Geodynamics and Stress State of the Earth's Interior (GSSEI 2017)

2–6 October 2017, Novosibirsk, Russian Federation

Accepted papers received: 9 March 2018

Published online: 28 March 2018

Preface

[Geodynamics and Stress State of the Earth's Interior \(GSSEI 2017\)](#)

[Peer review statement](#)

Papers

[Stress state estimation in multilayer support of vertical shafts, considering off-design cross-sectional deformation](#)

SV Antsiferov, AS Sammal and PV Deev.....1

[Seismicity of rock rupture filled with fluid](#)

AV Azarov and SV Serdyukov.....7

[Excitation of seismic waves at the motion of fluid in the rock massive crack](#)

AV Azarov and AS Serdyukov.....12

[Experimental research data on stress state of salt rock mass around an underground excavation](#)

VD Baryshnikov and DV Baryshnikov.....18

[Stress–strain state of adjacent rock mass under slice mining of steeply dipping ore bodies](#)

VD Baryshnikov and LN Gakhova.....24

[Upgrading the multi-component borehole strainmeter for the accuracy improvement of stress measurement in rocks](#)

VD Baryshnikov, VG Kachalsky and DV Baryshnikov.....28

[Pulsation-nature stresses on flat convergent walls of slot-type hopper under granular medium flow](#)

AP Bobryakov, SV Klishin, VP Kosykh and AF Revuzhenko.....31

[Selection of basic data for numerical modeling of rock mass stress state at Mirny Mining and Processing Works, Alrosa Group of Companies](#)

IB Boki, OV Zoteev, VV Pul and EK Pul.....37

[Geomechanical monitoring of rock mass during underground mining of Mir Pipe](#)

AS Chaadaev and IV Zyryanov.....41

[The problem solution on wedge penetration in an initially anisotropic medium within the rigid-plastic scheme](#)

AI Chanyshev and IM Abdulin.....46

[Inclusion of inhomogeneous deformation and strength characteristics in the problem on zonal disintegration of rocks](#)

AI Chanyshev and OE Belousova.....52

[Inclined indentation of smooth wedge in rock mass](#)

AI Chanyshev, GM Podyminogin and OA Lukyashko.....58

[Application of synthetic aperture radars for the ground displacement monitoring in mineral mining areas](#)

VV Dobrynchenko, IS Kokorinand and LV Shebalkova.....64

[Tensile fracture of rocks under uniaxial compression](#)

VP Efimov.....69

[Drilling and blasting parameters in sublevel caving in Sheregesh mine](#)

AA Eremenko, VN Filippov, AI Konurin, AP Khmelinin, DV Baryshnikov and EA Khristolyubov.....74

[Effect of vibro-impact exposure on intensity of geodynamic events in rock mass](#)

AA Eremenko, VV Timonin, AA Bospalko, VN Karpov and VA Shtirts.....79

[Geodynamic risk magnitude as an objective indicator of rockburst prevention effectiveness \(in terms of apatite mines in Khibiny\)](#)

YuV Fedotova and VI Panin.....84

[Selection of criteria to estimate deformation of kimberlites in seismic-acoustic monitoring of Mir pipe](#)

AS Fedyanin.....89

[Validation of choice and determination of geotechnology parameters with regard to stress–strain state of rocks](#)

AM Freidin, SA Neverov, AA Neverov and AI Konurin.....93

[Modeling stress–strain state of rock mass under mining of complex-shape extraction pillar](#)

VN Fryanov and LD Pavlova.....98

[Temperature-induced stresses in reinforced concrete structures](#)

LN Gakhova.....103

[Calculation of craters resulting from impact rupture of rock mass using pulse hydrodynamic problem formulation](#)

LV Gorodilov and TB Rasputina.....108

[Effect of water on fracture of rocks under diametral compression](#)

VA Kalachev, DV Zaitsev, AN Kochanov, YuA Kostandov and PE Panfilov.....112

[Importance of early adjustment of rotary-percussion drilling tool to mineral mining conditions](#)

VN Karpov and VV Timonin.....116

[Modeling complex state of block-layered rock mass with hierarchic inclusions](#)

OA Khachay and OYu Khachay.....126

[Catastrophe theory—one of the basic components in the analysis of the seismic response of rock mass to explosions](#)

OA Khachay and OYu Khachay.....131

[On the calculation of air flow rates to ventilate closed-type stations in subway with the double-track tunnel](#)

LA Kiyaniitsa.....135

[Physical modeling of axisymmetric hydrofracturing by plastic material injection in elastic medium](#)

I.V. Kolykhalov.....140

[The perspective of batch-wise removal of soil plug from pipes during trenchless installation](#)

AS Kondratenko, AS Smolentsev, VV Timonin and AYu Primychkin.....146

[Geo-navigation system for rotary percussion drilling in rocks of high and low electrical conductivity](#)

AI Konurin, AP Khmelinin and EV Denisova.....150

[Stress state of rock mass under open pit mining in the influence zone of tectonic disturbances \(in terms of the Oktorkoi Fault, North Tien Shan\)](#)

KCh Kozhogulov, OV Nikolskaya, AK Rybin and SI Kuzikov.....155

[Prediction of slope stability based on numerical modeling of stress–strain state of rocks](#)

KCh Kozhogulov, VI Nifadyev and SF Usmanov.....160

[Deformation of rock blocks with a cavity](#)

