Contents

Introduction to the Volume

Major challenges in regional environmental governance research and practice J. Balsiger and B. Debarbieux	1
--	---

Reflections

The region, identity, and power A. Paasi	9
Regional environmental governance in Europe: old and new challenges yet to take up R. Uhel	17
Regional institutions and the environment in Central and Eastern Europe L.B. Andonova and S.D. VanDeveer	20
River basins as new environmental regions? The depolitization of water management O. Graefe	24
Regional dynamics of environment and security in post-conflict states R. Matthew	28
The instrumental use of ecology in conflict resolution and security S.H. Ali	31
The imaginative geographies of climate wars B. Korf	35
Global governance and regional centers: multilevel management of hazardous chemicals and wastes H. Selin	40
New environmental regionalism and sustainable development J. Balsiger	44
Bioregionalization and territorial complexity in the global South F. Giraut	49
Regionalization at the International Union for the Conservation of Nature (IUCN) W. Jackson	53
Deliberative democratization across borders: participation and deliberation in regional environmental governance A. Klinke	57
ASEAN and environmental governance: rethinking networked regionalism in Southeast Asia L. Elliott	61
The rising concept of mountain ranges in EU policies N. Evrard	65
Regional environmental governance: a natural scientist's synthesis G. Greenwood	69

Articles

Regionalization and water governance: a case study of a Swiss wastewater utility E. Lieberherr	73
Environmental governance in the Baltic Sea Region and the role of non-governmental actors I. Kapaciauskaite	90
Limits for successful cross-border governance of environmental (and spatial) development: the Lake Constance Region R. Scherer and K. Zumbusch	101
Bridging national boundaries: how networks of local actors are building the Alpine region C. Del Biaggio	121
The political economy of climate change governance in the Himalayan region of Asia: a case study of Nepal S.K. Sharma	129

Land resources in the Alps and instruments supporting their sustainable management as a matter of regional environmental governance	
S. Marzelli	141
Bundled transgovernmentalism: North American climate governance and the lessons learned from the Security and Prosperity Partnership	
N. Craik	156
Structural change in former mining regions: problems, potentials and capacities in multi-level-governance systems	
J. Harfst and P. Wirth	167
Power, scale and Ikea: analysing urban sprawl and land use planning in the metropolitan region of Munich, Germany	
M. Pütz	177
How is climate change used to define English regions?	
F. Drake	186
Landscapes, spatial totalities or special regions?	
N. Backhaus	193
