

# **Computational Civil Engineering Conference (CCE 2019)**

IOP Conference Series: Materials Science and Engineering  
Volume 586

Iasi, Romania  
30 - 31 May 2019

## **Editors:**

**Gabriela Covatariu**  
**Eugenio Oñate**  
**Vasile-Mircea Venghiac**  
**Petru Mihai**

ISBN: 978-1-5108-9459-4  
ISSN: 1757-8981

# Table of contents

## Volume 586

**Computational Civil Engineering Conference (CCE2019)**

**30–31 May 2019, Iasi, Romania**

**Accepted papers received: 4 July 2019**

**Published online: 10 September 2019**

### **Preface**

[Preface](#)

[The Committees of CCE 2019 Conference](#)

[Peer review statement](#)

### **Papers**

#### **Computational Methods in Civil Engineering**

[Bearing capacity assessment for a timber girder when subject to a localised fire](#)

K Kmiecik.....1

[Simulation of fire development in a large-area shopping hall](#)

M Maslak, M Pazdanowski and P Wozniczka.....10

[A posteriori modelling of a fire spreading in selected types of industrial halls](#)

M Maslak, M Pazdanowski, M Suchodola and P Wozniczka.....23

[Impact of wood species on the timber beam strength and stiffness under fire](#)

K Kmiecik.....33

[Experimental research of human evacuation in the case of a fire drill](#)

Z C Grigoras and M Ibănescu.....40

[Thermal performance of insulated glazing units established by infrared thermography](#)

L Moga.....47

[Green roof influence over the characteristics of the linear thermal bridges](#)

I-R Baci, D N Isopescu, N Taranu and S G Maxineasa.....55

[Comparison of current stiffness modulus values in national and international literature](#)

V-I Iftode, I Olteanu-Dontov, P Mihai, M Budescu, I Sococol and I-D Dinu.....65

[Improving elastic properties of bricks by polyurethane matrices mean](#)

V-I Iftode, I Olteanu-Dontov, P Mihai, M Budescu and M Harja.....73

[Analysis of contemporary solar house in terms of sustainability criteria](#)

D N Isopescu, A I Dumitrascu, C G Corduban and C Tâşnei.....81

[Comparative Analysis of Hygrothermal Behaviour of the Exterior Walls in Transient Regime](#)

R A Pescaru, L Dumitrescu, I Baran and C M Grădinaru.....88

[Evaluation of the swelling pressure for expansive soils](#)

M Aniculaesi and I Lungu.....96

[Study regarding the stiffness influence of slab to beams for a plan structural reinforced concrete frame system in seismic zones](#)

I Sococol, P Mihai, V I Iftode and I Olteanu-Dontov.....102

[Parametric study in composite joints configuration](#)

M Pop, C Campian and N Chira.....113

[Simulation on implementing noise mitigation measures in a typical urban area](#)

I Oancea and G Covatariu.....121

[Lighting systems calculations for heritage buildings](#)

C D Galatanu.....133

[The use of partial blanketed strands in design of prestressed precast beams](#)

I L Stan, N Florea, P Mihai and V C Tănăsucă.....142

[The influence of construction and service stages on the internal forces of prestressed precast beams](#)

I L Stan, N Florea, P Mihai and V C Tănăsucă.....156

[Design of a high-rise building with hybrid steel-concrete structural elements](#)

V-M Venghiac, M Budescu and S-A Băetu.....173

[Computational Assessment of a RC Water Tank – A Comparative Static Analysis](#)

A Filip and D Covatariu.....181

[Assessment of the Time-dependent Behaviour of a Reinforced Concrete Water Tank by using the Finite Elements Method](#)

A Filip and D Covatariu.....191

## **Numerical Analyses of Civil Engineering Structures**

[A simple and rapid approach for the numerical simulation of non-linear elements and examples of its application](#)

