Fundamental and Applied Problems of Mechanics - 2017

24–27 October 2017, Bauman Moscow State Technical University, Moscow, Russian Federation

Accepted papers received: 1 November 2018

Published online: 14 December 2018

Preface

[Fundamental and Applied Problems of Mechanics - 2017](#)

[Fundamental and Applied Problems of Mechanics - 2017](#)

[Fundamental and Applied Problems of Mechanics - 2017](#)

[Fundamental and Applied Problems of Mechanics - 2017](#)

[Peer review statement](#)

Papers

[Time variation of the attainability domain boundary for systems of third order](#)

D I Bugrov and A M Formalskii.....1

[Aerodynamic forces exerted on a body in viscous incompressible fluid resulting from vorticity generation on the body surface](#)

G Dynnikova.....8

[Footholds admissible areas structure of a two-legged walking robot on an inclined cylinder](#)

Yu F Golubev and E V Melkumova.....15

[Confidence intervals for output variable in fuzzy linear regression model](#)

O M Poleshchuk.....24

[Continental drift of the rotation pole: observation and theory](#)

C Bizouard.....30

[Modeling of Earth rotation in the gravitational field of Sun and Moon](#)

M Yu Barkin, Yu G Markov, V V Perepelkin and A S Filippova.....41

[Modelling of the microparticle spraying process in a heated gas stream](#)

N G Bourago, A D Nikitin, I S Nikitin and B A Stratula.....45

[Free vibrations of a two-layer liquid in an elastic vessel](#)

D A Goncharov and A A Pozhalostin.....51

[On the high-accuracy approach to flow simulation around the airfoils by using vortex method](#)

K S Kuzmina, I K Marchevsky and V S Moreva.....57

[Theory and Practice of Harmonic Drive Mechanisms](#)

G A Timofeyev, Yu V Kostikov, A V Yaminsky and Ye O Podchasov.....70

[Features of forming a parallel staging launch vehicle mathematical model using the method of d'Alembert-Kane](#)

L V Dokuchaev.....77

[About islands of stability and limiting mass of the atomic nuclei](#)

V S Okunev.....84

[Analysis and comparison of the main characteristics of linear and nonlinear oscillations](#)

N I Bondarenko, K B Obnosov and A V Panshina.....97

[Wave Processes Regulators Optimization in Hydraulic Systems](#)

D N Popov, N G Sosnovskiy and M V Siukhin.....105

[Joint inversion of geophysical \(seismic and selenodetic\) and geochemical data for internal structure and composition of the Moon](#)

E. Kronrod, K. Matsumoto, O. Kuskov, V. Kronrod, R. Yamada and S. Kamata.....112

[The fluctuation perturbations in the model of the Chandler wobble](#)

V V Bondarenko, S S Krylov and V V Perepelkin.....118

[On safe orbits of a space station tethered to a precessing asteroid by two cables](#)

A V Rodnikov.....123

[V-shaped wings with the central body in supersonic flow](#)

F A Maksimov, N A Ostapenko and M A Zubin.....128

[Preliminary evaluation of multiple atmospheric re-entries in Lunar return missions](#)

D A Grishko, V V Leonov, M A Ayrapetyan and O S Shvirkina.....139

[Motion planning of a space robot](#)

G K Borovin and V V Lapshin.....144

[The stochastic theory of the turbulence](#)

A V Dmitrenko.....153

[Computing experiment for unloading dumper truck at a sloping pad](#)

Yu N Baryshnikov.....163

[Determination and investigation of asteroid Apophis' trajectories set potentially colliding with the Earth in 2036](#)

Peng Guo, V V Ivashkin, C A Stikhno and P M Shkapov.....170

[Fundamental problems of wave dynamics stratified medium modelling](#)

V V Bulatov and Yu V Vladimirov.....178

[Effects of bolide parameters on the motion and destruction in the Earth's atmosphere](#)

N G Syzranova and V A Andrushchenko.....186

[Determination of the satellite attitude motion according to the onboard measurements data](#)

V A Pankratov and M Yu Barkin.....195

[The mathematical model of short-time forecast of the Earth axial rotation irregularity](#)

M Yu Barkin, V V Bondarenko and V V Perepelkin.....202

[Smart parallel robots for massage](#)

S N Sajapin.....207

[Nambu mechanics and its applications](#)

A O Shishanin.....214

[Microrotation Waves Propagating in a Cylindrical Waveguide](#)

E V Murashkin, Y N Radayev and V A Kovalev.....220

[Experimental and theoretical studies of oscillations of stratified fluid](#)

Win Ko Ko and A N Temnov.....226

[Multifrequency model of Earth tidal deformations within framework of three-body problem](#)

I V Skorobogatykh.....235

[Flight trajectory optimization without decomposition into separate stages](#)

S A Kumakshev and A M Shmatkov.....240

[Modeling of compensatory sustainability on the basis of algebraic formalization of systems](#)

V I Serdyukov, N A Serdyukova and S I Shishkina.....247

[Features of numerical simulation of the unsteady vortex flow around aircraft considering airbrake](#)

A S Epikhin and V T Kalugin.....257

[A method for attitude control of telescopes making use of an inverted pendulum](#)

H Hanada, S Tsuruta, K Asari, H Araki, K Funazaki, A Satoh, H Taniguchi and M Kikuchi.....266

[Constraint stabilization of two-wheeled sleigh](#)

I Kaspirovich.....274

[To development of general theory of gearings synthesis on the basis of conical wheels formed by a tool of rack and disk type](#)

O N Tsukanov.....280

[Hybrid algorithms for optimization and diagnostics of hydromechanical systems used in food production biotechnology](#)

I G Blagoveshchenskii, M M Blagoveshchenskay, V D Sulimov and P M Shkapov.....287

[Jacobi stability and updating parameters of dynamical systems using hybrid algorithms](#)

V D Sulimov, P M Shkapov and A V Sulimov.....296

[Modelling of dynamics of mechanical systems with regard for constraint stabilization](#)

R G Mukharlyamov.....307

[Considering the Motion of the Elastic Lunar Pole](#)

M Yu Barkin and V A Pankratov.....315

[Coupled Multi-Physics Modelling in Continuum Mechanics](#)

E.V. Murashkin and Y.N. Radayev.....324

[Precise measuring-computational predictive monitoring - the conditional of self-organization of the life cycle](#)

M I Kiselev.....330

[Its own spectrum band - a property of mechanical systems](#)

I N Ovchinnikov.....336
