International Scientific Conference "Knowledge-based technologies in development and utilization of mineral resources"

5–8 June 2018, Novokuznetsk, Russian Federation

Accepted papers received: 8 November 2018

Published online: 27 November 2018

Preface

[International Scientific Conference "Knowledge-based technologies in development and utilization of mineral resources"](#)

[Peer review statement](#)

Papers

[Triple helix: from theory to realities](#)

S M Nikitenko, E A Pakhomova, A I Kermite and L I Voronina.....1

[Modeling influence of fault zone on stress distribution in rock mass with regard to the accumulated elastic energy](#)

S V Lavrikov, O A Mikenina and A F Revuzhenko.....8

[Effect of compressive stresses on P-wave velocity in samples of equivalent geomaterials](#)

V P Kosykh, P V Kosykh and A F Revuzhenko.....14

[Deformation of granular material flow in converging channels](#)

A P Bobryakov, S V Klishin, V P Kosykh, S V Lavrikov, O A Mikenina and A F Revuzhenko.....19

[Modelling the trajectory of a fracture that moves under the influence of the fluid pressure in hard rock roofs of in-seam working](#)

N V Cherdantsev.....25

[Investigation of the temperature field in the areas of rock and coal concentration near the self-heating zone](#)

S V Cherdantsev, P A Shlapakov, A Yu Erastov, S A Khaymin, K S Lebedev, V V Kolykhalov and E A Shlapakov.....32

[Discrete element modeling of gravity flow of broken rocks in the technology of longwall top coal caving](#)

S V Klishin, V I Klishin and G Yu Opruk.....41

[Approach to construction of mathematical models of geo-massif stress-deformed state under the influence of natural and technogenic forces](#)

A B Tsvetkov and L D Pavlova.....50

[The choice of the site for inclined shaft and parameters of its stage-by-stage construction in the conditions of the Tersinsky coal region](#)

V A Voloshin, S V Rib, O A Petrova and A V Belyaev.....56

[Geomechanical substantiation of parameters of workings intersection taking into account the influence of dynamic bearing pressure](#)

V V Basov and A G Serg.....62

[The influence of rock interlayer location on the stress-strain state of the rock massif near the underground mine](#)

S V Rib.....69

[Creation of a competitive production on the basis of electrothermal and plasma technologies of combined coal and carbonate mineral raw materials processing with obtaining fuel and non-fuel products](#)

A V Zhukov, M I Zvonarev, Yu A Zhukova and A A Shmelev.....73

[Mineral resources base of the south of Kemerovo region \(Mezhdurechensky administrative district\)](#)

Ja M Gutak and O Ya Gutak.....79

[Risk-oriented provision of mining operations safety at the enterprises of mineral resources sector in Russia](#)

A Z Vartanov, I V Petrov and A V Fedash.....85

[Problems of innovative development of the fuel and energy industry in Russia](#)

A V Fedash, A Z Vartanov and I V Petrov.....90

[Modern forms of project interaction of science, business, and government in the coal industry](#)

E V Goosen, S M Nikitenko and V I Klishin.....95

[Typology of resource regions by the level of innovative potential: fuzzy approach](#)

E S Kagan, S G Gutova and E S Chernova.....103

[Assessment of resource regions' readiness for comprehensive exploitation of mineral resources based on shift-share analysis](#)

K S Sablin, E S Kagan and A A Sharov.....110

[Intellectual property as an active resource for sustainable development of the regional economy](#)

S M Nikitenko, M A Mesyats and A P Protsenko.....117

[Resource regions of Russia: socio-economic indicators and innovative development](#)

I V Filimonova, L V Eder, A V Komarova, I V Provornaya and V Yu Nemov.....123

[Public-private partnership as a form of development of resource regions of Russia](#)

L V Eder, I V Provornaya, I V Filimonova, A V Komarova and M V Mishenin.....128

[The methodology for working out the techniques for geophysical monitoring of the process of directional hydraulic fracturing of a hard roof and the process of local hydrotreating of a coal seam face working space, its implementation within the framework of RSF project](#)

A V Shadrin and V I Klishin.....133

[Spectral acoustic and seismological monitoring of enclosing rock condition in the face area during roof softening by means of directional hydraulic fracturing \(DHF\)](#)

V I Klishin, G Yu Opruk, A S Teleguz and A V Galkin.....140

[Assessment of elastic seismoacoustic vibration propagation through coal and rock mass within the extraction column during directional hydraulic fracturing \(DHF\) implementation](#)

V I Klishin, O V Taylakov, G Yu Opruk, S V Sokolov and A V Nikolaev.....147

[Remounting of a mechanized complex using Petitto Mule equipment in the conditions of mines in the south of Kuzbass](#)

A M Nikitina, S V Rib, D M Borzykh and R A Dadynsky.....157

[Technical requirements to laboratory facility for stressed state rock massive spectral-acoustic control method sensitivity depth research if front of a development heading](#)

A V Shadrin, V I Klishin, M S Nikitenko and D S Trukhmanov.....162

[The method for determining the rock resistance to brittle fracture](#)

L T Dvornikov and V A Korneyev.....166

[Mechanical characteristics of the doubly-fed machine and its use in the hoist electric drive](#)

