ISPRS—International Society for Photogrammetry and Remote Sensing  
EARSeL—European Association of Remote Sensing Laboratories (Germany)

*Published by*  
SPIE

**Volume 11157**

Proceedings of SPIE 0277-786X, V. 11157

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Remote Sensing Technologies and Applications in Urban Environments IV*, edited by Thilo Erbertseder, Nektarios Chrysoulakis, Ying Zhang, Frank Baier, Proceedings of SPIE Vol. 11157 (SPIE, Bellingham, WA, 2019) Seven-digit Article CID Number.

---

**Paper Numbering:** *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

v *Authors*  
vii *Conference Committee*

---

## URBAN AIR QUALITY AND CLIMATE I

---

- 11157 03 **Combining different sensors for the detailed analysis of the daytime and nighttime UHI** [11157-5]
- 11157 05 **Modeling the prevalence of respiratory chronic diseases risk using satellite images and environmental data** [11157-7]

---

## SMART CITIES

---

- 11157 06 **Multisensor monitoring of monuments: measurement of vibration frequencies** [11157-10]
- 11157 08 **Initial investigations into using an ensemble of deep neural networks for building façade image semantic segmentation** [11157-12]
- 11157 09 **Encouraging citizens for recycling improvement: results of the STERLING initiative** [11157-13]
- 11157 0A **People in pixels: developing remote sensing-based geodemographic estimation through volunteered geographic information and crowdsourcing** [11157-14]

---

## URBAN PLANNING I

---

- 11157 0B **Multi-scale correlation-based feature selection and random forest classification for LULC mapping from the integration of SAR and optical Sentinel images (Invited Paper)** [11157-15]
- 11157 0C **Multi temporal satellite images for growth detection and urban sprawl analysis; Dubai City, UAE** [11157-16]

---

## URBAN PLANNING II

---

- 11157 0F **Mapping of damaged buildings through simulation and change detection of shadows using LiDAR and multispectral data (Invited Paper)** [11157-19]
- 11157 0G **Improvement of land classification in airports using 3D information** [11157-20]
- 11157 0H **Delimitation of urban systems by Luojia 1-01 night-time light imagery** [11157-21]

### URBAN PLANNING III

---

- 11157 OJ **Machine learning methods and classification of vegetation in Brest, France (Best Student Paper Award)** [11157-23]
- 11157 OK **Dense point cloud generation of urban scenes from nadir RGB images in a remote sensing system** [11157-24]
- 11157 ON **Change detection of urban area based on multisensor imagery** [11157-27]

### POSTER SESSION

---

- 11157 OO **Landsat 8 thermal data to support urban management and planning in the climate change era: a case study in Torino area, NW Italy** [11157-4]
- 11157 OP **Defensive perimeter detection by polarization change of the fibre optic signal** [11157-28]
- 11157 OR **Analysis of climate change-urban vegetation land cover interaction through time-series satellite and field data** [11157-30]
- 11157 OT **A multispectral tunnel inspection system for simultaneous moisture and shape detection** [11157-32]
- 11157 OW **Construction of 3D models of the Earth's surface in urban environments using remote sensing technologies** [11157-35]
- 11157 OX **On application of nonlinear reaction-diffusion-advection models to simulation of transport of chemically-active impurities** [11157-36]
- 11157 OV **Implication of urban heat island (UHI) related to human activities: a case study in Mongolia** [11157-34]
