

# PROCEEDINGS OF SPIE

## *Photomask Japan 2019: XXVI Symposium on Photomask and Next-Generation Lithography Mask Technology*

Akihiko Ando  
*Editor*

16–18 April 2019  
Yokohama, Japan

*Organized by*  
Photomask Japan  
SPIE

*Co-organized by*  
BACUS  
EMLC

*In Cooperation with*  
The Japan Society of Applied Physics  
The Japan Society for Precision Engineering  
The Institute of Electrical Engineering Japan  
Technical Exhibit in Cooperation with SEMI Japan

*Supported by*  
City of Yokohama

*Published by*  
SPIE

Volume 11178

Proceedings of SPIE 0277-786X, V. 11178

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Photomask Japan 2019: XXVI Symposium on Photomask and Next-Generation Lithography Mask Technology*, edited by Akihiko Ando, Proceedings of SPIE Vol. 11178 (SPIE, Bellingham, WA, 2019) Seven-digit Article CID Number.

---

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

vii	<i>Authors</i>
ix	<i>Conference Committee</i>

---

## PMJ19 OPENING SESSION I

11178 02	<b>FPGA capability expansion despite technology challenges (Keynote Paper)</b> [11178-22]
----------	---

---

## LITHO AND ETCHING

11178 03	<b>Design and investigation of a maskless lithography system for printing patterns on the inside surface of a long pipe</b> [11178-5]
11178 04	<b>Improvement study of Mitsui SOC materials for multilayer lithography process</b> [11178-26]

---

## FPD

11178 05	<b>Research on photomask process for FPD (Invited Paper)</b> [11178-8]
----------	--

---

## EUVL I

11178 06	<b>ASML NXE pellicle update</b> [11178-17]
11178 07	<b>Evaluation of local CD and placement distribution on EUV mask and its impact on wafer</b> [11178-27]

---

## EDA AND MDP

11178 08	<b>MPC model sensitivity analysis: model ambit vs. correction runtime</b> [11178-12]
11178 09	<b>How curvilinear mask patterning will enhance the EUV process window: a study using rigorous wafer+mask dual simulation</b> [11178-18]
11178 0A	<b>How GPU-accelerated simulation enables applied deep learning for masks and wafers</b> [11178-28]

---

**SPECIAL SESSION: MEMS & PUF**

---

11178 OB      **Development of massive parallel electron beam write system** [11178-7]

---

**EUVL II**

---

11178 OC      **Open issues in mask technology as EUV enters high volume manufacturing (Invited Paper)**  
[11178-15]

11178 OD      **The study of relationship between defect sensitivity and inspectability on EUV masks with  
19x nm mask inspection** [11178-20]

11178 OE      **Lifetime test on EUV photomask with EBL2** [11178-23]

---

**PMJ19 OPENING SESSION III**

---

11178 OF      **Mask absorber development to enable next-generation EUVL (Invited Paper)** [11178-24]

---

**EUVL III**

---

11178 OG      **Ion beam etch for the patterning of advanced absorber materials for EUV masks** [11178-25]

11178 OH      **Functional flatness impact targets (Key Performance Indicators) for the high-volume  
manufacturing of EUV photomask blanks** [11178-19]

---

**NIL**

---

11178 OI      **The advantages of nanoimprint lithography for semiconductor device manufacturing** [11178-6]

11178 OJ      **Status of overlay performance for NIL high volume manufacturing** [11178-16]

---

**CD AND DEFECT CONTROL**

---

11178 OK      **Advanced laser repair of EUV photomasks** [11178-10]

11178 OL      **Deal gently with the bird you are trying to catch: small scale CD control with machine learning**  
[11178-11]

---

**POSTER SESSION: PROCESS AND MATERIAL**

---

11178 OM     **A study of airborne molecular contamination to Cr etching process** [11178-1]

---

**POSTER SESSION: EUVL MASKS**

---

11178 ON     **Development of the breathable frame for closed EUV pellicle** [11178-9]

11178 OO     **EUV pellicle qualification on transmission and reflectance** [11178-21]

---

**POSTER SESSION: EDA AND MDP**

---

11178 OQ     **Mask process correction for optical weak pattern improvement** [11178-13]

---

**POSTER SESSION: MASK OVERLAY**

---

11178 OR     **The impact of the reticle and wafer alignment mark placement accuracy on the intra-field mask-to-mask overlay** [11178-14]
