Proceedings of SPIE, 1605-7422, V. 10854

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Endoscopic Microscopy XIV*, edited by Guillermo J. Tearney, Thomas D. Wang, Melissa J. Suter, Proceedings of SPIE Vol. 10854 (SPIE, Bellingham, WA, 2019) Seven-digit Article CID Number.

---

**Paper Numbering:** *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

vii	<i>Conference Committee</i>

---

## NEW ENDOMICROSCOPY TECHNIQUES

---

10854 16	<b>A computational imaging approach for resolution enhancement in fiber bundle endomicroscopy [10854-43]</b>
10854 17	<b>Towards high speed needle microscopy through a multimode fiber by single pixel imaging [10854-44]</b>

---

## ENDOSCOPIC MICROSCOPY: JOINT SESSION WITH CONFERENCE 10854 AND CONFERENCE 10931

---

10854 1D	<b>Motion compensation in structured illumination fluorescence endomicroscopy [10854-50]</b>
----------	--

---

## POSTER SESSION

---

10854 1E	<b>In vivo monitoring of theranostic fluorescence bacteria in orthotopic colon cancer model with multiscale fluorescence endoscopy [10854-38]</b>
----------	---
