Table of contents

Volume 411

The 20th International Scientific and Research Conference "Metallurgy: Technologies, Innovation, Quality. Metallurgy-2017"

15–16 November 2017, Novokuznetsk, Russia

Accepted papers received: 8 August 2018

Published online: 19 October 2018

Preface

[The 20th International Scientific and Research Conference "Metallurgy: Technologies, Innovation, Quality. Metallurgy – 2017"](#)

[Peer review statement](#)

Papers

[Physical modeling of the processes of metal melt movement during continuous casting](#)

E V Protopopov, V V Chislavlev and S V Feiler.....1

[Converter steelmaking process: state, dominant trends, forecasts](#)

E V Protopopov, S N Kuznetsov, S V Feiler, L A Ganzer and A N Kalinogorsky.....6

[Improvement of the smelting efficiency based on the use of composite nozzles in the oxygen lances of high-capacity converters](#)

V V Solonenko, E V Protopopov, S V Feiler and M V Temlyantsev.....11

[The study on manganese behavior in oxidizing conditions of steelmaking processes](#)

V I Dmitrienko, E V Protopopov, A V Dmitrienko and Yu N Nosov.....17

[Innovations in institution of higher education as a tool of economic and social development of the region \(experience of project-based education technology implementation in SibSIU\)](#)

E V Protopopov, A V Feoktistov, G V Galevsky, O V Gordeeva, M B Vasilyeva and O Ya Gutak.....21

[Analysis of modern production of zirconium carbide](#)

T I Alekseeva, G V Galevsky, V V Rudneva, A N Cherepanov, L Stafetsky and S G Galevsky.....27

[Application of zirconium carbide: assessment, determination of dominant trends and prospects](#)

T I Alekseeva, G V Galevsky, V V Rudneva and S G Galevsky.....31

[Thermodynamic modeling of plasma synthesis of zirconium carbide](#)

T I Alekseeva, G V Galevsky and V V Rudneva.....35

[Reduction processing of technogenic microsilica with the use of a brown coal semi-coke](#)

A E Anikin, G V Galevsky, V V Rudneva and S G Galevsky.....41

[Features of thermal expansion of special-purpose aluminum alloys after treatment of melt and heat treatment](#)

V K Afanasyev, M V Popova, M A Malyukh and A N Prudnikov.....49

[Selective recovery of valuable metals from crushed electronic waste](#)

Z M Akhmetvaliyeva, N A Kulenova, Ya Takasaki, S V Mamyachenkov, O S Anisimova, L K Mudashiru, E L Fokina and J Bast.....55

[Comparative metallographic analysis of the structure of St3 steel after being exposed to different ways of work-hardening](#)

A E Balanovsky, M G Shtayger, M V Grechneva, V V Kondrat'ev and A I Karlina.....62

[Plasma-arc surface modification of metals in a liquid medium](#)

A E Balanovsky, M G Shtayger, V V Kondrat'ev, Vu Van Huy and A I Karlina.....68

[Complex metallographic researches of 110G13L steel after heat treatment](#)

A E Balanovsky, M G Shtayger, V V Kondrat'ev, S A Nebogin and A I Karlina.....73

[Investigation of mechanical properties of cold-rolled, annealed and welded semi-finished products from the test alloys of Al-Mg system, economically alloyed with scandium](#)

V N Baranov, S B Sidelnikov, V F Frolov, Y Y Zenkin, T A Orelkina, I L Konstantinov, D S Voroshilov, O V Yakiviyuk and I N Belokonova.....78

[Accelerated reclamation of iron ore enrichment waste](#)

A S Vodoleev, O V Berdova and N A Yumasheva.....83

[Current state of the world and domestic aluminium production and consumption](#)

G V Galevsky, V V Rudneva and V S Aleksandrov.....88

[Microsilica in the production of silicon carbide: the results of testing and evaluation of technological challenges](#)

G V Galevsky, V V Rudneva and S G Galevsky.....94

[About the mechanism of titanium diboride formation in the conditions of plasma flow](#)

G V Galievsky, V V Rudnev and K A Efimova.....102

[Air oxidation of titanium nanodiboride](#)

G V Galievsky, V V Rudnev and K A Efimova.....108

[Melting of crude antimony in the low-tonnage production](#)

