## Table of Contents

Message from the General Co-Chairs and the Program Co-Chairs .xvi.....	
Organizing Committee .xviii.....	
Steering Committee .xx.....	
Program Committee .xxi.....	
Keynote Abstracts .xxvi.....	

### Bugs I Session

A Longitudinal Analysis of Bug Handling Across Eclipse Releases .1.....	
<i>Zeinab Abou Khalil (University of Lille, University of Mons and Inria Lille), Eleni Constantinou (University of Mons), Tom Mens (University of Mons), Laurence Duchien (University of Lille and Inria Lille), and Clément Quinton (University of Lille and Inria Lille)</i>	
Impact of Switching Bug Trackers: A Case Study on a Medium-Sized Open Source Project .13.....	
<i>Théo Zimmermann (Université de Paris / Inria) and Annalí Casanueva Artís (Paris School of Economics)</i>	
The Impact of Rare Failures on Statistical Fault Localization: The Case of the Defects4J Suite .24.....	
<i>Yiit Küçük (Case Western Reserve University), Tim A. D. Henderson (Google Inc.), and Andy Podgurski (Case Western Reserve University)</i>	

### Mobile Session

Do Energy-Oriented Changes Hinder Maintainability? .29.....	
<i>Luis Cruz (INESC-TEC, University of Porto), Rui Abreu (INESC-ID, University of Lisbon), John Grundy (Monash University), Li Li (Monash University), and Xin Xia (Monash University)</i>	
Can Everyone use my app? An Empirical Study on Accessibility in Android Apps .41.....	
<i>Christopher Vendome (Miami University), Diana Solano (Universidad de los Andes), Santiago Liñán (Universidad de los Andes), and Mario Linares-Vásquez (Universidad de los Andes)</i>	

Quantifying the Performance Impact of SQL Antipatterns on Mobile Applications .53.....  
*Yingjun Lyu (University of Southern California), Ali Alotaibi (University of Southern California), and William G. J. Halfond (University of Southern California)*

An Empirical Study of UI Implementations in Android Applications .65.....  
*Mian Wan (University of Southern California), Negarsadat Abolhassani (University of Southern California), Ali Alotaibi (University of Southern California), and William G. J. Halfond (University of Southern California)*

Same App, Different Countries: A Preliminary User Reviews Study on Most Downloaded iOS Apps .76.....  
*Kamonphop Srisopha (University of Southern California), Chukiat Phonsom (University of Southern California), Keng Lin (University of Southern California), and Barry Boehm (University of Southern California)*

## Bugs II Session

Improving Bug Triaging with High Confidence Predictions at Ericsson .81.....  
*Aindrila Sarkar (Concordia University), Peter C. Rigby (Concordia University), and Béla Bartalos (Ericsson)*

An Industrial Study on the Differences between Pre-Release and Post-Release Bugs .92.....  
*Renaud Rwemalika (University of Luxembourg), Marinos Kintis (University of Luxembourg), Mike Papadakis (University of Luxembourg), Yves Le Traon (University of Luxembourg), and Pierre Lorrach (BGL BNP Paribas)*

## AI Applications Session

Tracing with Less Data: Active Learning for Classification-Based Traceability Link Recovery .103.....  
*Chris Mills (Florida State University), Javier Escobar-Avila (Florida State University), Aditya Bhattacharya (Florida State University), Grigoriy Kondyukov (Florida State University), Shayok Chakraborty (Florida State University), and Sonia Haiduc (Florida State University)*

Deep Learning Anti-Patterns from Code Metrics History .114.....  
*Antoine Barbez (Polytechnique Montréal), Foutse Khomh (Polytechnique Montréal), and Yann-Gaël Guéhéneuc (Concordia University)*

An Approach to Recommendation of Verbosity Log Levels Based on Logging Intention .125.....  
*Han Anu (Renmin University of China), Jie Chen (Renmin University of China), Wenchang Shi (Renmin University of China), Jianwei Hou (Renmin University of China), Bin Liang (Renmin University of China), and Bo Qin (Renmin University of China)*

Automated Characterization of Software Vulnerabilities .135.....  
*Danielle Gonzalez (Rochester Institute of Technology), Holly Hastings (Rochester Institute of Technology), and Mehdi Mirakhorli (Rochester Institute of Technology)*

Learning to Identify Security-Related Issues Using Convolutional Neural Networks .140.....  
*David N. Palacio (College of William & Mary), Daniel McCrystal (College of William & Mary), Kevin Moran (College of William & Mary), Carlos Bernal-Cárdenas (College of William & Mary), Denys Poshyvanyk (College of William & Mary), and Chris Shenefiel (Cisco Systems)*

