SPIE

**Volume 10946**

Proceedings of SPIE 0277-786X, V. 10946

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Metro and Data Center Optical Networks and Short-Reach Links II*, edited by Atul K. Srivastava, Madeleine Glick, Youichi Akasaka, Proceedings of SPIE Vol. 10946 (SPIE, Bellingham, WA, 2019) Seven-digit Article CID Number.

---

**Paper Numbering:** *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

v *Authors*  
vii *Conference Committee*

---

**SESSION 1**      **OPTICAL COMMUNICATION KEYNOTE SESSION: JOINT SESSION WITH CONFERENCES 10945, 10946, AND 10947**

---

10946 03      **Photonic integrated WDM cross-connects for optical metro and data center networks (Keynote Paper)** [10946-8]

---

**SESSION 2**      **DATACENTER AND HPC NETWORK TECHNOLOGIES I**

---

10946 04      **Latest standardization status and its future directions for high speed optical transceivers (Invited Paper)** [10946-2]

10946 05      **Silicon photonic-enabled bandwidth steering for resource-efficient high performance computing (Invited Paper)** [10946-3]

10946 06      **VCSEL-based sliceable bandwidth/bitrate variable transceivers (Invited Paper)** [10946-4]

---

**SESSION 3**      **DATACENTER AND HPC NETWORK TECHNOLOGIES II**

---

10946 07      **Challenges and opportunities in system-level evaluation of photonics (Invited Paper)** [10946-5]

10946 08      **VCSEL-based broadband optical switch for ultra-wide high-speed traffic routing in Datacom** [10946-6]

10946 0A      **2.24 Tbit/s PAM-4 transmission by an InAs/InP quantum dot mode-locked laser** [10946-9]

---

**SESSION 4**      **NETWORK ARCHITECTURE AND SECURITY**

---

10946 0B      **Digital-coherent PSK Y-00 quantum stream cipher for secure fiber-optic transmission (Invited Paper)** [10946-10]

10946 0C      **Novel network architecture enabling quasi-Nyquist wavelength-division multiplexing** [10946-11]

10946 OD **Experiment-based detection of service disruption attacks in optical networks using data analytics and unsupervised learning (Invited Paper)** [10946-12]

---

**SESSION 5 OPTICAL NETWORKS FOR 5G**

---

10946 OE **ROF-OFDM system within terahertz-wave frequency range from 350GHz to 510GHz** [10946-13]

10946 OF **Supporting QoE/QoS-aware end-to-end network slicing in future 5G-enabled optical networks (Invited Paper)** [10946-14]

10946 OG **Network resource abstraction for 5G radio access network (Invited Paper)** [10946-15]

10946 OH **Demonstration of a polar-coded optical wireless integration system at K-band** [10946-16]

---

**SESSION 6 OPTICAL COMPONENTS FOR DATACENTER NETWORKS**

---

10946 OI **DBSCAN-based decision technique for 60Gbps PAM-8 IM/DD system** [10946-17]

10946 OJ **Demonstration of 160Gbps optical duo-binary signal generation and transmission** [10946-18]

10946 OK **Benefits of optical transceivers employing intentionally nonuniform quantization for advanced modulation formats (Invited Paper)** [10946-19]

10946 OL **Compensation of modulators nonlinearities for higher order modulation formats** [10946-20]

---

**SESSION 7 OPTICAL SOLUTIONS FOR DATACENTER NETWORKS**

---

10946 OM **Co-propagating distributed Raman amplifier utilizing incoherent pumping (Invited Paper)** [10946-21]

10946 ON **PAM-6 generation using 32-QAM constellation** [10946-22]

10946 OO **All-optical wavelength reservation for flexible spectrum networks using amplifier saturation and VCSEL injection** [10946-23]
