5th International Conference on Topical Problems of Continuum Mechanics with a Special Session in Honor of Alexander Manzhirov's 60th Birthday

2–7 October 2017, Tsakhkadzor, Armenia

Accepted papers received: 15 March 2018

Published online: 13 April 2018

Preface

[5th International Conference on Topical Problems of Continuum Mechanics with a Special Session in Honor of Alexander Manzhirov's 60th Birthday](#)

[Peer review statement](#)

Papers

[On 60th Anniversary of Professor Alexander Vladimirovich Manzhirov](#)

Yuri N. Radayev.....1

[Forced vibrations of a two-layered shell in the case of viscous resistance](#)

L A Aghalovyan and L G Ghulghazaryan.....6

[Fundamentals of continuum mechanics – classical approaches and new trends*](#)

H Altenbach.....16

[Some boundary-value problems for anisotropic quarter plane](#)

K M Arkhyenko and O F Kryvyi.....33

[Condition for transition to an unstable state \(necking\) of a specimen in tension](#)

A R Arutyunyan and R A Arutyunyan.....40

[Reflection of shear elastic waves from the interface of a ferromagnetic half-space](#)

L H Atoyán and S H Terzyan.....44

[Control of vibrations of a moving beam](#)

N V Banichuk, S Yu Ivanova, E V Makeev and A V Sinitsyn.....49

[Equations of an elliptic boundary layer in shells of revolution under shock normal edge loading](#)

G A Baregamyan, I V Kirillova and L Yu Kossovich.....55

[Experimental validation of thermo-chemical algorithm for a simulation of pultrusion processes](#)

E Barkanov, P Akishin, N L Miazza, S Galvez and N Pantelelis.....63

[Control problem for a system of linear loaded differential equations](#)

V R Barseghyan and T V Barseghyan.....74

[Reflection of electromagnetic wave from the boundary of the piezoelectric half-space with cubic symmetry](#)

A Kh Berberyan and V G Garakov.....80

[Physical nature of strain rate sensitivity of metals and alloys at high strain rates](#)

E N Borodin, A A Gruzdkov, A E Mayer and N S Selyutina.....85

[Investigation of the mechanical properties of organoplastic under shock wave loading conditions](#)

A M Bragov, L A Igumnov, A Yu Konstantinov and A K Lomunov.....94

[On multiple crack identification by ultrasonic scanning](#)

M Brigante and M A Sumbatyan.....102

[Explosive compaction of aluminum oxide modified by multiwall carbon nanotubes](#)

A E Buzyurkin, E I Kraus and Ya L Lukyanov.....112

[Determination of residual stresses in objects at their additive manufacturing by layer-by-layer photopolymerization method](#)

P S Bychkov, A V Chentsov, V M Kozintsev and A L Popov.....117

[Experimental study of auxetic behavior of cellular structure](#)

A V Chentsov and D S Lisovenko.....122

[Lame problem for a multilayer viscoelastic hollow ball with regard to inhomogeneous aging](#)

Z A Davtyan, S Y Mirzoyan and A V Gasparyan.....127

[Investigation of strength characteristics of aluminum alloy under dynamic tension](#)

A D Evstifeev.....132

[Determination of the mechanical characteristics of nanomaterials under tension and compression](#)

A A Filippov and V M Fomin.....137

[Use of various versions of Schwarz method for solving the problem of contact interaction of elastic bodies](#)

M P Galanin, V V Lukin and A S Rodin.....144

[Magneto-electric transition in nickel-gallium arsenide-nickel multiferroic structure](#)

T A Galichyan, D A Filippov, V M Laletin, T O Firsova and N N Poddubnaya.....156

[Magnetoelectric effect in a sandwich structure of gallium arsenide–nickel–tin–nickel](#)

T A Galichyan, D A Filippov, A A Tihonov, V M Laletin, T O Firsova and I N Manicheva.....160

[On the dynamic instability of a rectangular plate with one free edge](#)

G Z Gevorgyan and A A Sahakyan.....168

[Reflection, refraction, and transmission of SH waves at a micropolar layer separating two elastic media](#)

