International Journal on Advances in Networks and Services

2009 vol. 2 nr. 1

The *International Journal On Advances in Networks and Services* is Published by IARIA.
ISSN: 1942-2644
journals site: http://www.iariajournals.org
contact: petre@iaria.org

Responsibility for the contents rests upon the authors and not upon IARIA, nor on IARIA volunteers, staff, or contractors.

IARIA is the owner of the publication and of editorial aspects. IARIA reserves the right to update the content for quality improvements.

Abstracting is permitted with credit to the source. Libraries are permitted to photocopy or print, providing the reference is mentioned and that the resulting material is made available at no cost.

Reference should mention:

International Journal On Advances in Networks and Services, issn 1942-2644
vol. 2, no. 1, year 2009, http://www.iariajournals.org/networks_and_services/

The copyright for each included paper belongs to the authors. Republishing of same material, by authors or persons or organizations, is not allowed. Reprint rights can be granted by IARIA or by the authors, and must include proper reference.

Reference to an article in the journal is as follows:

<Author list>, "<Article title>"
International Journal On Advances in Networks and Services, issn 1942-2644
vol. 2, no. 1, year 2009,<start page>:<end page> , http://www.iariajournals.org/networks_and_services/

IARIA journals are made available for free, proving the appropriate references are made when their content is used.

International Journal On Advances in Networks and Services
Volume 2, Number 1, 2009

CONTENTS

Performance Evaluation for Different Arrangements of Routing and Forwarding Paths within Bufferless Data Vortex Networks **1 - 12**
Qimin Yang, Harvey Mudd College, USA

Implementing and Testing a Formal Framework for Constraint-Based Routing over Scale-free Networks **13 - 24**
Stefano Bistarelli, Università di Perugia, Italy
Francesco Santini, IMT Istituto di Studi Avanzati, Italy

Adjustable Multi-Sector Cellular Base Station Antenna **25 - 41**
Senglee Foo, Powerwave Technologies, USA
Bill Vassilakis, Powerwave Technologies, USA

Robustness in Sensor Networks: Difference Between Self-Organized Control and Centralized Control **42 - 52**
Yuichi Kiri, Osaka University, Japan
Masashi Sugano, Osaka Prefecture University, Japan
Masayuki Murata, Osaka University, Japan

Selection of Computing Elements for Energy Efficiency in Wireless Sensor Networks using a Statistical Estimation Method **53 - 62**
Steven Corroy, Philips Research, The Netherlands
Jan Beiten, Philips Research and RWTH Aachen University, The Netherlands
Junaid Ansari, RWTH Aachen University, The Netherlands
Heribert Baldus, Philips Research, The Netherlands
Petri Mähönen, RWTH Aachen University, The Netherlands

Context Modeling for Cross-layer Context Aware Adaptations **63 - 75**
Ruwini Kodikara, Monash University, Australia
Arkady Zaslavsky, Luleå University, Sweden
Christer Åhlund, Luleå University, Sweden

Dynamic End-to-End QoS Provisioning and Service Composition over Heterogeneous Networks **76 - 87**
N. Van Wambeke, CNRS and Université de Toulouse, France
F. Racaru, CNRS and Université de Toulouse, France
C. Chassot, CNRS and Université de Toulouse, France
M. Diaz, CNRS and Université de Toulouse, France

Multi-band Gigabit Mesh Networks: Opportunities and Challenges **88 - 99**
L. Lily Yang, Intel Corporation, USA
Minyoung Park, Intel Corporation, USA

Time Dependent Lévy Flights Models for Internet Traffic **100 - 109**
György Terdik, University of Debrecen, Hungary
Tibor Gyires, Illinois State University, USA
