

# **4th Polish Mining Congress 2017**

IOP Conference Series: Earth and Environmental Science  
Volume 174

Krakow, Poland  
20 - 22 November 2017

## **Editors:**

**Piotr Banka**  
**Marcin Lutynski**  
**Marta Matyjaszek**

ISBN: 978-1-5108-6747-5  
ISSN: 1755-1307

**Printed from e-media with permission by:**

Curran Associates, Inc.  
57 Morehouse Lane  
Red Hook, NY 12571

**Some format issues inherent in the e-media version may also appear in this print version.**

## Volume 174

**4th Polish Mining Congress-Session: Human and environment facing the challenges of mining**

**20–22 November 2017, Krakow, Poland**

**Accepted papers received: 25 June 2018**

**Published online: 5 July 2018**

### **Preface**

[4<sup>th</sup> Polish Mining Congress-Session: Human and environment facing the challenges of mining](#)

[Peer review statement](#)

### **Papers**

[The induced seismicity predicting based on changes in the specific energy of elastic strain of tremor-prone rock layers](#)

Piotr Bańka.....1

[Forecasting of stresses in overhead power lines running through area affected by the mining damage](#)

Sergiusz Boron.....12

[The possibilities for reducing mercury, arsenic and thallium emission from coal conversion processes](#)

Piotr Burmistrz, Faustyna Wierońska, Marta Marczak and Dorota Makowska.....18

[Environmental problems on the areas of redeveloped hard coal deposits](#)

Henryk Kleta and Franciszek Plewa.....27

[Application of petrophysical shale gas model for CO<sub>2</sub> storage capacity assessment of coals](#)

Marcin Lutynski and Lucio Zavanella.....34

[Changing the mining industry in the heart of Silesia](#)

Zygmunt Łukaszczyk and Marcin Popczyk.....40

[The future of hard coal compared to other energy carriers](#)

Anna Manowska and Aurelia Rybak.....49

[Forecast of influences of exploitation conducted in rock mass degraded by the previous activity of the "Bobrek" Coal Mine on the building of historical church in Miechowice](#)

Ryszard Mielimąka and Franciszek Plewa.....57

[The use of modern IT tools to acquire information about geographical space from archival maps](#)

Aleksandra Mierzejowska.....66

[Searching for dependent air currents in a mine ventilation network using the connected graph disconnection method](#)

Grzegorz Pach.....75

[Pollution of coals of the Upper Silesian Coal Basin from the perspective of the European registers of the release and transfer of pollutants to air - the case of chlorine](#)

Szymon Pluta and Franciszek Plewa.....82

[Perspective directions of the development of hydrotransport gravity mixers installations in the light of existing industrial solutions](#)

Marcin Popczyk.....86

Fire hazard in coal waste dumps – selected aspects of the environmental impact

Zenon Róžański.....96

Design of underground mine voids filling operations in difficult flow conditions of fly ash – water mixtures

Grzegorz Strozik.....108

Influence of pipe roughness and coating built-up on pipe walls on the flow of solidifying Non-newtonian fly ash-water mixtures in hydraulic transport systems in coal mines

Grzegorz Strozik.....116

Working environment and observance of occupational health and safety regulations – case study

Małgorzata Wyganowska and Katarzyna Tobór-Osadnik.....124