K B Ghazaryan, A A Papyan and S K Ohanyan.....174

[On a model of the processes of maintaining a technological area by a manipulator](#)

A A Ghukasyan and A Ya Ordyan.....185

[Symmetric vibrations of a liquid in a vessel with a separator and an elastic bottom](#)

D A Goncharov and A A Pozhalostin.....194

[Modeling of normal contact of elastic bodies with surface relief taken into account](#)

I G Goryacheva and I Yu Tsukanov.....199

[An analytical method for the inverse Cauchy problem of Lamé equation in a rectangle](#)

Yu Grigor'ev.....207

[On the contact interaction of two identical stringers with an elastic semi-infinite continuous or vertically cracked plate](#)

M S Grigoryan.....212

[Stress state of a piecewise uniform layered space with doubly periodic internal cracks](#)

V N Hakobyan and L L Dashtoyan.....223

[Stress state of uniformly piecewise homogeneous space with a periodic system of parallel internal cracks](#)

V N Hakobyan and L V Hakobyan.....230

[Estimation of mountain slope stability depending on ground consistency and slip-slide resistance changes on impact of dynamic forces](#)

H S Hayroyan, S H Hayroyan and K A Karapetyan.....236

[Boundary-element modelling of dynamics in external poroviscoelastic problems](#)

L A Igumnov, S Yu Litvinchuk, A A Ipatov and A N Petrov.....244

[Boundary element modelling of dynamic behavior of piecewise homogeneous anisotropic elastic solids](#)

L A Igumnov, I P Markov and S Yu Litvinchuk.....252

[Biomechanics of compensatory mechanisms in spinal-pelvic complex](#)

D V Ivanov, V V Hominets, I V Kirillova, L Yu Kossovich, A L Kudyashev and A V Teremshonok.....259

[Contact interaction of thin-walled elements with an elastic layer and an infinite circular cylinder under torsion](#)

E G Kanetsyan, M S Mkrtchyan and S M Mkhitarian.....266

[About the possibility of obtaining cementitious soil composites of high strength on the basis of belozems of carbonate composition](#)

K A Karapetyan, S G Hayroyan and E S Manukyan.....281

[Modelling of mechanical and filtration processes near the well with regard to anisotropy](#)

V I Karev, D M Klimov, Yu F Kovalenko and K B Ustinov.....287

[Contact interaction between a layered foundation and a system of annular punches with complex base shapes](#)

K E Kazakov and S P Kurdina.....295

[On the eigenfrequencies of elastic shear waves propagating in an inhomogeneous layer](#)

V M Khachatryan.....301

[Mathematical modeling of dynamic stability of shell structures under large elastoplastic deformations](#)

K Z Khairnasov.....306

[Mathematical modeling of shell configurations made of homogeneous and composite materials experiencing intensive short actions and large displacements](#)

K Z Khairnasov.....313

[Collaboration of polymer composite reinforcement and cement concrete](#)

V G Khozin and A R Gizdatullin.....324

[Controllability of semi-infinite rod heating by a point source](#)

A Khurshudyan.....336

[Vibrations of geometrically nonlinear beam subjected to two oppositely moving loads and supported by three equidistant visco-elastic dampers](#)

A Khurshudyan and S Ohanyan.....344

[Wave propagation problem for a micropolar elastic waveguide](#)

V A Kovalev, E V Murashkin and Y N Radayev.....354

[Numerical simulation of deformation and failure processes of a complex technical object under impact loading](#)

E I Kraus, I I Shabalin and T I Shabalin.....363

[Healing of damaged metal by a pulsed high-energy electromagnetic field](#)

K V Kukudzhanov and A L Levitin.....374

[Mathematical model of the heat transfer process taking into account the consequences of nonlocality in structurally sensitive materials](#)

G N Kuvyrkin, I Y Savelyeva and D A Kuvshynnikova.....384

[Harmonic oscillations of a longitudinal shear infinite hollow cylinder arbitrary cross-section with a tunnel crack](#)

