# TABLE OF CONTENTS

<b>Interactive Requirements Validation for Reactive Systems through Virtual Requirements Prototype</b> .....	1
<i>Daniel Aceituna, Hyunsook Do, Seok-Won Lee</i>	
<b>Defining an Annex Language to the Architecture Analysis and Design Language for Requirements Engineering Activities Support</b> .....	11
<i>Dominique Blouin, Eric Senn, Skander Turki</i>	
<b>Transforming an Enterprise Model into a Use Case Model Using Existing Heuristics</b> .....	21
<i>Fabio Levy Siqueira, Paulo Sérgio Muniz Silva</i>	
<b>An Architecture-Oriented Model-Driven Requirements Engineering Approach</b> .....	31
<i>Grzegorz Loniewski, Ausias Armesto, Emilio Insfran</i>	
<b>Transformation of Aspect-Oriented Requirements Specifications for Reactive Systems into Aspect-Oriented Design Specifications</b> .....	39
<i>Gunter Mussbacher, Jorg Kienzle, Daniel Amyot</i>	
<b>Validation of Embedded System Verification Models</b> .....	48
<i>Jelena Marincic, Angelika Mader, Roel Wieringa</i>	
<b>Streamlining Scenario Modeling with Model-Driven Development: A Case Study</b> .....	55
<i>Miguel Goulao, Ana Moreira, Joao Araujo, Joao Pedro Santos</i>	
<b>Formalizing Standards and Regulations Variability in Longlife Projects: A Challenge for Model-Driven Engineering</b> .....	64
<i>Nicolas Sannier, Benoit Baudry, Thuy Nguyen</i>	
<b>Requirements Verification in the Presence of Variability: On the Feasibility of a Model-Driven Approach</b> .....	74
<i>J.-Pierre Corriveau, Soheila Bashardoust, Vojislav D. Radonjic</i>
