Table of contents

Volume 1047

9th International Conference on Inverse Problems in Engineering (ICIPE)

23–26 May 2017, Waterloo, ON, Canada

Accepted papers received: 19 June 2018
Published online: 4 July 2018

Preface

9th International Conference on Inverse Problems in Engineering (ICIPE)

Peer review statement

Papers

Transfer function identification through total least squares

W. Al Hadad and D. Maillet.....1

Optimum design of complementary transient experiments for estimating thermal properties

Filippo de Monte, James V Beck and Donald E Amos.....13

Constructing tubular networks that occupy arbitrary regions in $\mathbb{R}^3$

F Ghasempour, W Jiang, F Mendivil, S D Peterson and E R Vrscay.....25

Collage theorem-based approaches for solving inverse problems for differential equations: A review of recent developments

H Kunze, D La Torre, F Mendivil and E R Vrscay.....38

An inverse problem for a system of steady-state reaction-diffusion equations on a porous domain using a collage-based approach

H Kunze and D La Torre.....50

Indirect measurement of temperature inside a furnace, ARX model identification

T Loussouarn, D Maillet, B Remy, V Schick and D Dan.....59

Shale structure reconstruction by X-ray computerized tomography based on total variation regularization*

S S Luo and Y F Wang.....73

Bayesian approach to single-tree detection in airborne laser scanning – use of training data for prior and likelihood modeling

Teemu Luostari, Timo Lähivaara, Petteri Packalen and Aku Seppänen.....81

An inverse problem approach to computational active depth from defocus

A Ma and A Wong.....97

A machine-learning approach for noise reduction in parameter estimation inverse problems, applied to characterization of oil reservoirs

C. Minutti, S. Gomez and G. Ramos.....105

Study of defects of elastic thermal protection by inverse methods of nonlinear acoustics

A V Nenarokomov, O M Alifanov, K A Nenarokomov, D M Titov and V S Finchenko.....115

Optimal design of ECT sensors using prior knowledge

M Neumayer, M Flatscher, T Bretterklieber and S Puttinger.....129

A comparison of sparse Bayesian regularization methods on computed tomography reconstruction

J Ševčík and V Šmídl.....140

A Study of the discrepancy function when modeling a packed bed using Variational Bayes and Gaussian processes

Sang-Ien Sien and A. F. Emery.....157

Robust sparse linear regression for tokamak plasma boundary estimation using variational Bayes

Vít Škvára, Václav Šmídl and Jakub Urban.....171

Inverse eigenvalue problems for checkerboard Toeplitz matrices

T H Jones and N B Willms.....183

An Error Reduction Technique in Richardson-Lucy Deconvolution Method

Hiroyuki Yamauchi and Worawit Somha.....195
