Society of Petroleum Engineers
Hydraulic Fracturing Technology Conference
2007

TABLE OF CONTENTS

SPE 104610 Combining Acid- and Hydraulic-Fracturing Technologies Is the Key to Successfully Stimulating the Orito Formation.....	1
<i>Rafael Rozo and Javier Paez, Petrominerales; Alberto Mendoza, Ecopetrol; and Arthur Milne and Diego Soler, Schlumberger</i>	
SPE 105064 Perforating for Fracturing—Best Practices and Case Histories.....	10
<i>Reinhard Pongratz, Klaas von Gijtenbeek, Roman Kontarev, and B.W. McDaniel, Halliburton</i>	
SPE 105066 A New Delay Additive for Hydraulic Fracturing Fluids	26
<i>D.E. Putzig and J.D. St.Clair, E.I. du Pont de Nemours and Co. Inc.</i>	
SPE 105182 The Velocity Field and Pressure-Drop Behavior in a Rough-Walled Fracture.....	31
<i>J. Mou, A.D. Hill, and D. Zhu, Texas A&M U.</i>	
SPE 105185 Horizontal Wellbore Placement Can Signifi cantly Impact Hydraulic Fracturing Stimulation Results.....	43
<i>Billy W. McDaniel and Jim B. Surjaatmadja, Halliburton</i>	
SPE 105205 Remedial Frac Operations in Deep Tectonic Wells: Mechanical and Operational Issues.....	59
<i>M. Rylance, BPX; T.W. Doig, Gagie Corp.; R. Hoff Jr., PTS; and S.N. Knopp, BJS</i>	
SPE 105387 Waste Subsurface Injection: Pressure Injection and Decline Analysis.....	76
<i>T.A. Shokanov, K.G.Nolte, F.E. Fragachan, A. Ovalle, and T. Geehan, M-I SWACO</i>	
SPE 105620 Experimental Study of Hydraulic Fracturing in Sand as a Function of Stress and Fluid Rheology.....	87
<i>C.J. de Pater and Y. Dong, Delft U. of Technology</i>	
SPE 105657 Semiphenomenological Model of Hydraulic Fracturing in Granular Media.....	97
<i>Olga Alekseenko, Schlumberger</i>	
SPE 105681 Fracturing Previously Bypassed Highly Laminated Tight Gas Sands: A Production Optimization Case Study in South Texas.....	112
<i>D.L. Fairhurst, Schlumberger; M.E. Semmelbeck, Escondido Resources; B.W. Reynolds, S. Indriati, and J.W. Lewis, Schlumberger; and A.C. Ellis, W.E. Deupree, and J.K. von Plonski, Escondido Resources</i>	
SPE 105767 A New Approach for Reliable Estimation of Hydraulic Fracture Properties in Tight Gas Wells	120
<i>Y. Cheng, W.J. Lee, and D.A. McVay, Texas A&M U.</i>	
SPE 106025 Simultaneous Recording of Hydraulic-Fracture-Induced Microseisms in the Treatment Well and in a Remote Well.....	132
<i>K.D. Mahrer and R.J. Zinno, Weatherford Intl., and J.R. Bailey, ExxonMobil Upstream Research Co.</i>	
SPE 106030 A Detailed Comparison of Experimental and Numerical Data on Hydraulic Fracture Height Growth Through Stress Contrasts	136
<i>R.G. Jeffrey and A.P. Bungler, CSIRO Petroleum</i>	
SPE 106040 A New Model for Matching Fracturing Fluid Flowback Composition	146
<i>Rick Gdanski, Jim Weaver, and Billy Slabaugh, Halliburton</i>	
SPE 106043 Effect of Production-Induced Stress Field on Refracture Propagation and Pressure Response	155
<i>X. Weng and E. Siebrits, Schlumberger</i>	
SPE 106050 Horizontal Fracture Stimulation Success in the Alpine Formation, North Slope, Alaska	164
<i>Tim S. Schneider, David O. Uldrich, and Richard Hodge, ConocoPhillips Co.; Bob Barree, Barree & Assocs.; and Michael W. Martin, Schlumberger</i>	
SPE 106051 Hydraulic Fracturing Down Under.....	172

<i>J.M. McGowen, Halliburton, and J.V. Gilbert and E. Samari, Santos Ltd.</i>	
SPE 106052 Pin-Point Fracturing (PPF) in Challenging Formations	190