G V Galevsky, V V Rudneva and S G Galevsky.....114

[Thermodynamic modeling of processes in carbide-forming systems Ti–C–H–N and Ti–O–C–H–N](#)

A K Garbuzova, G V Galevsky and V V Rudneva.....118

[A study on changes in the properties of silumin surface layers modified by yttrium oxide](#)

V E Gromov, Yu F Ivanov, D V Zagulyaev, O S Tolkachev, E A Petrikova and V Konovalov.....123

[Microstructure and wear properties of Hardox 450 steel surface modified by Fe-C-Cr-Nb-W powder wire surfacing and electron beam treatment](#)

V E Gromov, V E Kormyshev, A M Glezer, S V Konovalov, Yu F Ivanov and A P Semin.....127

[Experimental estimation of drilling energy efficiency and life time of new rotary bits equipped with combined inserts on the basis of superhard composite materials](#)

L T Dvornikov, S M Nikitenko, V A Korneyev and P A Korneyev.....132

[Simulation of crystallization parameters of casting alloys during modifying treatment by physical impact](#)

V B Deev, O G Prikhodko, K V Ponomareva, A I Kutsenko, E S Prusov, E Kh Ri and S V Smetanyuk.....141

[A study on the extrusion processes of hollow products in the die with a movable matrix](#)

V V Evstifeev, A A Aleksandrov, A V Evstifeev, A I Kovalchuk and V N Peretyatko.....146

[Technologies, which allow to reduce an impact of metal silicon production on the environment](#)

K S Yolkin, D K Yolkin, A D Kolosov, N A Ivanov and M G Shtayger.....151

[Conduct of reduction smelting of metallic silicon: theory and practice](#)

K S Yolkin, D K Yolkin, A A Nemarov, I A Sysoev and A I Karlina.....157

[Energy-efficient technologies for gas cleaning systems of aluminum smelters](#)

V A Ershov, T I Zimina, I V Komogortsev, V O Gorovoy and A S Govorkov.....161

[Results of development of an experimental heat exchanger](#)

V A Ershov, T I Zimina, A S Govorkov, N A Ivanov and N N Ivanov.....165

[Gas-phase reduction of iron and chrome from chromites](#)

O V Zayakin and V I Zhuchkov.....169

[Results of development of the test prototype of a thermoelectric converter](#)

T I Zimina, N N Ivanov, V A Ershov, A S Govorkov and A M Pankov.....172

[Heat treatment of steel 30KhGSA on the specialized equipment](#)

A A Ivanov and T N Oskolkova.....176

[Capability enhancement of production of activating fluxes for arc welding using ultradispersed products of silicon waste processing](#)

N N Ivanchik, A E Balanovsky, M G Shtayger, I A Sysoev and A I Karlina.....182

[Resource-saving technology of obtaining nanosilica](#)

V V Kondratiev, A D Kolosov, V O Gorovoy, S A Nebogin and K S Elkin.....186

[Capabilities of use of dry separation of microsilica to obtain target products](#)

V V Kondratiev, S A Nebogin, A D Kolosov, V O Gorovoy and A A Nemarov.....191

[Study of combined packaging materials for steel products](#)

L G Kolyada, E V Tarasyuk, N L Medyanik, A P Ponomarev and A V Smirnova.....196

[Development of innovative production technology of automotive high quality in the conditions of cold rolling mill](#)

S A Kondrashov, E M Golubchik and Yu N Kondrashova.....201

[Cr₃C₂ and VC influence on the structure and properties of WC-Co solid alloys](#)

Yu Krutskii, S Veselov, N Cherkasova, V Chushenkov and R Vorobiev.....209

[Structure and properties of boron carbide ceramics fabricated by hot pressing](#)

Yu Krutskii, A Tyurin, A Pel, N Cherkasova and R Kuzmin.....214

[Metal loss reduction in the continuous furnace with a mechanized hearth due to the increase in uniformity of billet heating](#)

O V Kuznetsova, K S Konoz, M V Temlyantsev, N V Temlyantsev, E Ya Zhivago and V V Dorofeev.....218

[About the graphical modeling of production systems in metallurgy](#)

