

XVI International Scientific Conference and Young Scholars “Physical and Chemical Processes in Atomic Systems” (PCPAS 2017)

Journal of Physics: Conference Series
Volume 1099

Moscow, Russia
20 - 22 November 2017

Editor:

Vladimir D. Borman

ISBN: 978-1-5108-7343-8
ISSN: 1742-6588

Table of contents

Volume 1099

XVI International Scientific Conference and School of Young Scholars "Physical and Chemical Processes in Atomic Systems"

20–22 November 2017, Moscow, Russian Federation

Accepted papers received: 29 August 2018

Published online: 8 October 2018

Preface

[XVI International Scientific Conference and School of Young Scholars "Physical and Chemical Processes in Atomic Systems"](#)

[Peer review statement](#)

Papers

I. ISOTOPES SEPARATION AND THEIR NEW APPLICATIONS

[Applying enrichment capacities for multiple recycling of LWR uranium](#)

A Yu Smirnov, G A Sulaberidze, V E Gusev, E A Andrianova, V Yu Blandinski, A V Grol, A A Dudnikov, V A Nevinitza and P A Fomichenko.....1

[Production of stable isotopes of light elements: past, present and future](#)

A V Khoroshilov.....10

[Physical and chemical processes on the ²¹²Pb radionuclide production for nuclear medicine](#)

P P Boldyrev, B V Egorova, K V Kokov, Yu A Perminov, M A Proshin and D Yu Chuvilin.....20

[Adaptive system model of stabilization of the power factor of actuators of centrifuges for uranium enrichment with structural dynamic model of electric drive with parallel reactive power compensation](#)

V M Juromskiy.....27

[Algorithm of automatic search \$\cos \varphi = 1\$ for electric drive of high speed centrifuges with minimum limit cycle in region of the inductive nature of the power supply](#)

V M Juromskiy.....33

[Separation of boron isotopes by chemical exchange in liquid-liquid systems](#)

A V Khoroshilov and P I Ivanov.....38

[On the physical validity of the proposed separation potentials for multicomponent mixtures](#)

A Yu Smirnov, G A Sulaberidze, A R Mustafin and E Yu Goloulin.....46

[A \$^{208}\text{Pb}\$ coolant for a multipurpose nuclear reactor](#)

G L Khorasanov, D S Samokhin and A S Zevyakin.....51

[Optimization of cascades with variable overall separation factors by various efficiency criteria](#)

G A Sulaberidze, A P Mustafin, A Yu Smirnov, V D Borisevich, S Zeng and D Jiang.....54

II. EXTREME GAS DYNAMICS

[A homotopy algorithm to solve the problems of flows under strong rotation](#)

Z Y Gu, D J Jiang, S Zeng and V D Borisevich.....63

[Plasma centrifuge for isotope separation with axial circulation caused by a traveling magnetic field](#)

V D Borisevich and E P Potanin.....73

[On the scoop heating effect of a gas centrifuge in numerical simulation](#)

Y N Zhang, S Zeng, D J Jiang and V D Borisevich.....80

[Analytical and numerical solutions of the shock tube problem in a channel with a pseudo-perforated wall](#)

V A Shargatov, A P Chugainova, S V Gorkunov and S I Sumskoi.....90

[Modeling of shock wave propagation over the obstacles using supercomputers](#)

V A Shargatov, A S Pecherkin, A S Sofin, A A Agapov, S V Gorkunov, S I Sumskoi, Yu A Bogdanova and A V Karabulin.....98

[Shock waves in porous media](#)

S A Gubin.....108

[Attenuation of Shock Waves in Bubbly Media](#)

S A Gubin.....113

[Analytical equation for the damping coefficient of the acoustic wave in the strong centrifugal field](#)

S.V. Bogovalov, V.A. Kislov and I.V. Tronin.....118

[Dynamical stability of running solitary waves in fluid-filled elastic membrane tubes](#)

A T Il'ichev.....122

[The modeling of anomalous transport in the diffusion-ballistic regime](#)

