Volume 10859

Proceedings of SPIE, 1605-7422, V. 10859

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Visualizing and Quantifying Drug Distribution in Tissue III*, edited by Kin Foong Chan, Conor L. Evans, Proceedings of SPIE Vol. 10859 (SPIE, Bellingham, WA, 2019) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v	<i>Authors</i>
vii	<i>Conference Committee</i>

SESSION 1 PHARMACOKINETIC AND PHARMACODYNAMIC TOMOGRAPHY I

10859 04	Autoradiography, imaging mass spectrometry and other preclinical imaging techniques to study tissue distribution of xenobiotics in animal models (Invited Paper) [10859-3]
----------	---

SESSION 2 PHARMACOKINETIC AND PHARMACODYNAMIC TOMOGRAPHY II

10859 07	Multiphoton imaging in cosmetics research (Invited Paper) [10859-6]
10859 09	Targeting fatty acid synthase to inhibit tumor growth and overcome taxane resistance (Invited Paper) [10859-8]
10859 0B	Multiphoton imaging of the toxic effect of carbon tetrachloride on hepatobiliary metabolism in vivo [10859-10]

SESSION 3 IMAGING SCREENING TOOLS IN DRUG DEVELOPMENT

10859 0F	Simultaneous extracellular and intracellular quantification of EGFR using paired-agent imaging in an in ovo tumor model [10859-14]
----------	---

SESSION 4 ADVANCED METHODS IN DRUG DETECTION AND IMAGING

10859 0H	(Re)defining sensitivity of chemical imaging [10859-16]
10859 0J	Morphological reconstruction of fluorescence molecular tomography based on nonlocal total variation regularization for tracer distribution in glioma [10859-18]

POSTER SESSION

10859 0L	Detection of lithium in breast milk and the mammary glands [10859-20]
----------	--
