

International Journal on Advances in Systems and Measurements

2011 vol. 4 nr. 1&2

The *International Journal on Advances in Systems and Measurements* is published by IARIA.

ISSN: 1942-261x

journals site: <http://www.ariajournals.org>

contact: petre@aria.org

Responsibility for the contents rests upon the authors and not upon IARIA, nor on IARIA volunteers, staff, or contractors.

IARIA is the owner of the publication and of editorial aspects. IARIA reserves the right to update the content for quality improvements.

Abstracting is permitted with credit to the source. Libraries are permitted to photocopy or print, providing the reference is mentioned and that the resulting material is made available at no cost.

Reference should mention:

International Journal on Advances in Systems and Measurements, issn 1942-261x
vol. 4, no. 1 & 2, year 2011, http://www.ariajournals.org/systems_and_measurements/

The copyright for each included paper belongs to the authors. Republishing of same material, by authors or persons or organizations, is not allowed. Reprint rights can be granted by IARIA or by the authors, and must include proper reference.

Reference to an article in the journal is as follows:

<Author list>, "<Article title>"
International Journal on Advances in Systems and Measurements, issn 1942-261x
vol. 4, no. 1 & 2, year 2011, <start page>:<end page>, http://www.ariajournals.org/systems_and_measurements/

IARIA journals are made available for free, proving the appropriate references are made when their content is used.

CONTENTS

Increasing Measurability and Meaningfulness of Adaptive Security Monitoring by System Architectural Design and Mechanisms	1 - 19
Reijo M. Savola, VTT Technical Research Centre of Finland, Finland Petri Heinonen, VTT Technical Research Centre of Finland, Finland	
Estimating Human Movement Parameters Using a Software Radio-based Radar	20 - 31
Bruhtesfa Godana, Norwegian University of Science and Technology, Norway Andre Barroso, Philips Research Europe, Netherlands Geert Leus, Delft University of Technology, Netherlands	
Measurement-Based Performance and Admission Control in Wireless Sensor Networks	32 - 45
Ibrahim Orhan, School of Technology and Health, KTH, Sweden Thomas Lindh, School of Technology and Health, KTH, Sweden	
Spectrum selection Through Resource Management in Cognitive Environment	46 - 54
Yenumula Reddy, Grambling State University, USA	
A Practical Approach to Uncertainty Handling and Estimate Acquisition in Model-based Prediction of System Quality	55 - 70
Aida Omerovic, SINTEF ICT and University of Oslo, Norway Ketil Stølen, SINTEF ICT and University of Oslo, Norway	
Revisiting Urban Taxis: Optimal Real Time Management And Performance Appraisal By A Discrete Event Simulation Model	71 - 85
Eugenie Lioris, CERMICS Ecole des Ponts-ParisTech, France Guy Cohen, CERMICS Ecole des Ponts-ParisTech, France Arnaud de La Fortelle, CAOR Ecole des Mines-ParisTech, France	
Asymptotically Valid Confidence Intervals for Quantiles and Values-at-Risk When Applying Latin Hypercube Sampling	86 - 94
Marvin Nakayama, New Jersey Institute of Technology, USA	
A Testing Framework for Assessing Grid and Cloud Infrastructure Interoperability	95 - 108
Thomas Rings, Institute of Computer Science, University of Göttingen, Germany Jens Grabowski, Institute of Computer Science, University of Göttingen, Germany Stephan Schulz, Conformiq Software OY, Finland	
Adaptive Video Streaming through Estimation of Subjective Video Quality	109 - 121

Wolfgang Leister, Norsk Regnesentral, Norway
Svetlana Boudko, Norsk Regnesentral, Norway
Till Halbach Røssvoll, Norsk Regnesentral, Norway

A Runtime Testability Metric for Dynamic High-Availability Component-based Systems **122 - 134**

Alberto Gonzalez-Sanchez, Technical University of Delft, Netherlands
Éric Piel, Technical University of Delft, Netherlands
Hans-Gerhard Gross, Technical University of Delft, Netherlands
Arjan J.C. van Gemund, Technical University of Delft, Netherlands

The Economic Importance of Business Software Systems Development and Enhancement Projects Functional Assessment **135 - 146**

Beata Czarnacka-Chrobot, Warsaw School of Economics, Poland