## Clones and Refactoring Session

TECCD: A Tree Embedding Approach for Code Clone Detection .145.....  
*Yi Gao (Tianjin University), Zan Wang (Tianjin University), Shuang Liu (Tianjin University), Lin Yang (Tianjin University), Wei Sang (Tianjin University), and Yuanfang Cai (Drexel University)*

Investigating Context Adaptation Bugs in Code Clones .157.....  
*Manishankar Mondal (University of Saskatchewan), Banani Roy (University of Saskatchewan), Chanchal K. Roy (University of Saskatchewan), and Kevin A. Schneider (University of Saskatchewan)*

Decomposing God Classes at Siemens .169.....  
*Nicolas Anquetil (Univ. Lille, CNRS, Centrale Lille, Inria), Anne Etien (Univ. Lille, CNRS, Centrale Lille, Inria), Gaelle Andreo (Siemens AG), and Stéphane Ducasse (INRIA Lille Nord Europe)*

Tracy: A Business-Driven Technical Debt Prioritization Framework .181.....  
*Rodrigo Rebouças de Almeida (Federal University of Paraíba), Christoph Treude (University of Adelaide), and Uirá Kulesza (Federal University of Rio Grande do Norte)*

Self-Admitted Technical Debt Removal and Refactoring Actions: Co-Occurrence or More? .186.....  
*Martina Iammarino (University of Sannio), Fiorella Zampetti (University of Sannio), Lerina Aversano (University of Sannio), and Massimiliano Di Penta (University of Sannio)*

## Change Session

Identifying the Within-Statement Changes to Facilitate Change Understanding .191.....  
*Chunhua Yang (Qilu University of Technology (Shandong Academy of Sciences)) and Jim WhiteHead (University of California, Santa Cruz)*

Aiding Code Change Understanding with Semantic Change Impact Analysis .202.....  
*Quinn Hanam (The University of British Columbia), Ali Mesbah (The University of British Columbia), and Reid Holmes (The University of British Columbia)*

Towards Generating Transformation Rules without Examples for Android API Replacement .213.....  
*Ferdian Thung (Singapore Management University), Hong Jin Kang (Singapore Management University), Lingxiao Jiang (Singapore Management University), and David Lo (Singapore Management University)*

How Do Code Changes Evolve in Different Platforms? A Mining-Based Investigation .218.....  
*Markos Viggiano (University of Alberta), Johnatan Oliveira (Federal University of Minas Gerais), Eduardo Figueiredo (Federal University of Minas Gerais), Pooyan Jamshidi (University of South Carolina), and Christian Kästner (Carnegie Mellon University)*

## Testing and Coding Session

- How the Experience of Development Teams Relates to Assertion Density of Test Classes .223.....  
*Gemma Catolino (University of Salerno), Fabio Palomba (University of Zurich), Andy Zaidman (Delft University of Technology), and Filomena Ferrucci (University of Salerno)*
- Automatic Discovery and Cleansing of Numerical Metamorphic Relations .235.....  
*Bo Zhang (The University of Newcastle), Hongyu Zhang (The University of Newcastle), Junjie Chen (Tianjin University), Dan Hao (Peking University), and Pablo Moscato (The University of Newcastle)*
- AutoMR: Automatic Discovery and Cleansing of Numerical Metamorphic Relations .246.....  
*Bo Zhang (The University of Newcastle), Hongyu Zhang (The University of Newcastle), Junjie Chen (Tianjin University), Dan Hao (Peking University), and Pablo Moscato (The University of Newcastle)*
- Automated Identification of Over-Privileged SmartThings Apps .247.....  
*Atheer Abu Zaid (Ryerson University), Manar H. Alalfi (Ryerson University), and Ali Miri (Ryerson University)*
- EmoD: An End-to-End Approach for Investigating Emotion Dynamics in Software Development .252.  
*Krishna Neupane (Rochester Institute of Technology), Kabo Cheung (Rochester Institute of Technology), and Yi Wang (Rochester Institute of Technology)*

## Text Analysis and Empirical Studies Session

- Know-How in Programming Tasks: From Textual Tutorials to Task-Oriented Knowledge Graph .257..  
*Jiamou Sun (Australian National University), Zhenchang Xing (Australian National University), Rui Chu (Australian National University), Heilai Bai (Australian National University), Jinshui Wang (Fujian University of Technology), and Xin Peng (Fudan University)*
- An Empirical Study of Abbreviations and Expansions in Software Artifacts .269.....  
*Christian Donald Newman (Rochester Institute of Technology), Michael John Decker (Bowling Green State University), Reem Alsuhaibani (Kent State University), Anthony Peruma (Rochester Institute of Technology), Dishant Kaushik (Rochester Institute of Technology), and Emily Hill (Drew University)*
- An Open Dataset of Abbreviations and Expansions .280.....  
*Christian Newman (Rochester Institute of Technology), Michael John Decker (Bowling Green State University), Reem S Alsuhaibani (Kent State University), Anthony Peruma (Rochester Institute of Technology), Dishant Kaushik (Rochester Institute of Technology), and Emily Hill (Drew University)*
- Estimating Software Task Effort in Crowds .281.....  
*Mohammed Alhamed (University of Glasgow) and Tim Storer (University of Glasgow)*

