

PROGRESS IN BIOMEDICAL OPTICS AND IMAGING

Vol. 17 No. 7

Mechanisms of Photobiomodulation Therapy XI

**Michael R. Hamblin
James D. Carroll
Praveen Arany**
Editors

**13–14 February 2016
San Francisco, California, United States**

Sponsored and Published by
SPIE

Volume 9695

Proceedings of SPIE, 1605-7422, V. 9695

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Author(s), "Title of Paper," in *Mechanisms of Photobiomodulation Therapy XI*, edited by Michael R. Hamblin, James D. Carroll, Praveen Arany, Proceedings of SPIE Vol. 9695 (SPIE, Bellingham, WA, 2016) Six-digit Article CID Number.

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print. Papers are published as they are submitted and meet publication criteria. A unique citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages.

Contents

v *Authors*
vii *Conference Committee*

SESSION 1 PRESENT STATUS AND FUTURE DIRECTION WITH PBM THERAPY

- 9695 03 **Blue light inhibits proliferation of melanoma cells** [9695-2]
9695 05 **Effect of interstitial low level laser stimulation in skin density** [9695-4]
9695 06 **Biochemical changes on the repair of surgical bone defects grafted with biphasic synthetic micro-granular HA + β -tricalcium phosphate induced by laser and LED phototherapies assessed by Raman spectroscopy** [9695-5]

SESSION 2 CLINICAL TRANSLATIONAL RESEARCH WITH PBM THERAPY

- 9695 08 **Photobiomodulation of distinct lineages of human dermal fibroblasts: a rational approach towards the selection of effective light parameters for skin rejuvenation and wound healing** [9695-7]
9695 09 **Effects of low-level laser exposure on calcium channels and intracellular release in cultured astrocytes (Invited Paper)** [9695-8]
9695 0A ***In vitro* measurements of oxygen consumption rates in hTERT-RPE cells exposed to low levels of red light** [9695-9]

SESSION 3 CLINICAL APPLICATIONS OF PBM THERAPY

- 9695 0D **Effect of interstitial low level laser therapy on tibial defect** [9695-12]

SESSION 4 PBM SYNERGISTIC THERAPIES

- 9695 0H **Low-power laser irradiation did not stimulate breast cancer cells following ionizing radiation** [9695-18]
9695 0J **Biochemical responses of isolated lung CSCs after application of low intensity laser irradiation** [9695-28]

POSTER SESSION

- 9695 0L **Assessment of the influence of Laser phototherapy on the bone repair process of complete fractures in tibiae of rabbits stabilized with semi-rigid internal fixation treated with or without MTA graft: a histological study** [9695-17]
- 9695 0N **A new visual analog scale to measure distinctive well-being effects of LED photobiomodulation** [9695-20]
- 9695 0O **Photodynamic antimicrobial chemotherapy (PACT) against oral microorganisms with the use of blue LED associated to curcumin** [9695-21]
- 9695 0P **Effect of Low-Level Laser therapy on the fungal proliferation of *Candida albicans*** [9695-22]
- 9695 0R **PDT in non-surgical treatment of periodontitis in kidney transplanted patients: a split-mouth, randomized clinical trial** [9695-24]
- 9695 0S **PDT in periodontal disease of HAART resistance patients** [9695-25]
- 9695 0T **Assessment of the effects of laser photobiomodulation on peri-implant bone repair through energy dispersive x-ray fluorescence: A study of dogs** [9695-26]
