

VIII International Scientific Colloquium on Modelling for Materials Processing 2017

IOP Conference Series: Materials Science and Engineering
Volume 355

Riga, Latvia
21 - 22 September 2017

Editors:

Andris Jakovics
Mihails Scepanskis

ISBN: 978-1-5108-6285-2
ISSN: 1757-8981

VIII International Scientific Colloquium on Modelling for Materials Processing

21–22 September 2017, Riga, Latvia

Accepted papers received: 19 April 2018

Published online: 8 May 2018

Preface

[VIII International Scientific Colloquium on Modelling for Materials Processing](#)

[Peer review statement](#)

Papers

Crystal growth

[The synergy of modeling and novel experiments for melt crystal growth research](#)

Jeffrey J. Derby.....1

[Modeling Czochralski growth of oxide crystals for piezoelectric and optical applications](#)

C Stelian and T Duffar.....7

[Modelling of thermal field and point defect dynamics during silicon single crystal growth using CZ technique](#)

A Sabanskis and J Virbulis.....13

[Validation of mathematical model for CZ process using small-scale laboratory crystal growth furnace](#)

Kristaps Bergfelds, Andrejs Sabanskis and Janis Virbulis.....19

[Three-dimensional modelling of thermal stress in floating zone silicon crystal growth](#)

Matiss Plate, Armands Krauze and Jānis Virbulis.....27

[Aspects of rf-heating and gas-phase doping of large scale silicon crystals grown by the Float Zone technique](#)

F Zobel, F Mosel, J Sørensen and P Dold.....37

[Development of silicon growth techniques from melt with surface heating](#)

Anatoly Kravtsov.....43

[Modeling electron beam parameters and plasma interface position in an anode plasma electron gun with hydrogen atmosphere](#)

A Krauze, J Virbulis and A Kravtsov.....50

Metallurgical applications

[Analysis of the impact of modification of cold crucible design on the efficiency of the cold crucible induction furnace](#)

R Przylucki, S Golak, P Bulinski, J Smolka, M Palacz, G Siwec, J Lipart and L Blacha.....60

[A feasibility study for high-temperature titanium reduction from \$TiCl_4\$ using a magnesiothermic process](#)

S L Ivanov and D Zablotzky.....66

[Direct chill casting of aluminium alloys under electromagnetic interaction by permanent magnet assembly](#)

Andris Bojarevičs, Imants Kaldre, Mikus Milgrāvis and Toms Beinerts.....72

[Numerical Simulation of Induction Channel Furnace to Investigate Efficiency for low Frequencies](#)

N Tran Thi Hang and U Lüdtke.....78

EM Field & Heat treatment

[Comparison of Electromagnetic and Marangoni Forces on Thin Coatings during Rapid Heating Process](#)

T Steinberg, T Opitz, A Rybakov and E Baake.....83

[Numerical investigation of effects on blanks for press hardening process during longitudinal flux heating](#)

André Dietrich and Bernard Nacke.....91

[Comparison of single and consecutive dual frequency induction surface hardening of gear wheels](#)

J Barglik, K Ducki, D Kukla, J Mizera, G Mrówka-Nowotnik, J Sieniawski and A Smalcerz.....97

[Self-adaptive multimethod optimization applied to a tailored heating forging process](#)

M Baldan, T Steinberg and E Baake.....104

[Modelling of thermal stresses in bearing steel structure generated by electrical current impulses](#)

M Birjukovs, A Jakovics and W Holweger.....118

Advanced applications

[Thermo-Chemical Conversion of Microwave Activated Biomass Mixtures](#)

I Barmina, A Kolmickovs, R Valdmanis, S. Vostrikovs and M Zake.....133

[Computational Simulations of the Lateral-Photovoltage-Scanning-Method](#)

S Kayser, A Lüdge and K Böttcher.....142

[Numerical modelling of surface waves generated by low frequency electromagnetic field for silicon refinement process](#)

V Geža, J Venčels, Ģ Zāģeris and S Pavlovs.....148

[Development of an electromechanical principle for wet and dry milling](#)

Bernd Halbedel and Oleg Kazak.....155

[Numerical investigation of slag formation in an entrained-flow gasifier](#)

G Zageris, V Geza and A Jakovics.....162

[Benefits of magnesium wheels for consumer cars](#)

Vilnis Frishfelds, Andrejs Timuhins and Uldis Bethers.....170
