

VI International Conference on Problems of Mathematical Physics and Mathematical Modelling 2017

Journal of Physics: Conference Series Volume 937

Moscow, Russia
25 - 27 May 2017

Editors:

Valery V. Kozlov
Nikolay A. Kudryashov
Oleg V. Nagornov

ISBN: 978-1-5108-5517-5
ISSN: 1742-6588

VI International Conference Problems of Mathematical Physics and Mathematical Modelling

25–27 May 2017, Moscow, Russian Federation

Accepted papers received: 13 December 2017

Published online: 30 December 2017

Preface

[VI International Conference Problems of Mathematical Physics and Mathematical Modelling](#)

[Peer review statement](#)

Papers

[Method of construction of the Riemann function for a second-order hyperbolic equation](#)

A V Aksenov.....1

[Modelling of the forming devices of high-current pulsed accelerators](#)

G P Averyanov, V V Dmitrieva and N P Kornev.....8

[Modelling dynamic processes in a nuclear reactor by state change modal method](#)

A V Avvakumov, V F Strizhov, P N Vabishchevich and A O Vasilev.....13

[About orthogonality of the single systems of special kind](#)

A N Barmenkov and N A Barmenkov.....21

[On some control problems of dynamic of reactor](#)

A V Baskakov and N P Volkov.....25

[Numerical simulation of equilibrium plasma configurations in toroidal magnetic traps and their cylindrical analogues](#)

K V Brushlinskii and I A Kondratyev.....33

[Numerical simulation of plasma flows in curved coaxial ducts with longitudinal magnetic field](#)

K V Brushlinskii and E V Styopin.....41

[Mathematical model comparing of the multi-level economics systems](#)

S M Brykalov and A V Kryanev.....48

[Point vortices in the plane: positive-dimensional configurations](#)

M V Demina, N A Kudryashov and J E Semenova.....53

[\$J/\psi \rightarrow e^+ e^-\$ decay selection criteria in the CBM experiment](#)

O Yu Derenovskaya and V V Ivanov.....61

[Lyapunov stability analysis for the generalized Kapitza pendulum](#)

O V Druzhinina, L A Sevastianov, S A Vasilyev and D G Vasilyeva.....68

[Spontaneous evaporation of the acetone drop](#)

S Z Dunin and O V Nagornov.....75

[WEB-server for search of a periodicity in amino acid and nucleotide sequences](#)

F E Frenkel, K G Skryabin and E V Korotkov.....79

[The Influence of Plasma Inhomogeneity and Incident Wave Frequency on the Nonlinear Spatial Absorption of Alfvén Waves In Dissipative Plasma](#)

M B Gavrikov and A A Taiurskii.....86

[Traveling-wave solutions in continuous chains of unidirectionally coupled oscillators](#)

S D Glyzin, A Yu Kolesov and N Kh Rozov.....94

[Multiplicity of chaotic attractors in a model of lasers with variable feedback delay](#)

E V Grigorieva and S A Kaschenko.....105

[Simulation of complex magnesium alloy texture using the axial component fit method with central normal distributions](#)

T M Ivanova and V N Serebryany.....112

[On inverse problem of determination the right-hand side term in higher order degenerate parabolic equation with integral observation in time](#)

V L Kamynin and T I Bukharova.....117

[About Global Stable of Solutions of Logistic Equation with Delay](#)

S A Kaschenko and D O Loginov.....122

[Relaxation periodic solutions of one singular perturbed system with delay](#)

A A Kashchenko.....130

[The behavior of solutions of an equation with a large spatially distributed control](#)

I Kashchenko.....137

[Calculation of Rayleigh type sums for zeros of the equation arising in spectral problem](#)

A B Kostin and V B Sherstyukov.....144

[Coordinated interaction of two hydraulic cylinders when moving large-sized objects](#)

G V Kreinin, S Yu Misyurin and A V Lunev.....152

[Numerical modelling of doped graphane superconducting and normal properties](#)

N A Kudryashov and A A Kutukov.....155

[Equilibrium states of a variational formulation for the Ginzburg-Landau equation](#)

A N Kulikov and D A Kulikov.....158

[A posteriori error estimates in voice source recovery](#)

A S Leonov and V N Sorokin.....165

[On an example of a system of differential equations that are integrated in Abelian functions](#)

M D Malykh and L A Sevastianov.....172

[Axisymmetric contact between a rigid punch and a coated foundation with rough surfaces](#)

A V Manzhurov and K E Kazakov.....180

[Dynamic design and control of a high-speed pneumatic jet actuator](#)