AA Krasnovsky.....165

[Design model for bending vibrations of single-stage tunnel fan rotor](#)

AM Krasnyuk and PV Kosykh.....169

[Influence of different geological structures on stress–strain state of hard rock mass](#)

NN Kuznetsov and YuV Fedotova.....174

[Roofbolters with compressed-air rotators](#)

MA Lantsevich, AA Repin, VI Klishin and DI Kokoulin.....179

[Influence of structural parameter included in nonlocal rock mass model on stress concentration around circular tunnel](#)

SV Lavrikov, OA Mikenina and AF Revuzhenko.....183

[Conditions of efficient vibrodischarge of rock materials in modern mining and processing technologies](#)

SYa Levenson, LI Gendlina and EG Kulikova.....189

[Difference in rockburst hazard in ore and coal mines](#)

AV Lovchikov.....195

[Constructing a generalized network design model to study air distribution in ventilation networks in subway with a single-track tunnel](#)

IV Lugin.....200

[Infiniteness of stresses for regions with angular points—A class of ill-conditioned problems](#)

VE Mirenkov.....206

[System approach to automation and robotization of drivage](#)

VV Zinov'ev, AE Mayorov, AN Starodubov and PI Nikolaev.....212

[Empirical mode decomposition method in deformation measurement data processing](#)

MD Parushkin, SV Panov, VM Semibalamut and YuN Fomin.....217

[Evaluating influence of luminescence excitation and recording on the efficiency of apatite recovery from Khibiny low-grade ore](#)

DN Pavlishina, BA Vlasov and SV Tereshchenko.....224

[Effect of steel structure and defects on reliability of parts of impact mechanisms](#)

AI Popelyukh, AA Repin and SE Alekseev.....230

[Synthesis of engineering designs of drilling facilities](#)

K Porozhsky.....236

[Research into robotic automation of drilling equipment by the Institute of Mining, UB RAS](#)

AS Regotunov and RI Sukhov.....244

[Down-the-hole hammering machines for blasthole drilling](#)

AA Repin and SE Alekseev.....247

[Hydraulic fracturing stress measurement in underground salt rock mines at Upper Kama Deposit](#)

EV Rubtsova and AA Skulkin.....252

[Substantiation of artificial composite-structure roof construction in top-down cut-and-fill stoping](#)

GD Rukavishnikov, SA Neverov and AA Neverov.....256

[Analysis of dynamic parameters of mine fans](#)

E Yu Russky.....261

[Development of a robotic system of nonstripping pipeline repair by reinforced polymeric compositions](#)

LA Rybalkin.....266

[Development of technical means for directional hydraulic fracturing with shearing loading of borehole walls](#)

LA Rybalkin, AV Patutin and DV Patutin.....269

[Influence of mutual position of a noncircular tunnel and a dynamic impact source on stress distribution in lining](#)

AS Sammal and SV Antsiferov.....272

[Formulations and algorithms for problems on rock mass and support deformation during mining](#)

VM Seryakov.....277

[Calculation of stresses in a rock mass and lining in stagewise face drivage](#)

VM Seryakov and BR Zhamalova.....281

[Acoustic emission of rock mass under the constant-rate fluid injection](#)

AV Shadrin and VI Klishin.....286

[Expediency of wet-mix shotcreting in mines of Vostoksvetmet](#)

YuN Shaposhnik.....295

[Selecting shotcrete composition for Vostoksvetmet mines](#)

YuN Shaposhnik.....299

[Broadband antenna for ground penetrating radar application in soil](#)

LV Shebalkova, MA Markov and VB Romodin.....303

[Destruction of granular media under pore pressure](#)

EB Sibiryakov and BP Sibiryakov.....308

[Air distribution system with the discharge action in the working cavity of downhole air hammer drills](#)

VV Timonin, SE Alekseev, DI Kokoulin and B Kubanychbek.....312

[Geomechanical analysis of mining system by cut and fill at deep levels of Internatsionalnaya pipe](#)

MV Tishkov, DP Semenov, AA Neverov, SA Neverov and AM Nikolsky.....317

[Fundamentals of converging mining technologies in integrated development of mineral resources of lithosphere](#)

KN Trubetskoy, YuP Galchenko and VA Eremenko.....323

[Determination of deformation and strength characteristics of artificial geomaterial having step-shaped discontinuities under uniaxial compression](#)

PA Tsoy.....330

[Change in deformation modulus and strength of meta-siltstone depending on specimen size](#)

PA Tsoy, OM Usoltseva, OA Persidskaya, VN Semenov and BB Sivolap.....335

[Detection of regularities in variation in geomechanical behavior of rock mass during multi-roadway preparation and mining of an extraction panel](#)

AB Tsvetkov, LD Pavlova and VN Fryanov.....338

[Integrated studies into characteristics of physical fields using discontinuous geomedium models under external loading](#)

OM Usoltseva, VI Vostrikov, PA Tsoy and VN Semenov.....342

[Tectonic fault monitoring at open pit mine at Zarnitsa Kimberlite Pipe](#)

VI Vostrikov, NS Polotnyanko, AS Trofimov and AA Potaka.....347

[Nephelometry and turbidimetry to assess concentration and dispersion of coal dust in mines](#)

VP Yushchenko, VN Legky and DE Demidov.....351

[Automated calculation and analysis of impacts generated in mining machine by anvil blocks of complex geometry](#)

IA Zhukov, AA Repin and EG Timofeev.....357
