

PROCEEDINGS OF SPIE

***International Conference on
Quantum, Nonlinear, and
Nanophotonics 2019 (ICQNN 2019)***

Alexander A. Dreischuh

Tony Spassov

Isabelle Staude

Dragomir N. Neshev

Editors

2–5 September 2019

Sofia, Bulgaria

Organized by

Sofia University St. Kliment Ohridski (Bulgaria)

The Australian National University (Australia)

Friedrich-Schiller-Universität Jena (Germany)

Sponsored by

Office of Naval Research Global

Sofia University St. Kliment Ohridski (Bulgaria)

SPIE

Volume 11332

Proceedings of SPIE 0277-786X, V. 11332

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on Quantum, Nonlinear, and Nanophotonics 2019 (ICQNN 2019)*, edited by Alexander A. Dreischuh, Tony Spassov, Isabelle Staude, Dragomir N. Neshev, Proceedings of SPIE Vol. 11332 (SPIE, Bellingham, WA, 2019) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v	<i>Authors</i>
vii	<i>Conference Committee</i>
ix	<i>Introduction</i>

METASURFACES

11332 02	Sensing through the optical radiation pattern in dielectric metastructures (Invited Paper) [11332-20]
11332 03	Microwave characteristics of thin Al₂O₃ membranes as metasamples for optical applications (Invited Paper) [11332-4]

NANOMATERIALS

11332 04	Nanocomposite of polymer liquid crystal/single wall carbon nanotubes: isothermal and non-isothermal phase kinetics (Invited Paper) [11332-3]
11332 05	Formation of stable and horse head-like shape platinum nanoparticles at the air/water interface (Invited Paper) [11332-10]
11332 06	Synthesis and catalytic properties of nanoporous Pd-based alloys: chemical vs. electrochemical de-alloying of Pd-Ni-Si glasses [11332-14]
11332 07	Colorimetric detection of iron(III) based on sensitive and selective plasmonic response of starch-coated silver nanoparticles [11332-17]
11332 08	Laser beam reflection by nano-designed two-layer nanostructured carbonic material formed in transparent hydrocarbon polymer by ion implantation [11332-1]
11332 09	Constrained droplet eigenfrequency approach in nanodroplets research [11332-5]

NANOTECHNOLOGY

11332 0A	Laser-induced break down spectroscopy for quantitative analysis of electrolytes (Na, K, Ca, Mg) in human blood serum (Invited Paper) [11332-7]
11332 0B	A novel construction of Z-scheme CuO/g-C₃N₄ heterojunction for visible-light-driven photocatalysis in natural seawater (Invited Paper) [11332-8]

- 11332 OC **Preparation and optical properties of functionalized hydrophobic aerogel granules (Invited Paper)** [11332-9]
- 11332 OD **Synthesis and characterization of As(V)-imprinted smart polymer gel for selective adsorption of As(V) ions** [11332-15]
- 11332 OE **Viability of zone melting on a micro scale using a focused electron beam (Invited Paper)** [11332-19]

PLASMONICS

- 11332 OF **An ellipsometrical study of SPR of ferritin on gold surface** [11332-6]
- 11332 OG **Plasmonic nanowires embedded in electrospun PVA nanofibers (Invited Paper)** [11332-12]

NONLINEAR OPTICS

- 11332 OH **Four-photon parametric mixing in CW and pulse regimes in single mode optical fibers** [11332-13]

BEAM SHAPING

- 11332 OI **Longitudinal optical force of laser pulses in continuous media (Invited Paper)** [11332-16]
- 11332 OJ **Multi-spot focal pattern formation and beam reshaping by mixing square-shaped and hexagonal vortex lattices** [11332-18]
- 11332 OK **Transformation of a circularly obstructed Bessel beam by a fork-shaped grating** [11332-2]