S M Kulakov, A I Musatova, V N Kadykov, V I Bazaykin and A G Nikitin.....222

[Influence of boron and nitrogen on tempered martensite embrittlement](#)

A N Maznichevsky, R V Sprikut, A Ya Zaslavsky and Yu N Goikhenberg.....231

[Features of roughness formation during production of the hot-rolled temper-rolled band](#)

E M Golubchik, E M Medvedeva, A E Gulin and M A Polyakova.....238

[Formation and emission of sulfur dioxide in aluminum production](#)

M Ya Mintsis, G V Galevsky, V V Rudneva and S G Galevsky.....243

[The emission of PAHs from self-baking anodes in aluminum production](#)

M Ya Mintsis, G V Galevsky, V V Rudneva and S G Galevsky.....247

[Modernization of the cathode assembly of aluminum electrolysis cells with Soderberg anode during the AAFS introduction](#)

M I Mintsis and G V Galevsky.....250

[The impact of basic boroaluminizing factors on diffusion layer thickness in low-carbon steels and its mathematical modeling](#)

U L Mishigdorzhyn and N S Ulakhanov.....254

[Research, monitoring and diagnosis of continuous control systems IT capacity of information flows in of metallurgical enterprises](#)

E N Bulakina, O N Nedzelskaya, V V Moiseev and A N Bikineeva.....261

[Receiving of layered composite materials with shape memory effect of medical appointment](#)

E O Nasakina, A S Baikin, S V Konushkin, K V Sergiyenko, M A Kaplan, I M Fedyuk, M A Sevost'yanov and A G Kolmakov.....266

[On the possibility of carbonaceous dust waste use of prebaked anode production in silicon metallurgy](#)

N V Nemchinova, A A Tyutrin, N A Korepina and S S Belskii.....270

[Energy-saving method of cutting a pre-bent bar on the shear machine](#)

A G Nikitin, E I Demina, E Ya Zhivago, L T Dvornikov and L A Saruev.....275

[Improvement of jaw crushers reliability using elastic pneumatic elements in the connection of kinematic pairs](#)

A G Nikitin, A V Abramov, E Ya Zhivago, L T Dvornikov and L A Saruev.....279

[Direct iron production: the state of the problem, trends](#)

O I Nokhrina, I D Rozhikhina and I E Khodosov.....283

[AFM investigation of silumin structure modified by Al-Y₂O₃ coating using the method of electric explosive alloying](#)

K A Osintsev, K A Butakova, S V Konovalov, D V Zagulyaev and V E Gromov.....289

[The analysis of the effect of iron-ore raw material composition on blast-furnace smelting parameters by the mathematical model method](#)

A V Pavlov, O P Onorin, N A Spirin, A A Polinov, V V Lavrov and I A Gurin.....296

[Alternate drawing as the way for improving mechanical properties of medium carbon steel wire](#)

M A Polyakova, A E Gulin and E M Golubchik.....303

[Comparative analysis of modern trends in the use of industrial wastes of coke chemistry](#)

O A Polyakh, N S Ponomarev and A D Zhuravlev.....309

[The aging mode for reducing the thermal expansion of the piston from alloy AK21](#)

A N Prudnikov, V A Prudnikov, M V Popova, V K Afanasyev and V Ya Zellermayer.....314

[Dimensions for reducing the consumption of fluoride salts in the production of aluminum](#)

E P Rzechitskiy, A A Petrovskiy, N V Nemchinova, I A Sysoev and Yu V Bogdanov.....319

[Composition of the heat insulating part of the spent lining – waste of overhaul of aluminum electrolyzers](#)

E P Rzechitskiy, A A Petrovskiy, N V Nemchinova, A A Ivanov and Yu V Bogdanov.....323

[Optimization of technological parameters of manganese metal aluminothermic smelting](#)

I D Rozhikhina and O I Nokhrina.....328

[Assessment of the nanocrystalline silicon carbide effectiveness in electroplating, ceramics, surface modification](#)

V V Rudneva, G V Galevsky, S G Galevsky and G N Chernovsky.....333

[Study on the conditions and composition of the plasma treatment products of silicon carbide micropowder](#)

V V Rudneva, G V Galevsky, G N Chernovsky and S G Galevsky.....338

[Instrumented system "Engineering-Metallurgy" for solving a wide class of engineering tasks](#)

