XI Mexican School on Gravitation and Mathematical Physics 2016

Quantum Gravity: Schemes, Models and Phenomenology

Journal of Physics: Conference Series Volume 1030

Playa del Carmen, Mexico
5 - 9 December 2016

Editors:

Hector Hernandez
Guillermo Chacon
Miguel Sabido

ISBN: 978-1-5108-6490-0
ISSN: 1742-6588

Volume 1030

XI Mexican School on Gravitation and Mathematical Physics, "Quantum Gravity: schemes, models and phenomenology"

5–9 December 2016, Playa del Carmen, Quintana Roo, Mexico

Accepted papers received: 9 May 2018
Published online: 12 June 2018

Preface

XI Mexican School on Gravitation and Mathematical Physics, "Quantum Gravity: schemes, models and phenomenology"

Peer review statement

Papers

An algorithm for quantum gravity phenomenology

Yuri Bonder.....1

Moyal product for (n – 1)-forms within the covariant Hamiltonian formalism for fields

Jasel Berra–Montiel, Alberto Molgado and David Serrano-Blanco.....6

Searching for Planck scale effects from the free expansion of a Bose–Einstein Condensate

Elías Castellanos and Peter Sloane.....11

Modified relativistic Jüttner-like distribution functions with η-parameter

L. Aragón-Muñoz and G. Chacón-Acosta.....16

Post-Newtonian approximation of gravitational waves from the inspiral phase

Javier M. Antelis, Jaime M. Hernández and Claudia Moreno.....23

Towards a calculation of the halo mass function of a scalar field dark matter

Francisco X. Linares Cedeño, Alma X. González-Morales and L. Arturo Ureña-López.....29

Rapid cosmological simulations in Scalar Field Dark Matter models

Rebeca Martínez-Carrillo and L. Arturo Ureña-López.....35

Series solutions of single-field models of inflation

V M Jaramillo-Pérez, I Padilla-Gay, A Diez-Tejedor and L A Ureña-López.....41

A simple model of universe with a polytropic equation of state

Pierre-Henri Chavanis.....46

Cosmologies with scalar fields from higher dimensions: K-essence like fields

J Socorro, L Toledo Sesma and L O Pimentel.....64

Stealth field in FLRW spacetime with non minimal derivative coupling

Gilberto Aguilar, Abigail Alvarez and Cuauhtemoc Campuzano.....69

Hidden SUSY features, and Dawson's function and the wrong-sign Hermite functions

Marco A. Reyes and Rafael Arcos-Olalla.....75