V Yu Ostrovlyanchik, I Yu Popolzin and D A Marshev.....173

[Physical and technical fundamentals of technology used to increase the wear resistance of working surfaces of large volume excavator buckets](#)

V E Gromov, S V Raykov, V E Kormyshev, D A Kosinov, O A Kondratova and D A Romanov.....180

[Electroexplosive electrical erosion resistant coatings of the Ag-W system used for electrical contacts of power mine equipment](#)

D A Romanov, S V Moskovsky, V E Gromov and K V Sosnin.....184

[Method of researching the influence of isothermic annealing modes on welding of hauling track rails used in mine workings](#)

R A Shevchenko, N A Kozyrev, A I Kutsenko, A A Usoltsev and A A Kutsenko.....190

[Use of silicomanganese slag and ladle electric steelmaking slag in manufacturing the welding fluxes for surfacing the mining equipment](#)

N A Kozyrev, A R Mikhno, A A Usoltsev, R E Kryukov and A A Umanskiy.....195

[Use of barium – strontium modifier in manufacturing welding flux based on silicomanganese slag for welding and surfacing mining equipment](#)

N A Kozyrev, A R Mikhno, R E Kryukov, N F Yakushevich and A A Provodova.....201

[Development of a flux-cored wire for surfacing mining equipment operating in the conditions of shock-abrasive wear](#)

A I Gusev, N A Kozyrev, A A Usoltsev, R E Kryukov and A R Mikhno.....208

[Development of a new wear-resistant flux cored wire for welding armor on the buckets of mining equipment](#)

N A Kozyrev, R E Kryukov, A A Usoltsev, N V Kibko and A S Nepomnyashchikh.....214

[Models of functioning and resources allocation of road and transport infrastructure](#)

V A Buyvis, A V Novichikhin and V O Kaledin.....219

[Geomechanical justification based on the results of numerical modeling of combined technology parameters of working areas development with the use of robotized means of underground mining](#)

V N Fryanov, L D Pavlova and A A Cherepov.....224

[Development of an automated process control system for the coal preparation plant](#)

L P Myshlyaev, G V Makarov, V V Grachev, M V Lyakhovets, K G Wenger and I A Leontyev.....231

[Using of the modified approach "hardware-in-the-loop" while developing an process control system for belt conveyor](#)

S S Zhuravlev, S V Rudometov, V V Okolnishnikov and S R Shakirov.....239

[Operation algorithm of the hoist electric drive based on a doubly-fed machine with combined control](#)

V Yu Ostrovlyanchik, I Yu Popolzin and V A Kubarev.....242

[Design principles of modern control systems for main ventilation fan installations](#)

V Yu Ostrovlyanchik, V A Kubarev, D E Modzelevsky, D A Marshev and N V Verigin.....250

[Comparative analysis of options for applying spectral-acoustic method of gas-dynamic phenomena forecasting](#)

A V Shadrin, A A Kontrimas and A S Teleguz.....256

[Walking support control system algorithms testing with brain-computer interface \(BCI\) and augmented reality \(AR\) technology integration](#)

M S Nikitenko, S S Zhuravlev, S V Rudometov, B Neogi and A M Belyi.....264

[Technology of augmented reality applications in dispatching control of industry processes and mining](#)

A M Belyi and M S Nikitenko.....271

[The vector optimization mechanism for resource planning problems](#)

V V Zimin, V V Mitkov, A V Zimin, I G Stepanov and A A Ivushkin.....276

[Determination of geological conditions of gassy coal seams on the basis of seismic acoustic profiling in underground mine workings](#)

D N Zastrelov, A N Kormin, E A Saltymakov, S V Sokolov and O V Taylakov.....282

[Hazardous manifestation of gas-dynamic phenomena in the faces of coal mines](#)

V S Zykov and Yu M Filatov.....288

[Fully environmentally closed technology of gasification dusted fractions of coal concentration with restoration of metals and aluminosilicates from cinders](#)

V P Tsymbal, I A Rybenko, A A Olennikov, A A Rybushkin, V I Kozhemyachenko and P A Sechenov.....294

[Features of tidal deformations before strong distant and closely spaced regional earthquakes](#)

S V Panov, M D Parushkin, V M Semibalamut and Yu N Fomin.....301

[Management of current environmental costs contributing to reduce eco-economic risks](#)

T V Kiseleva and V G Mikhailov.....307

[Methodical specifics of scenarios development for increasing the level of environmental safety \(in the conditions of Novokuznetsk city\)](#)

A V Shorokhova, A V Novichikhin and E N Yuryeva.....316

[The mechanism for assessing the personnel professional competencies at a loading and transport enterprise](#)

S V Shishkina, Yu D Pristupa, L D Pavlova and V N Fryanov.....322

Shift of the world energy sector development paradigm: consequences for Russia

S M Nikitenko, E V Goosen and A E Kontorovich.....328

Fuel and energy complex and methods for assessing the harm from air pollution

A S Tulupov and I V Petrov.....335

Search for "transforming innovations" for Russian regions and barriers to their implementation

E V Goosen, O N Kavkaeva, E O Pakhomova and A P Protsenko.....341

Sustainable development of resource regions on the declining stage of production: innovative technologies and economic efficiency

L V Eder, A V Komarova, I V Filimonova, I V Provornaya and J C Benitez Garcia.....348