Do as I Do, Not as I Say: Do Contribution Guidelines Match the GitHub Contribution Process? .286.....  
*Omar Elazhary (University of Victoria), Margaret-Anne Storey (University of Victoria), Neil Ernst (University of Victoria), and Andy Zaidman (Delft University of Technology)*

An Analysis of 35+ Million Jobs of Travis CI .291.....  
*Thomas Durieux (INESC-ID and IST, University of Lisbon), Rui Abreu (INESC-ID and IST, University of Lisbon), Martin Monperrus (KTH Royal Institute of Technology), Tegawendé F. Bissyandé (SnT, University of Luxembourg), and Luís Cruz (INESC-ID and University of Porto)*

Linguistic Change in Open Source Software .296.....  
*Miroslav Tushev (Louisiana State University), Saket Khatiwada (Louisiana State University), and Anas Mahmoud (Louisiana State University)*

## Coding and Repair Session

Learning How to Mutate Source Code from Bug-Fixes .301.....  
*Michele Tufano (College of William and Mary), Cody Watson (College of William and Mary), Gabriele Bavota (Università della Svizzera italiana (USI)), Massimiliano Di Penta (University of Sannio), Martin White (College of William and Mary), and Denys Poshyvanyk (College of William and Mary)*

Personalized Code Recommendation .313.....  
*Tam Nguyen (Auburn University), Phong Vu (Auburn University), and Tung Nguyen (Auburn University)*

Syntax and Stack Overflow: A Methodology for Extracting a Corpus of Syntax Errors and Fixes .318.....  
*Alexander William Wong (University of Alberta), Amir Salimi (University of Alberta), Shaiful Chowdhury (University of Alberta), and Abram Hindle (University of Alberta)*

BARRIERFINDER: Recognizing Ad Hoc Barriers .323.....  
*Tao Wang (North Carolina State University), Xiao Yu (North Carolina State University), Zhengyi Qiu (North Carolina State University), Guoliang Jin (North Carolina State University), and Frank Mueller (North Carolina State University)*

Impact Analysis of Syntactic and Semantic Similarities on Patch Prioritization in Automated Program Repair .328.....  
*Moumita Asad (Institute of Information Technology, University of Dhaka), Kishan Kumar Ganguly (Institute of Information Technology, University of Dhaka), and Kazi Sakib (Institute of Information Technology, University of Dhaka)*

## APIs, Programming, and CI Session

- Losing Confidence in Quality: Unspoken Evolution of Computer Vision Services .333.....  
*Alex Cummaudo (Deakin University), Rajesh Vasa (Deakin University), John Grundy (Monash University), Mohamed Abdelrazek (Deakin University), and Andrew Cain (Deakin University)*
- Inappropriate Usage Examples in Web API Documentations .343.....  
*Masaki Hosono (Waseda University), Hironori Washizaki (Waseda University / NII / SYSTEM INFORMATION / eXmotion), Kiyoshi Honda (Osaka Institute of Technology), Hiromasa Nagumo (Waseda University), Hisanobu Sonoda (Waseda University), Yoshiaki Fukazawa (Waseda University), Kazuki Munakata (Fujitsu Laboratories Ltd.), Takao Nakagawa (Fujitsu Laboratories Ltd.), Yusuke Nemoto (Fujitsu Laboratories Ltd.), Susumu Tokumoto (Fujitsu Laboratories Ltd.), and Supasit Monpratarnchai (Formerly Fujitsu Laboratories Ltd.)*
- What Do Developers Discuss about Biometric APIs? .348.....  
*Zhe Jin (Monash University Malaysia), Kong Yik Chee (Monash University Malaysia), and Xin Xia (Monash University Australia)*

