The hazard of accommodation and scanning LIDARs** [10695-6]

10695 07 **Performance enhancements from telescope optics in a polygon mirror-based, spectral filter for Swept Source-Optical Coherence Tomography (SS-OCT)** [10695-7]

10695 08 **Image formation in trans-illumination interferometry** [10695-8]

SESSION 3 COMPUTATIONAL METHODS AND PROTOTYPING

10695 0B **Numerical prediction and approximate inversion of optoacoustic signals in tissue phantoms** [10695-11]

10695 0C **Resolution and accuracy of non-linear regression of PSF with artificial neural networks** [10695-12]

10695 0D **Measurement of second-order phenomenon with spatial light modulator** [10695-13]

10695 0E **Z-domain modelling of a quadruple asymmetrical micro optical ring resonator and its performance as optical filter** [10695-15]

SESSION 4 METROLOGY AND APPLICATIONS

10695 0F **Measurement of spherical, aspherical and freeform specular surfaces using experimental raytracing in simulation and measurement** [10695-16]

10695 0G **Functional tolerancing using full surface metrology** [10695-17]

10695 0H **Fast and precision displacement/3D profile measuring interferometers using sinusoidal frequency/phase modulation without lock-in amplifiers** [10695-18]

10695 0J **New light absorbing material for grazing angles** [10695-20]

10695 0K **Virtual prototyping as an approach to optimizing starting point selection in a mass production of camera lenses** [10695-14]

POSTER SESSION: SPACE AND REMOTE SENSING

10695 0M **The compact light-weighted hyperspectral imager based on curved prisms: calibration and laboratory test** [10695-22]

POSTER SESSION: OPTICAL AND PHOTONIC INSTRUMENT APPLICATION

10695 0N **A novel noise analysis method for multi-oscillator ring laser gyro** [10695-23]

10695 0O **Optical fiber neurosystem for deep-lying brain tumors phototheranostics** [10695-24]

10695 0P **The concept of the portable spectrometer for fast assessment of skin engraftment via exogenous and endogenous fluorophores** [10695-25]

10695 0Q **Computer vision system selection for control of rapid prototyping processes** [10695-26]

POSTER SESSION: COMPUTATIONAL METHODS AND PROTOTYPING

10695 0T **Efficiency analysis of optical schemes for the development of high power laser diode modules** [10695-30]

POSTER SESSION: METROLOGY AND APPLICATIONS

10695 0X **Determination of balance degree of spinning gyro disk by using optical feedback interferometry** [10695-34]
