International Conference on Modern Technologies in Industrial Engineering (ModTech 2015)

IOP Conference Series: Materials Science and Engineering
Volume 95

Mamaia, Romania
17 – 20 June 2015

Editors:

Emil Oanta
Radu Comaneci
Constantin Carausu
Marek Placzek
Viorel Cohal
Pavel Topala
Dumitru Nedelcu

ISBN: 978-1-5108-1466-0

Table of contents

Volume 95

Modern Technologies in Industrial Engineering (ModTech2015)
17–20 June 2015, Mamaia, Romania

Accepted papers received: 7 October 2015
Published online: 3 November 2015

Preface

011001

Modern Technologies in Industrial Engineering (ModTech2015) OPEN ACCESS E Oanta, R Comaneci, C Carausu, M Placzek, V Cohal, P Topala and D Nedelcu

011002

Peer review statement OPEN ACCESS

Papers

1 - Advanced Materials and Modern Technologies for Manufacturing Processes

012001

Numerical investigation of the thermal behavior of heated natural composite materials OPEN ACCESS S M Qasim, F Abbas Mohammed and R Hashim pg. 1

012002

The effect of reconditioning techniques by welding on the quality of deposits on crankshafts, case study SMAW OPEN ACCESS O R Chivu, D T Cicic, C Rontescu, I M Vasile and C Petriceanu pg. 8

012003

Qualitative and quantitative comparisons on reconditioning by welding of crankshafts from auto industry OPEN ACCESS O R Chivu (Vîrlan), C Rontescu, D T Cicic, I M Vasile and C Petriceanu pg. 14

012004

The surface quality of AWJ cut parts as a function of abrasive material reusing rate
OPEN ACCESS C Schnakovszky, E Herghelegiu, M C Radu and N C Tampu pg. 20

012005

Experimental determinations of the eigenmodes for composite bars made with carbon and Kevlar-carbon fibers OPEN ACCESS C M Mirițoiu, M M Stănescu, C O Burada, D Bolcu and V Roşca pg. 26

012006

Thermal analysis and microstructural characterization of Mg-Al-Zn system alloys OPEN ACCESS M Król, T Tański and W Sitek pg. 32

012007

Durability of cutting inserts coated with ion-plated AlTiN thin films OPEN ACCESS A Bădănac, G Bosoancă, V Manole, A C Bălan, M Popa and V Huşanu pg. 39

012008

Modelling of fracture phenomenon in case of composite materials reinforced with short carbon fibers OPEN ACCESS R Caliman pg. 45

012009

Efficient dielectric fluid approach in electrodischarge finish machining on the material surface roughness of titanium alloy Ti-621/0.8 OPEN ACCESS N V Mihai and G Brabie pg. 51

012010

Contributions regarding the use of ultrasound capabilities in the reconditioning by metallization of some automotive parts OPEN ACCESS G Amza, D Nitoi, C Amza, A Dimitrescu, Z Apostolescu, G Tasca and M Teodorescu pg. 57

012011

Carbon fiber based composites stress analysis. Experimental and computer comparative studies OPEN ACCESS M Sobek, A Baier, A Buchacz, Ł Grabowski and M Majzner pg. 63

012012

Aspects regarding the tribological evaluation of sintered composites obtained from mixture of copper with carbon fibers OPEN ACCESS R Caliman pg. 69

012013

Study on corrosion resistance of high - entropy alloy in medium acid liquid and chemical properties OPEN ACCESS I Florea, G Buluc, R M Florea, V Soare and I Carcea pg. 75

012014

Researches on the behaviour of cellular antiballistic composites based on AlMg-SiC alloys OPEN ACCESS O Bălțătescu, R M Florea, I Rusu and I Carcea pg. 81

012015

On the role of CFRP reinforcement for wood beams stiffness OPEN ACCESS A C Ianasi pg. 87

012016

Researches regarding the hydroforming process of aluminum components OPEN ACCESS V Paunoiu, V Teodor and F Susac pg. 93

012017

Investigation of FeNiCrWMn - a new high entropy alloy OPEN ACCESS G Buluc, I Florea, O Bălțătescu, R M Florea and I Carcea pg. 99

012018

New approach for porous materials obtaining using centrifugal casting OPEN ACCESS O Bălțătescu, M Axinte, G Barbu and V Manole pg. 104

