## Volume 32

EMAS 2011: 12th European Workshop on Modern Developments in Microbeam Analysis  
15–19 May 2011, Angers, France

**Accepted papers received: 17 February 2012**

**Published online: 7 March 2012**

### Preface

011001

[EMAS 2011: 12th European Workshop on Modern Developments in Microbeam Analysis](#) François Brisset, Olivier Dugne, Florence Robaut, János L Lábár and Clive T Walker

011002

[Peer review statement](#)

### Papers

012001

[Chemical characterisation of scale formation of high manganese steels \(Fe-Mn23-C0.6\) on the sub-micrometre scale: a challenge for EPMA](#) E Augustyn, B Hallstedt, B Wietbrock, J Mayer, A Schwedt and S Richter pg. 1

012002

[Microstructure and mechanical properties of nanocrystalline Ni-Mo protective coatings](#) A Bigos, E Beltowska-Lehman and P Indyka pg. 12

012003

[Characterisation of high temperature refractory ceramics for nuclear applications](#) P D W Bottomley, T Wiss, A Janssen, B Cremer, H Thiele, D Manara, M Scheindlin, M Murray-Farthing, P Lajarge, M Menna, D Bouexière and V V Rondinella pg. 19

012004

[Using a controlled pressure field emission gun scanning electron microscope to acquire EBSD data on non-conductive samples](#) F Brisset pg. 35

012005

[Prototypic corium analysis: a round robin for SEM and EDS characterisation](#) L Brissonneau, C Journeau, P Piluso, M Kiselova, S Bakardjieva, T Wiss, P W D Bottomley and H Thiele pg. 41

012006

[Application of EBSD method for the investigation of microstructure and crystallographic orientation in RE<sub>2</sub>Zr<sub>2</sub>O<sub>7</sub> TBC](#) B Chmiela, M Sozańska and G Moskal pg. 53

012007

[SEM-EDS analysis of ancient gold leaf glass mosaic tesserae. A contribution to the dating of the materials](#) A Conventi, E Neri and M Verità pg. 64

012008

[Smart pile-up consideration for evaluation of high count rate EDS spectra](#) F Eggert, T Elam, R Anderhalt and J Nicolosi pg. 72

012009

[Contribution of EPMA to airborne pollen analysis](#) F Guimarães, L Duque, H Ribeiro, R Sousa and I Abreu pg. 82

012010

[Microstructural characterisation of electrodeposited coatings of metal matrix composite with alumina nanoparticles](#) P Indyka, E Beltowska-Lehman and A Bigos pg. 89

012011

[The application of VP-ESEM in microstructure analysis of ceramic macroporous scaffolds for bone tissue engineering](#) A M Janus and M Faryna pg. 95

012012

[Trace analysis in EPMA](#) M J Jercinovic, M L Williams, J Allaz and J J Donovan pg. 102

012013

[X-ray microanalysis of volcanic ash](#) S L Kearns and B Buse pg. 124

012014

[An inter-laboratory comparison of EPMA analysis of alloy steel at low voltage](#) X Llovet, E Heikinheimo, A Núñez Galindo, C Merlet, J F Almagro Bello, S Richter, J Fournelle and C J G van Hoek pg. 135

012015

[X-ray microanalysis: the state of the art of SDD detectors and WDS systems on scanning electron microscopes \(SEM\)](#) L Maniguet, F Robaut, A Meuris, F Roussel-Dherbey and F Chariot pg. 149

012016

[Uncertainty and capability of quantitative EPMA at low voltage – A review](#) C Merlet and X Llovet pg. 168

012017

[Experimental check of the use of unconventional reference materials for EDS analysis in a TEM by extrapolation method based on pure elements](#) M Nacucchi, M Alvisi, D Altamura, V Pfister, D Valerini, D Mello and C Giannini pg. 183

012018

[EPMA and EBSD analysis of the chemical and structural changes in 16 wt% chromium stainless steel during deformation](#) A Núñez Galindo, X Llovet and J F Almagro Bello pg. 194

012019

[Effect of TiN nano-coating on the interface microstructure of carbon fibres-AZ91 alloy composite](#) A Olszówka-Myalska and A Botor-Probierz pg. 205

012020

[A geochemical investigation of trace elements in well RN-17 at Reykjanes geothermal system, SW-Iceland](#) L P Ottolini, N Raffone, G Ó Fridleifsson, S Tonarini, M D'Orazio and G Gianelli pg. 214

012021

[Combining trace elements micro-analysis in deposited dredged sediments: EPMA and  \$\mu\$ -XRF analysis](#) A Poitevin, C Lerouge, G Wille, P Bataillard, P Quinn and L Henet pg. 253

012022

[Shielded field emission EPMA for microanalysis of radioactive materials](#) R Restani and A Wälchli pg. 261

012023

[Measurement of palladium crust thickness on catalyst by EPMA](#) L Sorbier, A-S Gay, A Fécant, M Moreaud and N Brodusch pg. 273

012024

[Systematic discrepancies in Monte Carlo predictions of  \$k\$ -ratios emitted from thin films on substrates](#) P Statham, X Llovet and P Duncumb pg. 287

012025

[EBSD study of the microstructure evolution in a commercially pure aluminium severely deformed by ECAP](#) B Tolaminejad, F Brisset and T Baudin pg. 294

012026

[Geometry correction procedure for quantitative X-ray microanalysis of low-Z number matrices](#) G Tylko pg. 300

012027

[Mineral surface–organic matter interactions: basics and applications](#) G Valdrè, D Moro and G Ulian pg. 307

012028

[Microbeam analysis of irradiated nuclear fuel](#) C T Walker, S Brémier, P Pöml, D Papaioannou and P W D Bottomley pg. 318