<i>K.J. Beatty, Santos Ltd.; J.M. McGowen, Halliburton; and J.V. Gilbert, Santos Ltd.</i>	
SPE 106058 Enhanced Fracture Entry Friction Analysis of the Rate Step-Down Test	203
<i>Leon V. Massaras, Synergy Technology Co., and Alexandru Dragomir and Daniel Chiriac, PETROM</i>	
SPE 106070 Stimulation of Gas Shales: They're All the Same—Right?	219
<i>H. Lee Mathews, Cornerstone Natural Gas Engineering, and Gary Schein and Mark Malone, BJ Services Co.</i>	
SPE 106083 “Super Height Growth”—Strange Surface Pressures and Refrac Potential	236
<i>Ivan R. Gil and Michael B. Smith, NSI Technologies; Ziad Haddad and Perry Lawrence, Devon Energy Corp.; Robert Lestz, Chevron; and David Schott and Jennifer Reese, BP</i>	
SPE 106085 Selection of Stimulation Fluids and Treatment Design for Low-Permeability Reservoirs.....	249
<i>Michael W. Conway, Stim-Lab Inc.; Steven W. Lindeman, Cabot Oil & Gas Corp.; and Robert D. Barree, Barree & Assocs. LLC</i>	
SPE 106089 Extrapolation of Laboratory Proppant Placement Behavior to the Field in Slickwater Fracturing Applications	256
<i>T.R. Woodworth, Williams Production Co., and J.L. Miskimins, Colorado School of Mines</i>	
SPE 106111 Effects of Frictional Geological Discontinuities on Hydraulic Fracture Propagation	268
<i>X. Zhang and R.G. Jeffrey, CSIRO Petroleum, and M. Thiercelin, Schlumberger</i>	
SPE 106113 Modeling Shear Failure and Stimulation of the Barnett Shale After Hydraulic Fracturing.....	279
<i>Ian Palmer, Higgs-Palmer Technologies, and Zissis Moschovidis and John Cameron, PCM Technical</i>	
SPE 106115 Numerical Simulation of Hydraulic Fracturing in the Viscosity-Dominated Regime.....	288
<i>A.P. Bungler, CSIRO Petroleum; E. Detournay, U. of Minnesota; D.I. Garagash, Clarkson U.; and A.P. Peirce, U. of British Columbia</i>	
SPE 106140 Case Studies of Propped Refracture Reorientation in the Daqing Oil Field	299
<i>S.G. Wang, Chinese Academy of Sciences Guangzhou Inst. of Geochemistry; G.L. Zhang and X.Q. He, Daqing Oilfield Co. Ltd.; X. Liu, Pinnacle Technologies; F. Hou, Daqing Oilfield Co. Ltd.; and T.X. Cui, CARBO Ceramics (China)</i>	
SPE 106151 Field Trial Design and Analyses of Production Data From a Tight Gas Reservoir: Detailed Production Comparisons From the Pinedale Anticline.....	306
<i>M.C. Vincent, CARBO Ceramics Inc.; Paul Huckabee, Shell E&P Co.; and Michael Conway, Stim-Lab Inc.</i>	
SPE 106159 Real-Time Microseismic Monitoring of Hydraulic Fracture Treatment: A Tool To Improve Completion and Reservoir Management.....	336
<i>J.H. Le Calvez, R.C. Klem, L. Bennett, A. Erwemi, M. Craven, and J.C. Palacio, Schlumberger</i>	
SPE 106162 Successful Breaker Optimization for Polyacrylamide Friction Reducers Used in Slickwater Fracturing	343
<i>P.S. Carman and K.E. Cawiezel, BJ Services Co.</i>	
SPE 106225 Fracture Propagation in High-Permeability Rocks: The Key Influence of Fracture Tip Behavior.....	352
<i>V.M. Entov, Inst. for Problems in Mechanics, Russian Academy of Sciences; E.M. Chekhonin, Schlumberger Moscow Research; E. Detournay, U. of Minnesota; and M. Thiercelin, Schlumberger Moscow Research</i>	
SPE 106251 Modelling of Transverse Hydraulic Fracturing.....	363
<i>Olivier Liétard, Consultant, and Jerome Manière and Mark Norris, Schlumberger</i>	
SPE 106264 Prediction of Long-Term Proppant Flowback in Weak Rocks.....	370