012019

Development of infrared staking process for an automotive part OPEN ACCESS H S Park and T T Nguyen pg. 110

012020

Research concerning optimum cutting parameters according with tool path strategy for finishing procedures OPEN ACCESS A E Pena, F D Anania and M Zapciu pg. 117

012021

Tool life and cutting speed for the maximum productivity at the drilling of the stainless steel X22CrMoV12-1 OPEN ACCESS A Vlase, O Blăjină, M Iacob and V Darie pg. 124

012022

The relation between the shop floor energy system and the manufacturing process optimality OPEN ACCESS N Badea, G Frumuşanu and A Epureanu pg. 130

012023

The influence of milling parameters on the material hardness in the case of magnesium alloy AZ61A OPEN ACCESS C C Grigoraş and G Brabie pg. 137

012024

Influence of the cooling liquid on surface quality characteristics in milling OPEN ACCESS N C Tampu, G Brabie, B A Chirita, E Herghelegiu and M C Radu pg. 143

012025

Non isothermal drying process optimisation - Drying of clay tiles OPEN ACCESS M Vasić and Z Radojević pg. 149

012026

On methane pyrolysis special applications OPEN ACCESS D C Toncu, G Toncu and S Soleimani pg. 156

012027

Graphite pellicles, methods of formation and properties OPEN ACCESS P Topala, L Marin, V Besliu, P Stoicev, A Ojegov and P Cosovschii pg. 162

012028

A comparative study of morphology and composition on oxide nanopowders elaborated by SPVD OPEN ACCESS E S Bârcă, V Rizea, M Abrudeanu, A G Plaiasu, B Istrate and C Munteanu pg. 168

012029

The shape factor influence on the control process of multiferroic nanoparticle configurations in GHz range OPEN ACCESS D Ionescu and M Kovaci pg. 174

012030

Field control of multiferroic spherical core-shell nanocomposites with applications in microwave range OPEN ACCESS D Ionescu and M Kovaci pg. 181

012031

Influence of working parameters on the composite electrodeposition OPEN ACCESS M M Pasare pg. 188

012032

Processing of cylindrical hollow parts: piercing vs. extrusion OPEN ACCESS R Comăneci, L Zaharia, D Nedelcu and L G Bujoreanu pg. 194

2 - Modelling and Designing of Machines and Technological Equipments

012033

Finned double-tube PCM system as a waste heat storage OPEN ACCESS M H Alhamdo, M A Theeb and A S Golam pg. 201

012034

Design and structural verification of locomotive bogies using combined analytical and experimental methods OPEN ACCESS I Manea, G Popa, I Girnita and G Prenta pg. 207

012035

An analysis of the performance of an ejector refrigeration cycle working with R134a OPEN ACCESS F Memet and A Preda pg. 213

012036

Drag phenomena within a torque converter driven automotive transmission - laminar flow approach OPEN ACCESS O Alexa, M Marinescu, Gh Olaru, D Costache, C O Ilie and V Vinturis pg. 218

012037

Graphical method for profiling hob mill that generate cycloid worms OPEN ACCESS V Teodor, S Berbinschi, N Baroiu and N Oancea pg. 225

012038

An engineering model for yield inception in slip-stick elastic contacts OPEN ACCESS S Spinu and D Gradinaru pg. 232

012039

Analysis of heat conduction in a drum brake system of the wheeled armored personnel carriers OPEN ACCESS A M Puncioiu, M Truta, I Vedinas, M Marinescu and V Vinturis pg. 239

012040

Determination of modal attenuation due to external and internal fluids in pipes OPEN ACCESS M V Predoi, C C Petre, M Boiangiu, A Craifaleanu and O Vasile pg. 246

012041

Static analysis of the hull plate using the finite element method OPEN ACCESS A Ion pg. 252

012042

Computer-aided strength analysis of the modernized freight wagon OPEN ACCESS M Płaczek, A Wróbel and A Baier pg. 258

012043

Cold flow simulation of an internal combustion engine with vertical valves using layering approach OPEN ACCESS G Martinas, O S Cupsa, L C Stan and A Arsenie pg. 264

012044

Application of CAD/CAE class systems to aerodynamic analysis of electric race cars OPEN ACCESS L Grabowski, A Baier, A Buchacz, M Majzner and M Sobek pg. 270

