

PROCEEDINGS OF SPIE

Optical System Alignment, Tolerancing, and Verification XII

José Sasián
Richard N. Youngworth
Editors

19–20 August 2018
San Diego, California, United States

Sponsored and Published by
SPIE

Volume 10747

Proceedings of SPIE 0277-786X, V. 10747

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Optical System Alignment, Tolerancing, and Verification XII*, edited by José Sasián, Richard N. Youngworth, Proceedings of SPIE Vol. 10747 (SPIE, Bellingham, WA, 2018) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v	<i>Authors</i>
vii	<i>Conference Committee</i>
ix	<i>Introduction</i>

SESSION 1 OPTICAL ALIGNMENT

10747 02	Alignment of a three-mirror telescope using the sine condition test [10747-1]
10747 04	Assembly and testing of a large zoom lens for proton radiography (Invited Paper) [10747-3]
10747 05	New technique of segments alignment in a large dimensions mirror [10747-4]

SESSION 2 CALIBRATION, MEASUREMENT, AND VERIFICATION

10747 06	The measurement of the misalignment induced aberration of a miniature lens [10747-5]
10747 07	Calibration methods for a dual-wavelength interferometer system [10747-6]
10747 08	Experimental verification of compliant mirror wavefront correction using a single actuator [10747-7]
10747 09	Application of adaptive photodetectors and the Talbot effect to measure the focal length of a lens [10747-8]

SESSION 3 INSTRUMENTS AND ALIGNMENT

10747 0A	Confocal microscopy for high-precision non-contact optical measurements [10747-9]
10747 0B	Introduction to optical alignment techniques: a long-running SPIE short course (Invited Paper) [10747-10]

- 10747 0C **Assessing the W2-AM for use in profiling x-ray optics** [10747-11]
- 10747 0D **A novel mirror-mount design suitable for laboratory and OEM applications** [10747-12]

SESSION 4 OPTICAL TOLERANCING

- 10747 0F **A designer's point of view on integration of ANSI scratch and dig into ISO surface imperfections**
[10747-14]
- 10747 0G **As-fab elements: design vs. reality** [10747-15]
- 10747 0H **Increasing system stability with tighter tolerances following the Taguchi Robust Design
approach on short-pulsed laser helical drilling of stainless steel** [10747-16]
- 10747 0I **Towards euclidean auto-calibration of stereo camera arrays** [10747-17]
- 10747 0J **Design of a SWIR optical zoom system for surveillance** [10747-22]

POSTER SESSION

- 10747 0M **Impact of assembly error of cascade prism on beam scanning precision** [10747-20]
