5th International field symposium "West Siberian Peatlands and Carbon Cycle: Past and Present" and the International conference "Carbon Balance of Western Siberian Mires in the Context of Climate Change"

19–29 June 2017, Khanty-Mansiysk, Russia

Accepted papers received: 15 March 2018

Published online: 28 March 2018

Preface

[5th International field symposium "West Siberian Peatlands and Carbon Cycle: Past and Present" and the International conference "Carbon Balance of Western Siberian Mires in the Context of Climate Change"](#)

[Peer review statement](#)

Papers

[Reconstruction of postglacial landscape evolution within the eastern periphery of Chuya depression on the basis of multidisciplinary analysis of peats in Boguty river basin, SE Altai, Russia](#)

A R Agatova, I V Khazina, M A Bronnikova, O N Uspenskaya and R K Nepop.....1

[Trees as methane sources: A case study of West Siberian South taiga](#)

A I Churkina, S Yu Mochenov, S F Sabrekov, M V Glagolev, D V Il'yasov, I E Terentieva and S S Maksyutov.....9

[Partitioning of net carbon dioxide flux measured by automatic transparent chamber](#)

EA Dyukarev.....18

[Short-term standard litter decomposition across three different ecosystems in middle taiga zone of West Siberia](#)

Nina V Filippova and Mikhail V Glagolev.....23

[Methane and carbon dioxide fluxes in the waterlogged forests of south and middle taiga of Western Siberia](#)

M V Glagolev, D V Ilyasov, I E Terentieva, A F Sabrekov, S Yu Mochenov and S S Maksutov.....34

[Features of seasonal temperature variations in peat soils of oligotrophic bogs in south taiga of Western Siberia](#)

M V Kiselev, E A Dyukarev and N N Voropay.....44

[Plant component features of forest-bog ecotones of eutrophic paludification in the south of boreal forest zone of West Siberia](#)

N V Klimova, N A Chernova and N N Pologova.....50

[Soil temperature of peatland landscapes as a factor in the development of exogenous processes of biogenic relief formation in engineering development of territory](#)

S Korin, O Talyneva and E Kail.....57

[Testate amoebae analysis in the peat deposits of the swamp Dolgon'koye in the south of Western Siberia and peatland paleohydrology for last 3100 years](#)

Irina V Kurina and Tatiana A Blyakharchuk.....67

[Polygonal patterned peatlands of the White Sea islands](#)

S A Kutenkov, M N Kozhin, E O Golovina, E I Kopeina and N V Stoikina.....74

[Diversity of mire massif types in the boreal zone of European Russia](#)

O L Kuznetsov.....84

[Soils in seasonally flooded forests as methane sources: A case study of West Siberian South taiga](#)

S Yu Mochenov, A I Churkina, S F Sabrekov, M V Glagolev, D V Il'yasov, I E Terentieva and S S Maksyutov.....91

[Decomposition rate of peat-forming plants in the oligotrophic peatland at the first stages of destruction](#)

L G Nikonova, E A Golovatskaya and N N Terechshenko.....102

[Peatland development and paleoclimate records from the Holocene peat archive in the foothills of the Eastern Sayan Mountains](#)

A B Rodionova and A V Grenaderova.....107

[Objectives and conditions for protection of unique peatlands in the south of Western Siberia in connection with issues of conservation and use of unique reed mire in suburbs of Tomsk](#)

N M Semenova.....114

[Influence of north climatic conditions on the peat lipids composition](#)

O V Serebrennikova, E B Strelnikova, M A Duchko and Yu I Preis.....123

[Taxonomic composition of phytoplankton in the Vakh River \(Western Siberia\)](#)

O N Skorobogatova.....132

[Bryoflora of mountain mires of Sub-Polar Urals](#)

Yu V Skuchas and E D Lapshina.....151