012045

Accelerated testing of an optimized closing system for automotive fuel tank OPEN ACCESS A Gligor, S Ilie, V Nicolae and G Mitran pg. 276

012046

Modelling bucket excavation by finite element OPEN ACCESS O M Pecingina pg. 283

012047

Analysis of large sheet metal tailored tubes OPEN ACCESS V M Pomazan pg. 289

012048

A study of fluid flow simulation in convergent-divergent nozzles OPEN ACCESS I Olaru pg. 295

012049

Torsional stress analysis of the squirrel-cage rotor for three phase asynchronous motors OPEN ACCESS T Axinte and C Nutu pg. 301

012050

Design and realization of light modules for miniature model passenger coaches OPEN ACCESS M P Ursu, T Buidos and G Albert pg. 307

012051

Reduction of vibration by using mechatronical subsystem OPEN ACCESS K Białas and A Buchacz pg. 312

012052

Influence of the excitation parameters of the mechanical subsystem on effectiveness of energy harvesting system OPEN ACCESS A Buchacz, W Banaś and M Płaczek pg. 317

012053

An overview on internal geared mechanisms with small difference between teeth number OPEN ACCESS S Macovei (Cîrdei) and I Doroftei pg. 323

012054

Ankle rehabilitation device with two degrees of freedom and compliant joint OPEN ACCESS C-M Racu (Cazacu) and I Doroftei pg. 330

012055

Influence of throttling of pneumatic actuators at the positioning accuracy OPEN ACCESS M P Hetmanczyk and P Michalski pg. 336

012056

The qualitative assessment of pneumatic actuators operation in terms of vibration criteria OPEN ACCESS M P Hetmanczyk and P Michalski pg. 343

012057

Comparative analysis of bio fouling microorganisms after treatment with glidarc OPEN ACCESS M Hnatiuc, A Sabau, B Hnatiuc and S Ghita pg. 350

012058

Numerical investigation of forced convection of nano fluid flow in horizontal U-longitudinal finned tube heat exchanger OPEN ACCESS S M Qasim, A F A Sahar and A A Firas pg. 356

012059

Mechanical properties of different types of space maintainers OPEN ACCESS M-A Beldiman, I Mârțu, B Leițoiu, I Luchian, O Lupescu and E S Bârcă pg. 362

012060

Considerations regarding the stress relieving in a special product OPEN ACCESS T Axinte and G Vladu pg. 369

012061

Electromagnetic pulses bone healing booster OPEN ACCESS S R Sintea, V M Pomazan, D Bica, D Grebenisan and N Bordea pg. 374

012062

Contributions regarding calculus and design of an ultrasonic system used in plasma metallization OPEN ACCESS G Amza pg. 380

012063

A point of view on Otto cycle approach specific for an undergraduate thermodynamics course in CMU OPEN ACCESS F Memet and A Preda pg. 386

3 - New Materials and Modern Technologies in Marine Engineering

012064

Location of an intermediate hub for port activities OPEN ACCESS Ş Burciu, C Ştefănică, E Roşca, V Dragu and F Ruscă pg. 391

012065

Testing market informational efficiency of Constanta port operators OPEN ACCESS E Roşca, M Popa, F Ruscă and Ş Burciu pg. 397

012066

Appraisal and regulation of the ship energy performance OPEN ACCESS N Badea, A Epureanu, G V Badea and G Frumuşanu pg. 403

012067

Maritime vessel obsolescence, life cycle cost and design service life OPEN ACCESS O Dinu and A M Ilie pg. 409

012068

Manufacturing and design of the offshore structure Froude scale model related to basin restrictions OPEN ACCESS I C Scurtu pg. 416

012069

Optimizing ships' behaviour when sailing in following seas OPEN ACCESS O C Acomi, A Boştină, A L Boştină and N Acomi pg. 422

012070

The rigid bi-functional sail, new concept concerning the reduction of the drag of ships OPEN ACCESS I Ţicu, I Popa and M Ristea pg. 428

012071

The use of ECDIS equipment to achieve an optimum value for energy efficiency operation index OPEN ACCESS N Acomi, O C Acomi and C Stanca pg. 434

012072

Comparative analysis of different loading conditions on large container ships from the perspective of the stability requirement OPEN ACCESS C Stanca, N Acomi, C Ancuta and S Georgescu pg. 440

