

International Journal on Advances in Networks and Services

Includes special issues on Wireless Sensor Networks and
a special issue on Peer-to-Peer Systems

2010 vol. 3 nr. 1&2

The *International Journal on Advances in Networks and Services* is published by IARIA.

ISSN: 1942-2644

journals site: <http://www.ariajournals.org>

contact: petre@aria.org

Responsibility for the contents rests upon the authors and not upon IARIA, nor on IARIA volunteers, staff, or contractors.

IARIA is the owner of the publication and of editorial aspects. IARIA reserves the right to update the content for quality improvements.

Abstracting is permitted with credit to the source. Libraries are permitted to photocopy or print, providing the reference is mentioned and that the resulting material is made available at no cost.

Reference should mention:

International Journal on Advances in Networks and Services, issn 1942-2644
vol. 3, no. 1 & 2, year 2010, http://www.ariajournals.org/networks_and_services/

The copyright for each included paper belongs to the authors. Republishing of same material, by authors or persons or organizations, is not allowed. Reprint rights can be granted by IARIA or by the authors, and must include proper reference.

Reference to an article in the journal is as follows:

CONTENTS

Section from page 1 to page 195 is a special issue on Wireless Sensor Networks.

Section from page 196 to page 248 is a special issue on Peer-to-Peer Systems.

- Introduction to Practical Deployments on Wireless Sensor Networks** **1 - 7**
Jaime Lloret, Polytechnic University of Valencia, Spain
- Wireless multi-sensor embedded system for Agro-industrial monitoring and control** **8 - 17**
Chandani Anand, Central Electronics Engineering Research Institute (CEERI), India
Shashikant Sadistap, Central Electronics Engineering Research Institute (CEERI), India
Satish Bindal, Central Electronics Engineering Research Institute (CEERI), India
B. A. Botre, Central Electronics Engineering Research Institute (CEERI), India
KSN Rao, Central Electronics Engineering Research Institute (CEERI), India
- Distributed Monitoring Systems for Agriculture based on Wireless Sensor Network Technology** **18 - 28**
Davide Di Palma, University of Florence, Italy
Luca Bencini, University of Florence, Italy
Giovanni Collodi, University of Florence, Italy
Gianfranco Manes, University of Florence, Italy
Francesco Chiti, University of Florence, Italy
Romano Fantacci, University of Florence, Italy
Antonio Manes, Netsens S.r.l., Italy
- Evaluation of Environmental Wireless Sensor Network - Case Foxhouse** **29 - 39**
Ismo Hakala, University Of Jyväskylä, Finland
Jukka Ihalainen, University Of Jyväskylä, Finland
Ilkka Kivelä, University Of Jyväskylä, Finland
Merja Tikkakoski, Veteli, Finland
- Infrared wireless network sensors for imminent forest fire detection** **40 - 49**
Ignacio Bosch Roig, Universidad Politécnica de Valencia, Spain
Luis Vergara Domínguez, Universidad Politécnica de Valencia, Spain
- A new Wireless Sensor for Intravenous Dripping Detection** **50 - 58**
Paul Bustamante, CEIT and Tecnum, Spain
Gonzalo Solas, CEIT, Spain
Karol Grandez, CEIT, Spain
Unai Bilbao, CEIT, Spain

A Distributed Network Management Approach to WSN in Personal Healthcare Applications	59 - 68
<p>Karla Felix Navarro, University of Technology Sydney, Australia Elaine Lawrence, University of Technology Sydney, Australia Doan Hoang, University of Technology Sydney, Australia Yen Yang Lim, University of Technology Sydney, Australia</p>	
Design and Implementation of Multi-User Wireless Body Sensor Networks	69 - 81
<p>José A. Afonso, University of Minho, Portugal Pedro Macedo, University of Minho, Portugal Helder D. Silva, University of Minho, Portugal José H. Correia, University of Minho, Portugal Luis A. Rocha, University of Minho, Portugal</p>	
Human-Assisted Calibration of an Angulation based Location Indoor System with Preselection of Measurements	82 - 91
<p>Jürgen Kemper, Technische Universität Dortmund, Germany Nicolaj Kirchof, Technische Universität Dortmund, Germany Markus Walter, Technische Universität Dortmund, Germany Holger Linde, Ambiplex GmbH & Co. KG, Germany</p>	
Deployment of Wireless Sensor Network to Study Oceanography of Coral Reefs	92 - 102
<p>Olga Bondarenko, James Cook University, Australia Michael Kingsford, James Cook University, Australia Stuart Kininmonth, Australian Institute of Marine Science, Australia</p>	
Target Tracking in Marine Wireless Sensor Networks	103 - 113
<p>Ahmed M. Mahdy, Texas A&M University-Corpus Christi, USA Jonathan M. Groenke, Texas A&M University-Corpus Christi, USA</p>	
An Integrating Platform for Environmental Monitoring in Museums Based on Wireless Sensor Networks	114 - 124
<p>Laura M. Rodríguez Peralta, University of Madeira (UMa), Portugal Lina M. Pestana Leão de Brito, University of Madeira (UMa), Portugal</p>	
A Wireless IP Multisensor Deployment	125 - 139
<p>Diana Bri, Universidad Politécnica de Valencia, Spain Hugo Coll, Universidad Politécnica de Valencia, Spain Miguel Garcia, Universidad Politécnica de Valencia, Spain Jaime Lloret, Universidad Politécnica de Valencia, Spain</p>	
Evaluation of Outdoor RSS-Based Tracking for WSNs Aiming at Topology Parameter Ranges Selection	140 - 157
<p>Fotis Kerasiotis, University of Patras, Greece</p>	

