

PROCEEDINGS OF SPIE

Vertical External Cavity Surface Emitting Lasers (VECSELs) VIII

Juan L. Chilla
Editor

29–30 January 2018
San Francisco, California, United States

Sponsored by
SPIE

Cosponsored by
Coherent, Inc. (United States)

Published by
SPIE

Volume 10515

Proceedings of SPIE 0277-786X, V. 10515

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Vertical External Cavity Surface Emitting Lasers (VECSELs) VIII*, edited by Juan L. Chilla, Proceedings of SPIE Vol. 10515 (SPIE, Bellingham, WA, 2018) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v	<i>Authors</i>
vii	<i>Conference Committee</i>

NUMERICAL SIMULATION

10515 04	Influence of microscopic many-body scattering on the performance of ultrashort pulsed and CW multi-wavelength VECSEL lasing (Invited Paper) [10515-1]
10515 05	Passive mode-locking in a V-shaped cavity (Invited Paper) [10515-2]

NOVEL ARCHITECTURES/NEW WAVELENGTH

10515 0C	Large pulse-energy VECSELS (Invited Paper) [10515-9]
10515 0E	AlGaAs-based optically pumped semiconductor lasers [10515-11]

MODE-LOCKED I

10515 0H	Structure and cavity geometry optimization for ultrashort and high power pulse generation from a VECSEL [10515-15]
----------	---

FREQUENCY COMBS

10515 0K	Carrier-envelope offset frequency stabilization of an ultrafast semiconductor laser [10515-18]
10515 0M	Supercontinuum generation and beatnote detection using ultrafast VECSEL seed oscillators [10515-20]

SINGLE FREQUENCY/INTRACAVITY CONVERSION

10515 0N	New developments in THz-time domain spectroscopy involving ML-VECSELS (Invited Paper) [10515-21]
10515 0O	Optically pumped semiconductor CW laser with 307nm output [10515-22]
10515 0Q	Vibration-tolerant narrow-linewidth semiconductor disk laser using novel frequency-stabilisation schemes [10515-24]

MODE-LOCKED II

- 10515 OS **Commercial mode-locked vertical external cavity surface emitting lasers (Invited Paper)**
[10515-26]
- 10515 OT **Degradation mechanism of SESAMs under intense ultrashort pulses in modelocked VECSELS**
[10515-27]
- 10515 OV **Tantalum pentoxide waveguides and microresonators for VECSEL-based frequency combs**
[10515-29]

POSTER SESSION

- 10515 OX **Concept of the CW GaN-based VECSEL** [10515-31]