012073

The finite element method for calculating the marine structural design OPEN ACCESS A Ion and I Ticu pg. 445

012074

Risk assessment techniques with applicability in marine engineering OPEN ACCESS E Rudenko, F V Panaitescu and M Panaitescu pg. 451

012075

An approach to the implementation of ISO 14000 at a shipping company OPEN ACCESS F V Panaitescu and M Panaitescu pg. 456

012076

Analysis for the amplitude oscillatory movements of the ship in response to the incidence wave OPEN ACCESS M G Chițu, R Zăgan and E Manea pg. 462

012077

On computing special functions in marine engineering OPEN ACCESS E Constantinescu and M Bogdan pg. 469

012078

Ship's behaviour during hurricane Sandy near the USA coasts. Simulation results OPEN ACCESS B Chiotoroiu, N Grosan and L Soare pg. 475

012079

The influence of the waves in the areas near the port OPEN ACCESS F V Panaitescu, M Panaitescu and I A Anton pg. 481

012080

The influence of transport network vulnerability for maritime ports OPEN ACCESS F Ruscă, E Roşca, A Rusca, M Roşca and S Burciu pg. 487

4 - Controlling and Monitoring Systems

012081

Control of gaseous pollution via the leaves of non-edible trees OPEN ACCESS S J B Al-Maliky pg. 493

012082

Numerical methods for time-domain and frequency-domain analysis: applications in engineering OPEN ACCESS R D Tamas pg. 499

012083

Model of decision system for ^{13}C Isotope Separation column OPEN ACCESS M L Boca pg. 505

012084

Integration of the virtual 3D model of a control system with the virtual controller OPEN ACCESS K Herbuś and P Ociepka pg. 512

012085

Implementation of the safety components base on industrial networks OPEN ACCESS P Michalski and M P Hetmańczyk pg. 518

012086

Technological process supervising using vision systems cooperating with the LabVIEW vision builder OPEN ACCESS P Hryniewicz, W Banaś, A Gwiazda, K Foit, A Sękala and G Kost pg. 524

012087

Stand for testing the electrical race car engine OPEN ACCESS M Baier, J Franiasz, P Mierzwa and D Wylenzek pg. 530

012088

A new method for the accuracy evaluation of a manufactured piece OPEN ACCESS E V Oniga and M Cardei pg. 536

012089

Designing a system for measuring the flow of material transported on belts using ultrasonic sensors OPEN ACCESS N M Mihuț pg. 543

012090

Analysis of possibility of applying the PVDF foil in industrial vibration sensors OPEN ACCESS A Wróbel pg. 549

012091

Complementary methods for nondestructive testing of composite materials reinforced with carbon woven fibers OPEN ACCESS R Steigmann, N Iftimie, R Sturm, P Vizureanu and A Savin pg. 554

012092

The laboratory station for tyres grip testing on different surfaces OPEN ACCESS K Kalinowski, C Grabowik, W Janik, G Ćwikła and M Skowera pg. 561

5 - Robotics and Integrated Manufacturing Systems

012093

Analysis hierarchical model for discrete event systems OPEN ACCESS E M Ciortea pg. 567

012094

Time-dependent solution for the manufacturing line with unreliable machine and batched arrivals OPEN ACCESS W M Kempa, I Paprocka, C Grabowik and K Kalinowski pg. 573

012095

Designing of robotic production lines using CAx software OPEN ACCESS A Wróbel and P Langer pg. 579

012096

Analysis of the Hexapod Work Space using integration of a CAD/CAE system and the LabVIEW software OPEN ACCESS K Herbuś and P Ociepka pg. 585

012097

The role of multi-agent systems in improving performance of manufacturing robotized cells OPEN ACCESS A Sękala, G Ćwikła and G Kost pg. 591

012098

Object positioning in storages of robotized workcells using LabVIEW Vision OPEN ACCESS P Hryniewicz, W Banaś, A Sękala, A Gwiazda, K Foit and G Kost pg. 597

012099

The modular design of robotic workcells in a flexible production line OPEN ACCESS W Banas, A Sekala, A Gwiazda, K Foit, P Hryniewicz and G Kost pg. 603

012100

Application of CBR method for adding the process of cutting tools and parameters selection OPEN ACCESS P Ociepka and K Herbus pg. 609

012101

Strength analysis of parallel robot components in PLM Siemens NX 8.5 program OPEN ACCESS P Ociepka and K Herbus pg. 615

