Table of contents

Volume 193

The Fifth All-Russian Conference with International Participation POLAR MECHANICS

9–11 October 2018, Novosibirsk, Russian Federation

Accepted papers received: 3 October 2018

Published online: 30 October 2018

Preface

[The Fifth All-Russian Conference with International Participation "POLAR MECHANICS"](#)

[Peer review statement](#)

Papers

[Phase analysis of hydrated Portland cement](#)

Yu A Abzaev, A I Gnyrya, S V Korobkov and K S Gauss.....1

[Optimization methods in the design of heat-saving functional devices](#)

G V Alekseev and D A Tereshko.....6

[Monitoring and modelling issues of the thermoabrasive coastal dynamics](#)

D M Aleksyutina, N N Shabanova, O V Kokin, A P Vergun, A V Novikova and S A Ogorodov.....13

[Seismogeological analysis and petroleum potential of the Achimov Formation of the Gydan Peninsula](#)

V N Bardachevskiy, S V Ershov and N I Shestakova.....20

[One-dimensional vertical model of permafrost dynamics](#)

V M Belolipetskii and S N Genova.....27

[Mathematical modelling of level ice with continental shelf structures interaction](#)

A S Bolshev and S A Frolov.....35

[Alternative to mathematical models of gas production: numerical experiment](#)

E A Bondarev, I I Rozhin and K K Argunova.....43

[Significance evaluation of effect of operational changes in material on impact strength of various zones in leaf spring at low temperature](#)

I I Buslaeva and S P Yakovleva.....50

[Features of bitumoids composition of bottom sediments of the coastal zone of the East Siberian Sea](#)

Yu S Glyaznetsova, I N Zueva, O N Chalaya and S Kh Lifshits.....55

[Mechanical properties of cement paste curing at different isothermal conditions](#)

A I Gnyrya, Yu A Abzaev, S V Korobkov and K S Gauss.....61

[Design optimization of hydraulic fracturing](#)

B N Starovoitova, S V Golovin, G V Paderin, E V Shel, E A Kavunnikova and A M Krivtsov.....66

[Model of ultrasonic cavitation depolymerization of oil for evaluation of optimum modes and conditions providing reducing viscosity at low temperatures](#)

R N Golykh.....73

[Application of cohesive zone model to the fracture process of freshwater polycrystalline ice under flexural loading](#)

I Gribanov, R Taylor and R Sarracino.....80

[Compression waves in porous media containing gas hydrate](#)

A A Gubaidullin, O Yu Boldyreva and D N Dudko.....87

[Diagnostics of critical states of constructions operated under low temperature conditions](#)

V P Gulyaev, P P Petrov and K V Stepanova.....92

[Reconstruction of hydrocarbon generation and accumulation on the Gydan Peninsula and adjacent offshore areas using basin modeling approach](#)

A A Deshin, P I Safronov and L M Burshtein.....99

[Large ship motion mechanics in "narrow" ice channel](#)

A A Dobrodeev, N Yu Klementyeva and K E Sazonov.....106

[Analysis of unfrozen water in suspensions of permafrost bacteria with NMR technique at the temperature of permafrost occurrence](#)

L S Podenko, N S Molokitina, A O Drachuk, O A Simonov and E O Simonova.....112

[Methane hydrate formation in dispersed polyvinyl alcohol cryogel](#)

L S Podenko, A O Drachuk and N S Molokitina.....118

[Laboratory study of the acoustic properties of sand samples containing ice](#)

G A Dugarov, A A Duchkov and M I Fokin.....125

[Double layer composite material based on elastomer and ultra-high molecular weight polyethylene](#)

A A Dyakonov, N V Shadrinov, M D Sokolova and A A Okhlopkova.....131

[The development of conceptual options to the construction of ice-resistant floating wind power plants](#)

V V Elistratov, A S Bolshev, S A Frolov and A A Panfilov.....137

[Polar compression of planets of solar system and ways of development of geophysical processes](#)

B W Levin and E V Sasorova.....144

[Influence of peculiarities of the form of a submerged body on the parameters of generated waves in the ice motion](#)

V L Zemlyak, V M Kozin and N O Baurin.....150

[Peculiarities of hydrate formation in "natural gas/asphaltene-resin-paraffin deposits/water" systems](#)