W Loo and L Tuleasca.....198

[Finite element modelling of different strengthening strategies for reinforced concrete deep beams](#)

V Gergely, M Pop, C Campian and N Chira.....206

[Seismic vulnerability of historical orthodox churches in Romania: numerical modelling and retrofit solutions](#)

M Bârnaure, M Coman and D Marcu.....216

[Parametric FEM analysis of steel beam-to-column connection with extended end-plate and diagonal stiffeners](#)

M Stascov and V M Venghiac.....224

[Nonlinear FEM analysis of steel beam-to-column connections with extended end plate](#)

M Stascov, V M Venghiac and S G Luca.....236

[Study of the interface behaviour between fictile tubules bricks and mortar: numerical and experimental analysis](#)

C Scuro, S Tiberti, S Porzio, R S Olivito and G Milani.....246

[Interlaminar damage numerical modelling based on delamination growth of multi-layered composites](#)

I Hudisteanu, N Tăranu, D N Isopescu, V Munteanu, O Neculai and D Ungureanu.....257

[Stability Analysis of a Scaled-Down Cold-Formed Steel Structure](#)

G Tăranu, G Bunea, I Olteanu-Dontov, V M Venghiac and I Ovidiu Toma.....264

[Assessing the earthquake performance of existing buildings of various material types and configurations in New Zealand](#)

L Tuleasca, W Loo and I Wardak.....274

[Numerical modelling of RC floor slabs](#)

J Mikula and J Szolomicki.....282

[Evaluation of the thermal performance of composite insulated panels with metallic skin through steady-state numerical analysis – Part 1](#)

A M Măgurean.....293

[Evaluation of the thermal performance of composite insulated panels with metallic skin through steady-state numerical analysis – Part 2](#)

A M Măgurean.....305

[Numerical analysis of heat exchanger with uniform heat flux used in heat pumps systems](#)

C G Popovici and S V Hudisteanu.....315

[Comparative analysis of heating systems used in Orthodox churches](#)

S V Hudisteanu, V Ciocan, M Verdes, N C Chereches, M C Bălan and E F Turcanu.....325

[Microclimate analysis in Gheorghe Asachi auditorium: showcase for the indoor climate performance](#)

M Verdes, V Ciocan, E F Turcanu, R S Luciu, M C Bălan, S V Hudisteanu and A Burlacu.....333

## **Computational Fluid Dynamics**

### [Contributions to simulation of the non-permanent movement in sewerage collectors](#)

M Luca, A L Luca, C F Scripcariu and S Chirica.....340

### [Study of natural gas pipeline behaviour](#)

L Radermacher and T Mateescu.....352

### [The effect of wave crest speed in breaking waves](#)

C C Craciunescu and M Christou.....361

### [Numerical simulation of a heat exchanger using \$Al\_2O\_3\$ nanofluid and STES](#)

A I Baran, T Mateescu and R S Luciu.....376

### [IR thermography applied in church heritage conservation](#)

E F Turcanu, V Ciocan, M Verdes, R S Luciu, M C Bălan, S V Hudisteanu and A Burlacu.....383

### [Thermal comfort assessment for different heating system using CFD-modelling inside of an orthodox church](#)

V Ciocan, E F Turcanu, M Verdes, R S Luciu, M C Bălan, S V Hudisteanu and A Burlacu.....389

### [Hygro-thermal monitoring inside Gheorghe Asachi library and their effects on heritage conservation](#)

V Ciocan, E F Turcanu, M Verdeş, R S Luciu, M C Bălan, S V Hudisteanu and A Burlacu.....396

## **Computer-Assisted Management in Civil Engineering**

[Improved strategy for optimal control of Civil Engineering structures](#)

F Păuleț-Crăiniceanu, S G Luca, C Pastia and V Florea.....403

## **Computer Aided Training**

[Enhancing Civil Engineering teaching through 3D Computer Aided Design](#)

J Gonçalves and B Santos.....409