I A Rybenko.....345

[To the question of improving steel processing technology by converter vanadium slag](#)

I A Rybenko, M A Golodova, O I Nokhrina and I D Rozhikhina.....351

[Experimental verification of mathematical models adequacy of the new continuous metallurgical process JEP](#)

I A Rybenko and V P Tsymbal.....357

[Plasma hardening hypereutectoid steel](#)

E N Safonov and M V Mironova.....361

[Elaboration of steelmaking slag processing scheme for resource-saving](#)

T V Sviridova, O B Bobrova, O Yu Ilina, A Yu Peryatinsky and N N Starostina.....368

[Development of high-speed rolling modes of trim rails in the continuous reverse train](#)

S V Smetanin, V N Peretyatko, V V Dorofeev, A G Nikitin and E Ya Zhivago.....372

[Information modelling system for diagnostics of different types of blast-furnace smelting deviations from normal conditions](#)

N A Spirin, O P Onorin, A S Istomin, V V Lavrov and I A Gurin.....378

[Study of transition processes of blast-furnace smelting by the mathematical model method](#)

N A Spirin, O P Onorin, A S Istomin, V V Lavrov and I A Gurin.....383

[Mathematical modelling of ladle furnace thermal regime with bubble melt blowing by gas](#)

N A Spirin, V S Shvidkii, Y G Yaroshenko and V V Lavrov.....391

[A study on the metal loss of spring steel 40s2 heated for rolling and peculiarities of the structure, chemical and phase composition of its scale](#)

M V Temlyantsev, K S Konoz, O V Kuznetsova, V B Deev and E Ya Zhivago.....398

[The problems of mastering the production of special purpose railway products in the conditions of universal rail-and-structural steel mill](#)

A A Umansky, A V Golovatenko and V V Dorofeev.....404

[A study on the influence of the ratio of pig iron and metal scrap in the of electric melting charge on the technical and economic performances of the rail steel production](#)

A A Umansky and L V Dumova.....411

[Improvement of the extra-furnace rail steel processing on the "ladle-furnace" unit in order to increase the operational stability of railway rails](#)

A A Umansky, N A Kozyrev, D V Boykov and L V Dumova.....418

[Experience in the use of technogenic materials for the production of fluxes used for forming rolls surfacing](#)

A A Umansky, N A Kozyrev, R E Kryukov, P D Sokolov and L V Dumova.....424

[Evaluation of technological risks in the work of rolling equipment](#)

A R Fastikovskiy, V V Dorofeev and O Yu Efimov.....430

[Performance analysis of the rolling equipment using computer modeling](#)

A R Fastikovskiy, V N Peretyatko, V V Evstifeev and O Yu Efimov.....435

[Improvement of continuous forming the "Conform" method](#)

A R Fastikovskiy, E V Selivanova, A A Fedorov, V N Peretyatko, V V Evstifeev and O Yu Efimov.....438

[Complex technology of stamping details "hub" from ball blank](#)

M V Filippova, V N Peretyatko, E E Prudkiy, M V Temlyantsev and A G Nikitin.....442

[Effect of phase transition temperature and particle size on residual stresses and properties of laser cladding layer](#)

Shuwen Xu, Xizhang Chen and Sergey Konovalov.....448

[The formation and control of porosity during laser DP780 dual-phase galvanized steels](#)

Lei Huang, Xizhang Chen, Sergey Konovalov and Hongbo Ma.....456

[Modeling of complex metallurgical systems using dissipative structures and system dynamics](#)

V P Tsymbal and P A Sechenov.....463

[Nonequilibrium dissipative structures and control over the carbon content in the spray-emulsion unit](#)

V P Tsymbal, P A Sechenov, I A Rybenko and A A Olennikov.....467

[Multi-factor regression analysis of the process of rails contact welding on K1000 machine](#)

R A Shevchenko, N A Kozyrev, R E Kryukov, A O Patrushev and A A Usoltsev.....475

[Structure-phase state evolution of 100-m differentially hardened rails in long-term usage](#)

A A Yuriev, B E Gromov, K V Morozov, Yu F Ivanov, S V Konovalov and A P Semin.....479