I K Ivanova, M Ye Semenov and V V Koryakina.....157

[Study of hydrates formation in mineralized solutions and kinetic regularity of their decomposition](#)

L P Kalacheva, I I Rozhin and A S Portnyagin.....163

[Method for estimation of icebreaker propulsion performance in ice](#)

G I Kanevsky, A M Klubnichkin, A V Ryzhkov and K E Sazonov.....169

[The method of calculation the pressure gradient in multiphase flow in the pipe segment based on the machine learning algorithms](#)

E Kanin, A Vainshtein, A Osipov and E Burnaev.....176

[Satellite monitoring of atmospheric sulphur dioxide pollution in polar latitudes](#)

V B Kashkin, D V Zuev, M A Kurako, A A Romanov, T V Rubleva and K V Simonov.....183

[Research of the physical-mechanical properties of sea ice at the scientific research station «Ice base the cape of Baranov»](#)

S M Kovalev, V N Smirnov, V A Borodkin and N V Kolabutin.....189

[Experimental and numerical research of the stressed-deformed state of ice beams reinforced by surface reinforcement](#)

V M Kozin, V L Zemlyak, A S Vasilyev and K I Ipatov.....196

[Seismogeological characteristics and oil-and-gas content of the Kara Sea shelf \(South Kara, North Kara sedimentary basins\)](#)

V A Kontorovich, A U Kalinin, L M Kalinina, M V Solovev and S M Guseva.....204

[Seismogeological characteristics and oil and gas potential of the Arctic regions of the Siberian platform and the Laptev Sea](#)

V A Kontorovich, I A Gubin, A Yu Kalinin, L M Kalinina, M V Solovev and E S Surikova.....209

[Seismogeological criteria for gas deposits forecasting in the north of Western Siberia](#)

V A Kontorovich, E S Surikova and D V Ayunova.....217

[Oil emulsions as medium of natural gas hydrate formation](#)

V V Koryakina, I K Ivanova and M E Semenov.....225

[Unsteady motion of circular cylinder under ice cover](#)

V K Kostikov, N I Makarenko and A A Korobkin.....230

[Genuinely nonlinear impulsive ultra-parabolic equations and convective heat transfer on a shock wave front](#)

I V Kuznetsov and S A Sazhenkov.....237

[Simulation of fracture of elasto-plastic solids with cracks under conditions of out-of plane deformation](#)

V D Kurguzov.....244

[The using of the shaped charges for destruction of ice cover](#)

V I Kolpakov, N A Kudyukov, S V Ladov, Ya M Nikolskaya and S V Fedorov.....251

[Numerical modeling of salt domes formation in Anabar-Khatanga oil and gas area \(Siberian sector of the Russian Arctic\)](#)

B Lunev, T Abramov, A Kalinin, V Kontorovich and V Lapkovskiy.....258

[Nonlinear waves in marginally stable flows of Antarctic Bottom Water](#)

N I Makarenko, J L Maltseva, E G Morozov, R Yu Tarakanov and K A Ivanova.....265

[Co-deposition of gas hydrate and oil wax from water-in-crude oil emulsion saturated with CO₂](#)

A S Stoporev, A G Ogienko, L.K. Altunina and A Y Manakov.....272

[A discontinuous Galerkin method for mathematical modeling of ice melting at the interaction with the environment](#)

S I Markov.....278

[Accumulation of gases dissolved in water saturating a nonisothermal porous massif in the presence of water freezing zones](#)

B S Maryshev and D S Goldobin.....284

[System for geophysical observation on the drifted ice floes for investigation of the lithosphere structure in the Arctic \(Project\)](#)

V S Mogilatov, I Yu Koulakov and V V Plotkin.....291

[Numerical research of gas-hydrate deposit development in the conditions of negative temperatures](#)

N G Musakaev, M K Khasanov and S L Borodin.....298

[Numerical simulation of hydrological and ecological regime of Siberian rivers' estuaries in the Russian sector of the Arctic](#)

A F Voevodin, V S Nikiforovskaya and N A Lapteva.....304

[Theoretical substantiation of application of the hydrocarbon accumulation prospecting technique in Western Siberia based on the study of water-gas equilibria](#)