012102

Optimization of the production process using virtual model of a workspace OPEN ACCESS Z Monica pg. 621

012103

Construction typification as the tool for optimizing the functioning of a robotized manufacturing system OPEN ACCESS A Gwiazda, W Banas, A Sekala, K Foit, P Hryniewicz and G Kost pg. 627

012104

Modular industrial robots as the tool of process automation in robotized manufacturing cells OPEN ACCESS A Gwiazda, W Banas, A Sekala, K Foit, P Hryniewicz and G Kost pg. 632

012105

Determination of the robot location in a workcell of a flexible production line OPEN ACCESS W Banas, A Sekala, A Gwiazda, K Foit, P Hryniewicz and G Kost pg. 638

012106

Agent-based models in robotized manufacturing cells designing OPEN ACCESS A Sekala, A Gwiazda, K Foit, W Banas, P Hryniewicz and G Kost pg. 644

012107

Modelling of cooperating robotized systems with the use of object-based approach OPEN ACCESS K Foit, A Gwiazda, W Banas, A Sekala and P Hryniewicz pg. 649

012108

Object as a model of intelligent robot in the virtual workspace OPEN ACCESS K Foit, A Gwiazda, W Banas, A Sekala and P Hryniewicz pg. 655

012109

Virtual modelling of components of a production system as the tool of lean engineering OPEN ACCESS Z Monica pg. 661

6 - Information Technologies and Computational Procedures in Engineering Design

012110

Time-series pattern recognition with an immune algorithm OPEN ACCESS I Paprocka, W M Kempa, C Grabowik and K Kalinowski pg. 667

012111

Semi-analytical computation of displacement in linear viscoelastic materials OPEN ACCESS S Spinu and D Gradinaru pg. 674

012112

Digital prototyping technique applied for redesigning plastic products OPEN ACCESS A Pop and A Andrei pg. 681

012113

Innovative methods for knowledge transfer OPEN ACCESS A M Goanta pg. 687

012114

Web platform for functional design OPEN ACCESS M R Dijmarescu and M C Dijmarescu pg. 693

012115

Creating photo-realistic works in a 3D scene using layers styles to create an animation OPEN ACCESS A M Avramescu pg. 699

012116

Special effects used in creating 3D animated scenes-part 1 OPEN ACCESS A M Avramescu pg. 704

012117

An automation of design and modelling tasks in NX Siemens environment with original software - generator module OPEN ACCESS M Zbiciak, C Grabowik and W Janik pg. 710

012118

An automation of design and modelling tasks in NX Siemens environment with original software - cost module OPEN ACCESS R Zbiciak, C Grabowik and W Janik pg. 716

012119

Optimizing parameters of a technical system using quality function deployment method OPEN ACCESS M Baczkowicz and A Gwiazda pg. 722

012120

A survey on methods of design features identification OPEN ACCESS C Grabowik, K Kalinowski, I Paprocka and W Kempa pg. 728

012121

Recurrence plot for parameters analysing of internal combustion engine OPEN ACCESS O Alexa, C O Ilie, M Marinescu, R Vilau and D Grosu pg. 734

012122

Aspects regarding at ^{13}C isotope separation column control using Petri nets system OPEN ACCESS M L Boca and M E Ciortea pg. 740

012123

A method of computer aided design with self-generative models in NX Siemens environment OPEN ACCESS C Grabowik, K Kalinowski, W Kempa and I Paprocka pg. 746

012124

Approximation method to compute domain related integrals in structural studies OPEN ACCESS E Oanta, C Panait, A Raicu, M Barhalescu and T Axinte pg. 752

012125

Extended precision data types for the development of the original computer aided engineering applications OPEN ACCESS A Pescaru, E Oanta, T Axinte and A-D Dascalescu pg. 758

012126

Innovation in engineering education through computer assisted learning and virtual university model OPEN ACCESS A Raicu and G Raicu pg. 764

7 - Organization and Management of Industrial Processes

012127

The 5S lean method as a tool of industrial management performances OPEN ACCESS F C Filip and V Marascu-Klein pg. 770

012128

A system model to integrate the "Green Manufacturing" concept in Romanian manufacturing organisation OPEN ACCESS D I Tilină, M Zapciu and C Mohora pg. 776

