Volume 10937

Proceedings of SPIE 0277-786X, V. 10937

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Optical Data Science II*, edited by Bahram Jalali, Ken-ichi Kitayama, Proceedings of SPIE Vol. 10937 (SPIE, Bellingham, WA, 2019) Seven-digit Article CID Number.

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is $18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/19/$18.00.

Printed in the United States of America by Curran Associates, Inc., under license from SPIE.

Publication of record for individual papers is online in the SPIE Digital Library.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Authors*

vii *Conference Committee*

ix *Introduction*

SESSION 1 EMERGING TECHNIQUES

10937 04 **Ultrafast linear array detector for real-time imaging (Invited Paper)** [10937-2]

SESSION 2 KEYNOTE SESSION

10937 07 **Ultimate augmented reality displays with passive optics: fundamentals and limitations (Keynote Paper)** [10937-5]

SESSION 3 AI IN COMPUTATIONAL SENSING AND IMAGING

10937 0B **Recent results using laser speckle in multimode waveguides for random projections (Invited Paper)** [10937-9]

10937 0C **Waveform digitizer based lock-in amplifier using GPU digital signal processing (Invited Paper)** [10937-10]

SESSION 4 DEEP LEARNING MICROSCOPY

10937 0H **New approach for luminescence sensing based on machine learning** [10937-14]

10937 0I **Training a CNN to robustly segment the human body parts in range image sequences** [10937-15]

10937 0J **Fiber optical distributed acoustic sensing signal enhancements using ultrafast laser and artificial intelligence for human movement detection and pipeline monitoring** [10937-16]

POSTER SESSION

10937 0L **Convolutional neural networks for the reconstruction of spectra in compressive sensing spectrometers** [10937-20]