Tsenka Stoyanova, University of Patras, Greece
George Papadopoulos, University of Patras, Greece

Deployment Considerations for Reliable Communication in Wireless Sensor Networks **158 - 169**

Tsenka Stoyanova, University of Patras, Greece
Fotis Kerasiotis, University of Patras, Greece
George Papadopoulos, University of Patras, Greece

Practical Deployments of Wireless Sensor Networks: a Survey **170 - 185**

Miguel Garcia, Universidad Politécnica de Valencia, Spain
Diana Bri, Universidad Politécnica de Valencia, Spain
Sandra Sendra, Universidad Politécnica de Valencia, Spain
Jaime Lloret, Universidad Politécnica de Valencia, Spain

Underwater Wireless Sensor Networks: Efficient Localization Schemes using SemiDefinite Programming **186 - 195**

Bo Dong, Texas A&M University-Corpus Christi, USA
Ahmed M. Mahdy, Texas A&M University-Corpus Christi, USA

A Taxonomy of Incentive Mechanisms in Peer-to-Peer Systems: Design Requirements and Classification **196 - 205**

Kan Zhang, University of Derby, UK
Nick Antonopoulos, University of Derby, UK
Zaigham Mahmood, University of Derby, UK

Constructing a Stable Virtual Peer from Multiple Unstable Peers for Fault-tolerant P2P Systems **206 - 215**

Masanori Shikano, Osaka City University, Japan
Kota Abe, Osaka City University, Japan
Tatsuya Ueda, Osaka City University, Japan
Hayato Ishibashi, Osaka City University, Japan
Toshio Matsuura, Osaka City University, Japan

Resilient P2P Streaming **216 - 226**

Majed Alhaisoni, University of Essex, UK
Mohammed Ghanbari, University of Essex, UK
Antonio Liotta, Technische Universiteit Eindhoven, The Netherlands

Increasing Energy Efficiency in Mobile Peer Networks by Exploiting Traffic Sampling Techniques **227 - 236**

Julian K. Buhagiar, University of Malta, Malta
Carl J. Debono, University of Malta, Malta

Replica Placement Algorithm based on Peer Availability for P2P Storage Systems	237 - 248
Gyuwon Song, Korea Institute of Science and Technology, Korea Suhyun Kim, Korea Institute of Science and Technology, Korea Daeil Seo, Korea Institute of Science and Technology, Korea Sunghwan Jang, Korea Institute of Science and Technology, Korea	
Quality and Performance Optimization of Sensor Data Stream Processing	249 - 262
Anja Klein, SAP Research Center Dresden, Germany Wolfgang Lehner, TU Dresden, Germany	
Functionality of a Database Kernel for Image Retrieval	263 - 272
Cosmin Stoica Spahiu, University of Craiova, Romania Cristian Marian Mihaescu, University of Craiova, Romania Liana Stanescu, University of Craiova, Romania Dan Burdescu, University of Craiova, Romania Marius Brezovan, University of Craiova, Romania	
Study of a Secure Backup Network Mechanism for Disaster Recovery and Practical Network Applications	273 - 285
Noriharu Miyaho, Tokyo Denki University, Japan Yoichiro Ueno, Tokyo Denki University, Japan Shuichi Suzuki, Tokyo Denki University, Japan Kenji Mori, Tokyo Denki University, Japan Kazuo Ichihara, Net&Logic Inc., Japan	
A Multipath Approach for Improving Performance of Remote Desktop Transmission	286 - 295
Cao Lethanhman, Hitachi Ltd., Japan Hiromi Isokawa, Hitachi Ltd., Japan Takatoshi Kato, Hitachi Ltd., Japan	
Content and Type as Orthogonal Modeling Features: a Study on User Interest Awareness in Entity Subscription Services	296 - 309
George Giannakopoulos, University of Trento, Italy Themis Palpanas, University of Trento, Italy	
A Proactive Energy-Efficient Technique for Change Management in Computing Clouds	310 - 322
Hady AbdelSalam, Old Dominion University, USA Kurt Maly, Old Dominion University, USA Ravi Mukkamala, Old Dominion University, USA Mohamed Zubair, Old Dominion University, USA David Kaminsky, IBM, USA
