

Mineral Engineering Conference (MEC 2018)

IOP Conference Series: Materials Science and Engineering
Volume 427

Zawiercie, Poland
26 - 29 September 2018

Editors:

Marcin Lutynski
Tomasz Suponik

ISBN: 978-1-5108-7336-0
ISSN: 1757-8981

Volume 427

Mineral Engineering Conference
26–29 September 2018, Zawiercie, Poland

Accepted papers received: 7 September 2018
Published online: 17 October 2018

Preface

[Mineral Engineering Conference](#)

[Peer review statement](#)

Papers

[The use of selected structural tests in the determination of phase composition of industrial wastes based on the example of Zn-Pb slags](#)

I Jonczy.....1

[Trends in global copper mining – a review](#)

S Pietrzyk and B Tora.....12

[Development of dry coal gravity separation techniques](#)

W Mijał and B Tora.....22

[The role of \$\beta\$ -diketones in the extraction of cobalt \(II\) and nickel \(II\) ions](#)

K Witt and E Radzimska-Lenarcik.....30

[Copper recovery from model chloride solution using polymer inclusion membranes with 1-decyl-2,4-dimethylimidazole](#)

E Radzimska-Lenarcik and K Witt.....41

Influence of dextrin on beneficiation of components from copper flotation concentrate

A Bakalarz, M Duchnowska and R Kubik.....52

Influence of foam height on salt flotation of copper-bearing shale

T Ratajczak.....60

Analysis of distributions of various coal types properties by means of statistical methods

T Niedoba, P Pięta and A Surowiak.....65

Studies on Polish copper ore beneficiation in Jameson cell

P Pięta, T Niedoba, A Surowiak, O Şahbaz, C Karagüzel and Ö Canieren.....70

Determination of flakiness index (FI) and shape index (SI) using open source digital image analysis software

K Oleksik, K Ostrowski and D Mrocheń.....82

Application of kinetic, incentive, limits and arrheniusan curves for flotation characterization

J Drzymala.....89

Modelling of oil agglomeration of dolomite by the use of an artificial neural network optimized using Optimal Brain Damage algorithm

M Kamiński and A Bastrzyk.....95

Application of a vision systems for assessment of particle size and shape for mineral crushing products

D Krawczykowski.....104

[Investigation of post-industrial pollutions' immobilization in a hydraulic self-solidifying clay-cement binder](#)

A Stempkowska, Ł Wójcik, P Izak, M Staszewska and J Mastalska-Popławska.....109

[Impact of HPGR pressing force on the level of product recovery](#)

D Saramak.....119

[Influence of HPGR operation on the reduction of Bond's working index of crushing product](#)

D Saramak and Z A Iwanów.....126

[Investigations of zinc recovery from metallurgical waste](#)

D Saramak, D Krawczykowski and T Gawenda.....133

[Investigations over the selection of reagent dose and speed of rotor in laboratory process of ore flotation for HPGR crushing products](#)

K Oleksik, D Saramak and A Krawczykowska.....138

[Management of waste from energy production – waste combustion in Poland](#)

A Uliasz-Bocheńczyk and P Bąk.....146

[Monitoring of coal jig operation using a radiometric meter with a variable time of measurement](#)

S Cierpisz and J Joostberens.....153

[Water content in froth products depending on the salinity level of pulp flotation](#)

K Tupek-Murowany and A Młynarczykowska.....164

[Biomining of calcium carbonate controlled by biomolecules produced by *Bacillus* sp.](#)

A Bastrzyk, I Polowczyk, KJ Legawiec, J Chojniak, K Paraszkiwicz and G A Płaza.....169

[Image histogram as a tool for a coal stream homogeneity evaluation](#)

A Heyduk, J Joostberens, A Nowrot, J Pielot and K Fabiańczyk.....175

[Testing the reduction properties of coke produced from a mixture of hard coal and rubber wastes](#)

P Matusiak and J Koziół.....183

[Technology of fine coal grains recovery from the mining waste deposits](#)

D Kowol and P Matusiak.....191

[Development of research work in the air-water spraying area for reduction of methane and coal dust explosion hazard as well as for dust control in the Polish mining industry](#)

D Prostański.....203

[Preliminary assessment of new approach to scale-up the laboratory results of flotation reagents tests based on mineralogical analysis](#)

M Krzemińska and P Kurzydło.....216

[Hydrometallurgical processing of serpentine ore](#)

E A Abdel-Aal, D El-Sayed, A K Ismail and F I El-Hosieny.....223

[A new methodology of floatability tests on Polish copper ores based on grain size-density fractions](#)

A Krawczykowska.....236

[Effect of curing time on the dissolution of a secondary copper sulphide ore using alternative water resources](#)

V Quezada, L Velásquez, A Roca, O Benavente, E Melo and B Keith.....244

[Analysis of process of grinding efficiency in ball and rod mills with various feed parameters](#)

D Foszcz, D Krawczykowski, T Gawenda, E Kasińska-Pilut and W Pawlos.....254

[Increasing efficiency of technological process by limiting impact of corrosive environment on operation of spiral classifiers](#)

M Czekało and K Żakowski.....265

[Analysis of the working chamber size influence on the effectiveness of grinding in electromagnetic mill](#)

D Krawczykowski, D Foszcz, S Ogonowski, T Gawenda and M Wołosiewicz-Głąb.....273

[New technology used to prepare ore for flotation based on impact comminution technique](#)

A Wieniewski, B Skorupska and M Osoba.....287

[Assessing the benefits of automatic grinding control using PST technology for true on-line Particle Size Measurement](#)

R Maron, C O'Keefe and J Sepulveda.....296

[Substitution of magnetite in dense medium separation by Zinc-Lead waste](#)

D Gajda, M Lutyński and M Kujawska.....305

[The behavior of oxidized copper during the sulphide Cu ore flotation in KGHM Polska Miedź S.A.](#)

A Grotowski.....312

[Analysis of improving the quality of coal slurry based on the use of regression models](#)

A Manowska and M Mazurek.....322

[Sorption rate of CH₄ and CO₂ in coal at different pressure ranges](#)

M Lutynski and L Zavanella.....332

[The testing of waste from the installation of salt debris leaching](#)

T Suponik, P Pierzyna, D Franke and Z Adamczyk.....340