D A Novikov.....309

[Genetic classification of subsurface waters and brines of Arctic regions of Siberia](#)

D A Novikov.....316

[Abnormally high formation pressures in jurassic-cretaceous reservoirs of Arctic regions of Western Siberia](#)

D A Novikov, F F Dultsev and A V Chernykh.....323

[Paleohydrochemistry of Jurassic and Cretaceous deposits in arctic regions of Western Siberia](#)

D A Novikov, Y V Sadykova, A V Chernykh, F F Dultsev and A F Sukhorukova.....331

[Geochemistry of brines in Vendian deposits of the Siberian platform](#)

D A Novikov, A V Chernykh and F F Dultsev.....338

[Experimental and theoretical basis for the creation of frost-resistant polymeric composite materials](#)

E M Nurullayev and N Yu Lyubimova.....345

[Proxy Pseudo3D model: the optimum of speed and accuracy in hydraulic fracturing simulation](#)

Grigory V Paderin.....350

[Problems of heat and mass transfer in the snow-ice cover](#)

A A Papin and M A Tokareva.....357

[On the issue of climate change in the Arctic zone of the Russian Federation](#)

S Petrov, N Mamaeva and M Narushko.....364

[External ice reinforcements for ships in operation](#)

Nikolay Pets.....369

[Analysis of elastic waves generated in frozen grounds by means of the electromagnetic pulse source "Yenisei"](#)

V M Sadovskii, O V Sadovskaya and V A Detkov.....374

[Singenetic waters composition reconstruction methods of mesozoic sedimentary basins](#)

Ya V Sadykova.....381

[The history of hydrocarbon generation in the Mesozoic-Cenozoic sedimentary cover in the northeast of the Bolshaya Kheta megasyncline](#)

P I Safronov, A A Deshin and L M Burshtein.....388

[Peculiarities of natural gas hydrate formation from ice in reactors under high pressure](#)

M Ye Semenov, I K Ivanova and V V Koryakina.....395

[Methane hydrate self-preservation features in oil suspensions](#)

A A Sizikov, A S Stoporev, L K Altunina and A Yu Manakov.....401

[Freezing of mineralized water droplets in winter sprinkling](#)

A V Sosnovsky and A F Glazovsky.....408

[Study of oil sludge, waste oil and other auxiliary substances influence on the methane hydrate dissociation](#)

A S Stoporev, A P Semenov, A Y Manakov and V A Vinokurov.....414

[The motion of pressure distribution over a free surface near the edge of ice sheet](#)

I V Sturova and L A Tkacheva.....420

[Ductile-Brittle Transition in Geomaterials, Caused by Tensile Stress Concentration](#)

S V Suknev.....427

[Regional model of the geological structure of the Yamal and Gydan oil-and-gas areas](#)

E S Surikova, A E Solmin and S M Guseva.....434

[Simulation of influence of various technical systems on permafrost boundaries movement](#)

M Yu Filimonov and N A Vaganova.....442

[State instruments for the development stimulation of Arctic resources regions](#)

I V Filimonova, A V Komarova, L V Eder and I V Provornaya.....447

[Structure of fracture of ice cover, finger rafting](#)

N M Osipenko.....454

[Invariant submodels of model of nonlinear diffusion in inhomogeneous medium with nonstationary absorption or source](#)

Yu A Chirkunov.....461

[The ice response to an oscillating load moving along a frozen channel](#)

K A Shishmarev, T I Khabakhpasheva and A A Korobkin.....468

[Exploration and production of oil and gas as a factor of economic development of the Arctic resource regions, resource curse](#)

L V Eder, I V Provornaya, I V Filimonova and A V Komarova.....475

[Hydrocarbon expulsion history in Kuonamka formation of North Tunguska Petroleum region](#)

E S Yaroslavtseva and L M Burshtein.....480

[Modeling of multiple fractures growth during multistage hydraulic fracturing based on cell-based pseudo 3D model](#)

S A Budenny, R N Nikitin, A A Erofeev, R M Sitdikov and G V Paderin.....486

[Temperature of rock formation and fracturing fluid during the hydraulic fracturing process](#)

M B Babenkov.....494