P A Likhomanova, I V Tronin, A M Grekhov, V N Tronin and V D Borman.....128

III. POROUS MEDIUM, SURFACE AND COLLOIDS

[Non-classical transport in highly heterogeneous porous media](#)

P S Kondratenko and L V Matveev.....133

[Molecular-dynamic simulation of isotherm of cyclotetramethylenetranetramine with the nanopore type defect](#)

S A Kozlova, S A Gubin, I V Maklashova and A A Selezenev.....143

[The law of a stretched exponential and the crossover of the behavior of a disordered nanoporous medium with a non-wetting liquid with its anomalously slow relaxation](#)

V D Borman, A A Belogorlov, V N Tronin and R R Khabibullin.....149

[Study of local configurations in the systems "disordered nanoporous medium – non-wetting liquid"](#)

S A Bortnikova, A A Belogorlov, V D Borman and V N Tronin.....157

[The number of nearest neighbors in the model of a disordered porous medium](#)

A S Mitrofanova and V A Byrkin.....164

[Phenomenon of non-outflow of a non-wetting liquid dispersed in nanoporous medium. The influence of modification and size of granules.](#)

A Yu Emelianova, S A Bortnikova and A A Belogorlov.....170

[Intellectual properties of a granular nanoporous medium in a non-wetting liquid.](#)

V D Borman, A A Belogorlov and V N Tronin.....175

[Activation of gold due to the size effect for the isotopic reactions in molecular hydrogen](#)

O.A. Boeva, A.A. Odintsov and K.N. Zhavoronkova.....183

IV. THE MEMBRANE SEPARATION, WATER TREATMENT

[Conceptual design of water supply systems based on low-power nuclear desalination complex](#)

N I Laguntsov and R A Alexandrov.....191

[The issues of creating rational water supply schemes using desalination and recycling systems](#)

I A Nechaev, P I Nechaev, E I Pleskach and R A Alexandrov.....196

[Investigation of the three-adsorber scheme used in the hybrid membrane-sorption system](#)

A A Tishin, V N Gurkin, I E Skuridin and I M Kurchatov.....203

[PAN filtration membranes with extended solvent stability](#)

A A Yushkin, M N Efimov, A A Vasilev, G P Karpacheva and A V Volkov.....210

[Reagent purification and pre-treatment of water in water supply systems with desalination complex](#)

R A Alexandrov, N I Laguntsov, V A Salomasov, E A Ananyeva and S N Tikhonov.....216

[Hybrid solutions of compressed gas drying](#)

I M Kurchatov, A A Tishin, M D Karaseva and V N Gurkin.....225

[The Efficiency of the Countercurrent Blowdown in the Membrane-Sorption System with Three Adsorbers](#)

V N Gurkin, N I Laguntsov, I E Skuridin and A A Tishin.....230

[Production of Water with Reduced Content of Deuterium for Water Supply System with Desalination Installation](#)

A Yu Smirnov and G A Sulaberidze.....235

[Effect of carbon nanotubes on a gases permeability of polymer PMMA](#)

Yu S Eremin, D Bakhtin, S V Pavlov and A M Grekhov.....242

[Fabrication of composite hollow fiber membranes with thin film selective layers from highly permeable polymers](#)

A Ovcharova, S Bazhenov, V Volkov, T Plisko and A Bildyukevich.....247

[Pressure effect at permeability and deformation of the hollow fiber membrane gas separation module](#)

N I Laguntsov and M D Karaseva.....251

[Fabrication of cellulose-based composite membranes for organic solvent nanofiltration](#)

T Anokhina, V Ignatenko, S Ilyin, S Antonov and A Volkov.....255

[Development of hollow fiber reverse osmosis membranes and modules](#)

G G Kagamanov, I V Shibanov and A M Blanco-Pedrekhon.....261

[Research of the component of the hybrid alumosilicic reagent - aluminum sulfate in the process of water treatment](#)

S N Tikhonov, R A Alexandrov, I M Kurchatov, E A Ananyeva and D Yu Feklistov.....265

[Solid-phase transformations in beryllium of technical purity with the participation of the Mössbauer iron isotope](#)

S S Martynenko and V I Petrov.....270