O I Kyrylova and V G Popov.....390

[Determination of necking time in tensile test specimens, under high-temperature creep conditions, subjected to distribution of stresses over the cross-section](#)

A Lokoshchenko and W Teraud.....398

[A stationary bulk planar ideal flow solution for the double shearing model](#)

E A Lyamina, N V Kalenova and P P Date.....405

[Mechanical and thermal properties of MoS₂ reinforced epoxy nanocomposites](#)

S R Madeshwaran, R Jayaganthan, R Velmurugan, N K Gupta and A V Manzhurov.....412

[Influence of grain size and second phase particles on the process of void initiation](#)

D K Magomedova and M Yu Murashkin.....418

[Some problems in mechanics of growing solids with applications to AM technologies](#)

A V Manzhurov.....423

[2D problems of surface growth theory with applications to additive manufacturing](#)

A V Manzhurov and M N Mikhlin.....437

[Investigation of problems of closing of geophysical cracks in thermoelastic media in the case of flow of fluids with impurities](#)

A N Martirosyan, A V Davtyan, A S Dinunts and H A Martirosyan.....455

[On a class of problems on interaction of stress concentrators of different types with an elastic semi-infinite plate](#)

S M Mkhitarian.....462

[Coupled thermal stresses analysis in the composite elastic-plastic cylinder](#)

E V Murashkin and E P Dats.....479

[Full thermomechanical coupling in modelling of micropolar thermoelasticity](#)

E V Murashkin and Y N Radayev.....490

[Light radiation pressure upon a wrinkled membrane – parametrization of an optically orthotropic model](#)

N A Nerovny and V N Zimin.....496

[The mechanical problems on additive manufacturing of viscoelastic solids with integral conditions on a surface increasing in the growth process](#)

D A Parshin and A V Manzhirov.....501

[Analysis of syntactic foam – GFRP sandwich composites for flexural loads](#)

Daniel Paul, R Velmurugan, R Jayaganthan, N K Gupta and A V Manzhirov.....509

[Polariton resonances in multilayered piezoelectric superlattices](#)

D Piliposyan.....515

[Problems of interaction longitudinal shear waves with V-shape tunnels defect](#)

V G Popov.....521

[Modeling of thin-walled structures interacting with acoustic media as constrained two-dimensional continua](#)

L N Rabinskiy and S I Zhavoronok.....532

[A spring system method for a mesh generation problem](#)

A Romanov.....542

[The fractional derivative Kelvin–Voigt model of viscoelasticity with and without volumetric relaxation](#)

Yu A Rossikhin and M V Shitikova.....549

[Method of mechanical quadratures for solving singular integral equations of various types](#)

A V Sahakyan and H A Amirjanyan.....557

[Mixed boundary-value problem for an orthotropic rectangular strip with variable coefficients of elasticity](#)

M Z Sargsyan and H M Poghosyan.....567

[An analytical theory for a three-dimensional thick-disc thin-plate vibratory gyroscope](#)

G T Sedebo, S V Joubert and M Y Shatalov.....571

[Vibration of high-voltage electric machines with rotors on rolling bearings](#)

H G Shekryan and A V Gevorgyan.....579

[Biomechanics of stem cells](#)

A A Spector, D Yuan, S Somers and W L Grayson.....585

[Continuum mathematical modelling of pathological growth of blood vessels](#)

N E Stadnik and E P Dats.....591

[Contact problem for a solid indenter and a viscoelastic half-space described by the spectrum of relaxation and retardation times](#)

F I Stepanov.....597

[Strength analysis of aged polymer composites subjected to tensile loads](#)

S Valesyan.....603

[Investigation of stress concentration at corner points for orthotropic plate bending problem](#)

N G Vasilyan.....610

[Some remarks on recent developments in micropolar continuum theory](#)

E N Vilchevskaya and W H Müller.....616

[Dependence of equivalent thermal conductivity coefficients of single-wall carbon nanotubes on their chirality](#)

V S Zarubin and E S Sergeeva.....626
