Volume 11019

Proceedings of SPIE 0277-786X, V. 11019

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Situation Awareness in Degraded Environments 2019*, edited by John N. Sanders-Reed, Jarvis J. Arthur III, Proceedings of SPIE Vol. 11019 (SPIE, Bellingham, WA, 2019)  
Seven-digit Article CID Number.

---

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

v	Authors
vii	Conference Committee

---

## SESSION 1 DVE SYSTEMS AND ANALYSIS I

---

- 11019 02 Degraded visual environment paradigm shift from mission deterrent to combat enabler [11019-1]
- 11019 04 Development of an army aviator composite risk assessment model [11019-3]

---

## SESSION 2 DVE SYSTEMS AND ANALYSIS II

---

- 11019 05 Integration and use of an AR display in a maritime helicopter simulator [11019-5]
- 11019 06 Integration and flight testing of a DVE system on the H145 [11019-6]

---

## SESSION 3 SENSING AND PHENOMENOLOGY I

---

- 11019 08 Performance enhancement of point-to-point diffuse links at 265 nm under fog conditions [11019-8]

---

## SESSION 4 SENSING AND PHENOMENOLOGY II

---

- 11019 0B Novel low-cost camera-based continuous wave laser detection [11019-12]
- 11019 0C Disparate sensor real-time scene fusion for tactical environments [11019-13]

---

## SESSION 5 HUMAN PERFORMANCE I

---

- 11019 0E Evaluation of a head-worn display with ambient vision cues for unusual attitude recovery [11019-15]
- 11019 0F Changes in physiological parameters induced by optical misalignment in night vision binocular devices [11019-16]

- 11019 0G Modeling the effect of macular pigment enhancement on mesopic vision in degraded visual environments (DVE) in artificial light [11019-17]
- 11019 0H Binocular rivalry in monocular augmented reality devices: a review [11019-18]

---

SESSION 6 HUMAN PERFORMANCE II

---

- 11019 0J Virtual reality headsets as external vision displays for helicopter operations: the potential of an exocentric viewpoint [11019-20]
- 11019 0L Emissive microdisplays for helmet mounted display applications [11019-22]

---

SESSION 7 GPS-DENIED

---

- 11019 0M High-integrity navigation for sensor-based 3D world modeling [11019-23]
- 11019 0N UAV navigation in GPS-denied environment using particle filtered RVL [11019-24]

---

POSTER SESSION

---

- 11019 0P Two unique W-band radar clutter signatures [11019-11]
