

6th Target Fabrication Workshop (TFW6) and 3rd Targetry for High Repetition Rate Laser-Driven Sources Conference (Targ3)

Journal of Physics: Conference Series Volume 1079

London, United Kingdom
8-11 May 2017
Salamanca, Spain
21-23 June 2017

Editors:

Christopher Spindloe

ISBN: 978-1-5108-7088-8

6th Target Fabrication Workshop (TFW6) and the Targetry for High Repetition Rate Laser-Driven Sources (Targ3) Conference
8–11 May 2017, University of Greenwich, London (TFW) and 21–23 June 2017
Salamanca, Spain (Targ)

Accepted papers received: 2 August 2018
Published online: 6 September 2018

Preface

6th Target Fabrication Workshop (TFW6) and the Targetry for High Repetition Rate Laser-Driven Sources (Targ3) Conference

Third Targetry Meeting (Targ3), Salamanca, Spain

6th Target Fabrication Workshop, Greenwich, London, UK

Peer review statement

Papers

Targ3

Experimental study of proton acceleration from thin-foil on a table top Ti:Sapphire.....1

I Sánchez, R Lera, J Ruda, JB Gonzalez, F Ruiz, D Lopez and A Ruiz-de la Cruz

Integrated double-plasma-mirror targets for contrast enhancement in laser ion acceleration.....13

Martin Speicher, Daniel Haffa, Matthias A. O. Haug, Jianhui Bin, Ying Gao, Jens Hartmann, Peter Hilz, Christian Kreuzer, Florian H. Lindner, Tobias M. Ostermayr, Thomas F. Rösch, Rong Yang and Jörg Schreiber

The spatial contrast challenge for intense laser-plasma experiments.....20

Jens Hartmann, Daniel Haffa, Martin Speicher, Jianhui Bin, Peter Hinz, Christian Kreuzer, Tobias Ostermayr, Sebastian Lehack and Jörg Schreiber

Optimization of critical-density gas jet targets for laser ion acceleration in the collisionless shockwave acceleration regime.....26

J L Henares, M Tarisien, P Puyuelo, J-R Marquès, T Nguyen-Bui, F Gobet, X Raymond, M. Versteegen and F. Hannachi

Proposed laser-targets design for space radiation simulation at ELI-NP.....33

A Ionescu, C C Gheorghiu, M Bobeica, M Tataru, T Asavei and V Leca

Measurement of the particle number density in a pulsed flow gas cell with a second-harmonic interferometer.....40

F Brandi, P Marsili, F Giammanco, F Sylla and LA Gizzi

Wafer-scale fabrication of target arrays for stable generation of proton beams by laser-plasma interaction.....46

R L Zaffino, M Seimetz, A Ruiz, I Sanchez, P Mur, P Bellido, R Lera, D Quirion, L Martín, J Benlliure, J M Benlloch, M Lozano and G Pellegrini

Optimization of a fast rotating target to produce kHz X-ray pulses from laser-plasma interaction.....54

L Martín, J Benlliure, D Cortina, J J Llerena, D González and C Ruiz

Development of a multi-shot experiment for proton acceleration.....64

C Ruiz, J Benlliure, D Cortina, D González, J Llerena and L. Martín

6TFW

Hydrogen resist lithography and electron beam lithography for fabricating silicon targets for studying donor orbital states.....72

E. Crane, A. Köolker, T. Z. Stock, N. Stavrias, K. Saeedi, M. A. W. van Loon, B. N. Murdin and N. J. Curson

A setup for micro-structured silicon targets by femtosecond laser irradiation.....79

Nico W. Neumann, Tina Ebert, Gabriel Schaumann and Markus Roth

Combining two-photon-polymerization with UV-lithography for laser particle acceleration targets.....83

T Abel, R Dörr, W Krüger, R Horstmann, G Schaumann, M Roth and H F Schlaak

Automatic rough alignment for key components in laser driven experiments using fiducial markers.....90

D C Popescu, M O Cernaianu and I Dumitrache

Experimental Testing of Targets for a High Accuracy Microtarget Supply (HAMS) System on the Gemini Laser System.....99

C Spindloe, N Booth, S Astbury, C Gregory, E Bryce, S Tomlinson, R Heathcote, G Arthur, D Haddock and M K Tolley

Characterisation of the oxide effects on aluminium opacity targets.....113

D Haddock, S White, C Spindloe, D Riley and M Tolley

Manufacture and Characterisation of Materials for High Power Laser Targets.....122

A. Hughes, D. Haddock, W. Nazarov, C. Whyte, M. Tolley and C. Spindloe

Surface roughness of NaCl coating used as release layers in thin film production.....132

P Ariyathilaka, D Haddock, C Spindloe and M K Tolley

MEMS Fabrication of Silicon Microwire Targets.....140

Graham Arthur