S Yu Misyurin, V I Ivlev and G V Kreinin.....186

[Numerical Analysis of the Elastic-Plastic Boundaries in the Thermal Stresses Theory Frameworks](#)

E V Murashkin, E P Dats and V V Klindukhov.....189

[Analytical Solution of Cylindrical Wave Problem in the Frameworks of Micropolar Elasticity](#)

E V Murashkin and Y N Radayev.....195

[A Numerical Simulation of Adiabatic Shear Bands Formation in Hollow Cylinder](#)

R V Muratov, N A Kudryashov and P N Ryabov.....199

[Reliability of the past surface temperature reconstruction methods](#)

O V Nagornov and S A Tyuflin.....204

[Multicriteria adaptation principle on example of groups of mobile robots](#)

A P Nelyubin and S Yu Misyurin.....210

[Modelling the influence of noise of the image sensor for blood cells recognition in computer microscopy](#)

V G Nikitaev, O V Nagornov, A N Pronichev, E V Polyakov and V V Dmitrieva.....214

[Matching of energetic, mechanic and control characteristics of positioning actuator](#)

N Y Nosova, S Yu Misyurin and G V Kreinin.....218

[Inverse problem for the equation with \$n\$ -times integrated semigroup](#)

D G Orlovsky.....223

[Quasistatic problems for piecewise-continuously growing solids with integral force conditions on surfaces expanding due to additional material influx](#)

D A Parshin and A V Manzhurov.....228

[Application of the bridged crack model for evaluation of materials repairing and self-healing](#)

M Perelmuter.....236

[On Representation of Riesz–space–valued Functions by Fourier Series on Multiplicative Systems](#)

S V Petrov and V M Prostokishin.....243

[Nonlinear reaction-diffusion equations with delay: some theorems, test problems, exact and numerical solutions](#)

A D Polyanin and V G Sorokin.....248

[The method of non-local transformations: Applications to blow-up problems](#)

A D Polyanin and I K Shingareva.....254

[Further progress in control of localized nonlinear waves](#)

A V Porubov, I D Antonov and A L Fradkov.....263

[On the Analog of the Theorem Bary–Stechkin of the Conjugate Functions for the Dyadic Group](#)

A I Rubinshtein.....268

[About normal distribution on SO\(3\) group in texture analysis](#)

T I Savyolova and S V Filatov.....271

[A comparison of Data Driven models of solving the task of gender identification of author in Russian language texts for cases without and with the gender deception](#)

A Sboev, I Moloshnikov, D Gudovskikh and R Rybka.....279

[Reciprocal expansion of modified Bessel function in simple fractions and obtaining general summation relationships containing its zeros](#)

V B Sherstyukov and E V Sumin.....286

[Phase averaging method for the modeling of the multiprobe and cutaneous cryosurgery](#)

K E Shilnikov, N A Kudryashov and I Y Gaiur.....291

[On solvability for inverse problem of compact support source determination for the heat equation](#)

V V Soloviev and D S Tkachenko.....295

[Using sobol sequences for planning computer experiments](#)

I N Statnikov and G I Firsov.....299

[On the Localization Principle for Laplace Operator with Piecewise Constant Coefficient in Domains without Discontinuity Points](#)

M V Suchkov and V P Trifonenkov.....302

[Cluster analysis of *S. Cerevisiae* nucleosome binding sites](#)

Y Suvorova and E Korotkov.....307

[On a sufficient condition for the subharmonicity of functions, satisfying the discrete mean value inequality](#)

D S Telyakovskii.....314

[Computational model for fuel component supply into a combustion chamber of LRE](#)

A V Teterev, P A Mandrik, L V Rudak and N I Misyuchenko.....319

[Analytical properties of solutions to a class of third-order nonlinear dynamical dissipative systems with no chaotic behaviour](#)

V Tsegel'nik.....327

[Reduced dimension model for heat transfer of ground heat exchanger in permafrost](#)

M Vasilyeva, S Stepanov and I Sirditov.....332

[The approach to investigation of the the regions of self-oscillations](#)

T R Velieva, D S Kulyabov, A V Korolkova and I S Zaryadov.....339

[Sufficient Conditions for the Basicity in \$L_p\$ and Equiconvergence with the Trigonometric Series of Spectral Decompositions for the Second Order Ordinary Differential Operator](#)

V E Volkov.....347

[Application of thermal-hydraulic model of RBMK reactor fuel channel to correction of power and coolant flow measurements](#)

A M Zagrebaev, A V Trifonenkov and V P Trifonenkov.....350