012129

The evaluation of the environmental impact and the external factors of urban transport in Constanta OPEN ACCESS C Stanca, V G Stîngă, S Georgescu and O S Cupşa pg. 782

012130

Two-Stage orders sequencing system for mixed-model assembly OPEN ACCESS M Zemczak, B Skolud and D Krenczyk pg. 788

012131

Theoretical and experimental researches on the operating costs of a wastewater treatment plant OPEN ACCESS M Panaitescu, F-V Panaitescu and I-A Anton pg. 794

012132

Production scheduling with discrete and renewable additional resources OPEN ACCESS K Kalinowski, C Grabowik, I Paprocka and W Kempa pg. 800

012133

Multi-assortment rhythmic production planning and control OPEN ACCESS B Skolud, D Krenczyk and M Zemczak pg. 806

012134

The distributed agent-based approach in the e-manufacturing environment OPEN ACCESS A Sękala, G Kost, A Dobrzańska-Danikiewicz, W Banaś and K Foit pg. 812

012135

Computer aided production planning - SWZ system of order verification OPEN ACCESS D Krenczyk and B Skolud pg. 818

012136

Workload analyse of assembling process OPEN ACCESS L D Ghenghea pg. 825

012137

The relation between proactive environmental strategies and competitive advantage OPEN ACCESS A Butnariu and S Avasilcăi pg. 831

012138

Poka Yoke system based on image analysis and object recognition OPEN ACCESS N Belu, L M Ionescu, A Misztal and A Mazăre pg. 837

012139

An improved method for risk evaluation in failure modes and effects analysis of CNC lathe OPEN ACCESS N Rachieru, N Belu and D C Anghel pg. 843

012140

The role of the production scheduling system in rescheduling OPEN ACCESS K Kalinowski, C Grabowik, W Kempa and I Paprocka pg. 850

012141

Using Teamcenter engineering software for a successive punching tool lifecycle management OPEN ACCESS F Blaga, A-V Pele, I Stănăşel, T Buidoş and V Hule pg. 856

012142

Some trends and proposals for the inclusion of sustainability in the design of manufacturing process OPEN ACCESS J Fradinho, D Nedelcu, A Gabriel-Santos, A Gonçalves-Coelho and A Mourão pg. 862

012143

Innovation management based on proactive engagement of customers: A case study on LEGO Group. Part I: Innovation Management at Lego Group OPEN ACCESS G Rusu and S Avasilcăi pg. 868

012144

Innovation management based on proactive engagement of customers: A case study on LEGO Group. Part II: Challenge of engaging the digital customer OPEN ACCESS S Avasilcăi and G Rusu pg. 874

012145

Innovation through developing consumers' community. Part I: Innovation in action OPEN ACCESS E Gălățanu (Avram) and S Avasilcăi pg. 880

012146

Creativity and innovation by empowering the customer: The case of Mulino Bianco. Part I: Organisational innovation context OPEN ACCESS A Bujor and S Avasilcăi pg. 886

012147

Creativity and innovation by empowering the customer: The case of Mulino Bianco. Part II: The digital customer value added OPEN ACCESS A Bujor and S Avasilcăi pg. 892

012148

Innovation through developing consumers communities. Part II: Digitalizing the innovation processes OPEN ACCESS S Avasilcai and E Galateanu (Avram) pg. 898

012149

A case study on open innovation on Procter & Gamble. Part I: Innovation strategy over years OPEN ACCESS I G Agafitei and S Avasilcai pg. 903

012150

A case study on open innovation on Procter & Gamble. Part II: Co-creation and digital involvement OPEN ACCESS I G Agafitei and S Avasilcai pg. 909

012151

Coastline planning and management through digital mapping systems OPEN ACCESS M Hysenaj pg. 915

012152

Digital development of products with NX9 for academical areas OPEN ACCESS A M Goanta pg. 921

012153

Application of the MIAS methodology in design of the data acquisition system for wastewater treatment plant OPEN ACCESS G Ćwikła, D Krenczyk, A Kampa and G Gołda pg. 927

012154

Fuzzy methods in decision making process - A particular approach in manufacturing systems OPEN ACCESS A M Coroiu pg. 933

012155

Estimation of overall equipment effectiveness using simulation programme OPEN ACCESS I Paprocka, W Kempa, K Kalinowski and C Grabowik pg. 939
