

2014 International Conference on Power Engineering and Renewable Energy

(ICPERE 2014)

**Bali, Indonesia
9-11 December 2014**

**IEEE Catalog Number: CFP1446T-POD
ISBN: 978-1-4799-6403-1**

CONTENTS

11P-3	Resilient Micro Energy Grids with Gas-Power and Renewable Technologies, Hosam A. Gabbar	1
Session 1. Power System (1)		
9A1-1	Optimal placement and sizing of SVC by using various meta-heuristic optimization methods	7
9A1-2	Optimal Scheduling Power Generations Using HSABC Algorithm Considered A New Penalty Factor Approach	13
9A1-3	Secondary Arc Modeling using ATPDraw Study Case Tasikmalaya-Depok Extra High Voltage Overheadlines	19
9A1-4	Control of the Doubly Fed Induction Generator in WECS	25
Session 2. Power Electronics (1)		
9B1-1	6MVA Single-Phase AHF for High Speed train Line in KOREA	31
9B1-2	Multicell Inverter Using Simple Hybrid Control	37
9B1-3	A Control Strategy in Active Power Filter for Power Quality Improvement	42
9B1-4	Development of Wireless Power Transfer Receiver for Mobile Device Charging	48
9B1-5	Development of Transformerless 5 kW Bidirectional Inverter in PT. Len Industri	52
Session 3. High Voltage (1)		
9C1-1	Characteristic Study Of Two-Layer Vertical Grounding System For Variation Of Length Rod And High Frequency Injection Current (100khz-14mhz)	56
9C1-2	Optimal Percentage Natural Rubber Blends with Low Density Polyethylene (LDPE) for Breakdown Voltage (BDV) Improvement	61
9C1-3	Investigation of Intrinsic Breakdown of Transformer Oil Insulation: An Experimental Approach	66
9C1-4	Lightning Protection System on Overhead Distribution Line Using Multi Chamber Arrester	70
Session 4. Industrial Application (1)		
9A2-1	Simulation Of Electric Arc Furnace Steel Plant Power Distribution Control	75
9A2-2	Modeling and Analysis of Bidirectional DC Fast Charging Using PSIM According to Distributions Transformer Loading Conditions	80

9A2-3	Flow Characteristics Analysis of Ultra Supercritical Overload Turbine Control Valve for Power Plant	85
9A2-4	State of Charge Estimation Method for Lithium Battery Using Combination of Coulomb Counting and Adaptive System with Considering The Effect of Temperature	91

Session 5. Distributed Generation (1)

9B2-1	Energy Management in a Commercial Building with Chiller System and Energy Storage Systems Considering Demand Response Resource	96
9B2-2	An Isolated Hybrid Renewable Energy System: Ha'apai Island Group in the Kingdom of Tonga	102
9B2-3	Modeling and Simulation of Hybrid Energy System for Smart Green Building	108
9B2-4	Competitiveness of Grid Connected Photovoltaic Power Supply for a Desalination Plant under a Prospective Power Market in Paraguay	114

Session 6. Power System (2)

9C2-1	Voltage Stability-based PMU Placement Considering N- 1 Line Contingency and Power System Reliability	120
9C2-3	An Efficient Data Structure for Radial Distribution Load Flow	126
9C2-4	Optimal Operation Method with Real-Time Pricing and Day-ahead Market in Multi-Power Systems	130

Session 7. Distributed Generation (2)

10A1-1	Feasibility and Optimal Design of Micro-hydro and Photovoltaic Hybrid System in Support to Energy Independent Village	136
10A1-2	Experimental and Mathematical Analysis of Biofuel (CNSL blended with Diesel) run Diesel Engine	140
10A1-3	Voltage Control of Unbalanced Distribution system with Wind Energy Conversion System and High Photovoltaic Penetration	146
10A1-4	MPPT Controller Based on Linearized I-V Characteristics for PV System	152

Session 8. High Voltage (2)

10B1-1	Design, Fabrication, and Testing of Double Layer Printed Bow-Tie Antenna as Partial Discharge Sensor in Gas Insulated Switchgear	158
10B1-2	Thermal Ageing And Corrosive Sulphur Effect On Partial Discharge And Electrical Conductivity Of Oil Impregnated Paper	163
10B1-3	Effect of Grid Cell Size on Ground Flash Density of Distribution Powerlines	167

10B1-4	Effect of lightning impulse voltage to the pd activity and breakdown voltage of liquid insulation	171
--------	---	-----

Session 9. Electric Machine and Drives (1)

10C1-1	PI-Fuzzy rule based controller design for analysis and performance evaluation of dc motor speed control	175
10C1-2	A study for prediction of propulsion motor performance using HILS system	181
10C1-3	Steady-State Analysis of Self-Excited Induction Generator Using Scilab Open-Source Software	185
10C1-4	Origin and Manifestation of Electrical Machine Faults—A review	189
10C1-5	Investigation the Influence of Magnet Slot with Fixed Slot Opening Width on the Cogging Torque of Inset PMSM	195

Session 10. Industrial Application (2)

10A2-1	Solutions of Electrical Control and Management System for Thermal Power Plant Based on IEC61850	198
10A2-2	Characteristic Study of Three-phase AC Electric Arc Furnace Model	203
10A2-3	Thermodynamic Performance Analysis of OPR 1000	208

Session 11. High Voltage (3)

10B2-1	Characteristic Study Of Vertical Configuration Grounding System With Two Layer Modified Using Type Of Different Soil For Variation Of Diameter And Frequency Injection	214
10B2-2	Overvoltages And Insulation Coordination On 150 Kv Substation In South Sumatera, Indonesia	220
10B2-3	Influence of water content on dielectric response of pressboard impregnated with different insulating fluid	226
10B2-4	Comparative Study of Partial Discharge Characteristics and Dissolved Gas Analysis on Palm-Based Oil as Insulating Material	232

Session 12. Industrial Application (3)

10C2-1	Research on the Key Technology of Process-Level Network Switch of Smart Substation	237
10C2-2	Monitoring Ripple Voltage in Darajat Geothermal Power Plant	242
10C2-3	Instabilities in Two Phase and Supercritical Water Natural Circulation Accident Tolerant Fuel System	248
10C2-4	Synthesis Modeling of 10 kW BLDC Controller for City Electric Car Based on PSIM	251

Session 13. High Voltage (4)

11B1-1	Design of New Shape of Bowtie Antenna with Edge Modification for UHF Partial Discharge Measurement	257
--------	--	-----

11B1-3	Partial Discharge Characteristics of Palm Fatty Acid Ester (PFAE) as High Voltage Insulating Material	262
11B1-4	Lightning Over Voltage Evaluation On DC 1.5 kV Overhead Contact System (OCS) For Electrified Railway in Indonesia	267
11B1-5	Design, Implementation and Testing of Triangle, Circle, and Square Shaped Loop Antennas as Partial Discharge Sensor	273

Session 14. Distributed Generation (3)

11C1-1	Capacitive Deionization based Water Desalination System using an MPPT based Solar Charge Controller	277
11C1-2	Photovoltaic System Powering Automatic Control of Air Circulation	283
11C1-3	An Innovative Approach For Microgrid And Its Power Management System	289
11C1-4	Solar Windows Control System for an Apartment Building in Toronto with Battery Storage	295
11C1-5	Product Development and Deployment of Power Converter for 15 kW Solar Off-Grid Power Plant in PT. Len Industri	301