<i>G.R. Aidagulov and M. Thiercelin, Schlumberger, and V.N. Nikolaevskiy, S.M. Kapustyanskiy, and A.G. Zhilenkov, Institute of Physics of the Earth RAS</i>	
SPE 106269 Development of a Methodology for Hydraulic Fracturing Models in Tight, Massively Stacked, Lenticular Reservoirs.....	380
<i>Christopher A. Green, Perenco U.K. Ltd.; Robert D. Barree, Barree & Assocs.; and Jennifer L. Miskimins, Colorado School of Mines</i>	
SPE 106272 Small-Scale Fracture Conductivity Created by Modern Acid-Fracture Fluids.....	394

<i>M. Pournik, C. Zou, C. Malagon Nieto, M.G. Melendez, D. Zhu, and A.D. Hill, Texas A&M U., and X. Weng, Schlumberger</i>	
SPE 106276 Implications of Geomechanical Analysis on the Success of Hydraulic Fracturing: Lesson Learned From an Australian Coalbed Methane Gas Field	416
<i>Khalil Rahman, U. of Western Australia, and Abbas Khaksar, Helix-RDS Australia</i>	
SPE 106279 The Method of Distributed Volumetric Sources for Calculating the Transient and Pseudosteady-State Productivity of Complex Well-Fracture Configurations	426
<i>P.P. Valkó and S. Amini, Texas A&M U.</i>	
SPE 106280 Predicting Productivity of Multiple-Fractured Horizontal Gas Wells.....	440
<i>D. Zhu, F. Magalhaes, and P.P. Valkó, Texas A&M U.</i>	
SPE 106289 Shear Dilation Diagnostics: A New Approach for Evaluating Tight Gas Stimulation Treatments.....	448
<i>S.T. Chipperfield, J.R. Wong, and D.S. Warner, Santos Ltd., and C.L. Cipolla, M.J. Mayerhofer, E.P. Lolon, and N.R. Warpinski, Pinnacle Technologies</i>	
SPE 106301 Determining Realistic Fracture Conductivity and Understanding Its Impact on Well Performance—Theory and Field Examples	462
<i>Terry Palisch and Robert Duenckel, CARBO Ceramics Inc., and Lucas Bazan, Harmon J. Heidt, and George Turk, BP America Inc.</i>	
SPE 106304 Fracturing Fluid for Low-Permeability Gas Reservoirs: Emulsion of Carbon Dioxide With Aqueous Methanol Base Fluid: Chemistry and Applications	475
<i>D.V.S. Gupta, BJ Services Co., and B.T. Hlidek, E.S.W. Hill, and H.S. Dinsa, BJ Services Co. Canada</i>	
SPE 106305 Production Data Analysis for Commingled Multilayer Gas Reservoirs—Graphical Aides for Flow Regime Identification and History Matching	479
<i>John P. Spivey, Phoenix Reservoir Engineering</i>	
SPE 106308 Evaluation of the Elliptical Flow Period for Hydraulically-Fractured Wells in Tight Gas Sands—Theoretical Aspects and Practical Considerations	486
<i>S. Amini, D. Ilk, and T.A. Blasingame, Texas A&M U.</i>	
SPE 106312 A New Correlation for Relating the Physical Properties of Fracturing Slurries to the Minimum Flow Velocity Required for Transport	499
<i>Harold D. Brannon, William D. Wood, and Richard S. Wheeler, BJ Services Co.</i>	
SPE 106317 Evaluation and Optimization of Low-Conductivity Fractures.....	510
<i>J.F. Manrique, Occidental Oil and Gas Corp., and B.D. Poe Jr., Schlumberger</i>	
SPE 106365 Behavior of Proppants Under Cyclic Stress.....	524
<i>W.T. Stephens, Saint Gobain Proppants; S.K. Schubarth, Schubarth Inc.; and K.R. Dickson, E.M. Snyder, K.J. Doles, and D.C. Herndon, Saint Gobain Proppants</i>	
SPE 106371 Fracture Acidizing: History, Present State, and Future	531
<i>Leonard J. Kalfayan, BJ Services</i>	
SPE 106382 Application of Pressure-Transient and Production-Data Analysis for Hydraulic-Fracture-Treatment Evaluation.....	539
<i>Michael J. Economides, U. of Houston; Christine A. Ehlig-Economides, Texas A&M U.; and Slavko Tomic, Noble Energy Inc.</i>