## Perspective Session

- Teaching Software Maintenance .353.....  
*Keith Gallagher (Florida Institute of Technology), Mark Fioravanti (Florida Institute of Technology), and Suzanne Kozaitis (Florida Institute of Technology)*
- Continuous Collateral Privacy Risk Auditing of Evolving Autonomous Driving Software .363.....  
*Chang Liu (Ohio University), Krerkkiat Chusap (Ohio University), Zhongen Li (Ohio University), Zhaojie Chen (Ohio University), Dylan Rogers (Ohio University), and Fanghao Song (Ohio University)*
- Challenges in re-Platforming Mixed Language PL/I and COBOL IS to an Open Systems Platform .364  
*Thomas Wagner (Vienna University of Technology), Christian Brem (Vienna University of Technology), Stefan Strobl (Vienna University of Technology), and Thomas Grechenig (Vienna University of Technology)*
- Application of Philosophical Principles in Linux Kernel Customization .365.....  
*Hang Li (XiDian University), Lin Yan (20th Research Institute of CETC), and XiLiang Zhao (XiDian University)*
- Lessons Learned from Large-Scale Refactoring .366.....  
*Hyrum Wright (Google)*

## Late Breaking Ideas Session

- Interactive Traceability Links Visualization using Hierarchical Trace Map .367.....  
*Thazin Win Win Aung (University of Technology Sydney), Huan Huo (University of Technology Sydney), and Yulei Sui (University of Technology Sydney)*
- Supporting Software Architecture Maintenance by Providing Task-Specific Recommendations .370..  
*Matthias Galster (University of Canterbury), Christoph Treude (University of Adelaide), and Kelly Blincoe (University of Auckland)*

A Validation Method of Self-Adaptive Strategy Based on POMDP .373.....	<i>Tong Wu (Xidian University), Qignshan Li (Xidian University), and Lu Wang (Xidian University)</i>
Modeling the Relationship Between Identifier Name and Behavior .376.....	<i>Christian D. Newman (Rochester Institute of Technology), Anthony Preuma (Rochester Institute of Technology), and Reem AISuhaibani (Kent State University)</i>
Lib Metamorphosis: A Performance Analysis Framework for Exchanging Data Structures in Performance Sensitive Applications .379.....	<i>Michael Shah (Northeastern University)</i>

## Tool Demo Presentation Session

Processing Large Datasets of Fined Grained Source Code Changes .382.....	<i>Stanislav Levin (Tel Aviv University) and Amiram Yehudai (Tel Aviv University)</i>
CodeSonar (R) Extension for Copy-Paste-(Mis) Adapt Error Detection .386.....	<i>Petru-Florin Mihancea (Independent Contractor, LOOSE Research Group, Politehnica University of Timioara) and Roger Scott (GramaTech, Inc.)</i>
Recommending Exception Handling Code .390.....	<i>Tam Nguyen (Auburn University), Phong Vu (Auburn University), and Tung Nguyen (Auburn University)</i>
SmartEmbed: A Tool for Clone and Bug Detection in Smart Contracts through Structural Code Embedding .394.....	<i>Zhipeng Gao (Monash University), Vinoj Jayasundara (Singapore Management University), LingXiao Jiang (Singapore Management University), Xin Xia (Monash University), David Lo (Singapore Management University), and John Grundy (Monash University)</i>
Near-Omniscient Debugging for Java Using Size-Limited Execution Trace .398.....	<i>Kazumasa Shimari (Osaka University), Takashi Ishio (Nara Institute of Science and Technology), Tetsuya Kanda (Osaka University), and Katsuro Inoue (Osaka University)</i>
Sciit: Aligning Source Control Management and Issue Tracking Architectures .402.....	<i>Nystrom Edwards (University of Glasgow), Dhitiwat Jongsuebchoke (University of Glasgow), and Tim Storer (University of Glasgow)</i>
Ticket Tagger: Machine Learning Driven Issue Classification .406.....	<i>Rafael Kallis (University of Zurich), Andrea Di Sorbo (University of Sannio), Gerardo Canfora (University of Sannio), and Sebastiano Panichella (Zurich University of Applied Sciences)</i>
Kraken-Mobile: Cross-Device Interaction-Based Testing of Android Apps .410.....	<i>William Ravelo-Méndez (Universidad de los Andes), Camilo Escobar-Vélasquez (Universidad de los Andes), and Mario Linares-Vásquez (Universidad de los Andes)</i>

MigrationMiner: An Automated Detection Tool of Third-Party Java Library Migration at the Method Level .414.....	
	<i>Hussein Alrubaye (Rochester Institute of Technology,), Mohamed Wiem Mkaouer (Rochester Institute of Technology), and Ali Ouni (ETS Montréal, University of Quebec, Montréal)</i>
OPIA: A Tool for On-Device Testing of Vulnerabilities in Android Applications .418.....	
	<i>Laura Bello-Jiménez (Universidad de Los Andes), Alejandro Mazuera-Rozo (Università della Svizzera italiana), Mario Linares-Vásquez (Universidad de Los Andes), and Gabriele Bavota (Università della Svizzera italiana)</i>
OSAIFU: A Source Code Factorizer on Android Studio .422.....	
	<i>Masahiro Hata (Hiroshima City University), Masashi Nishimoto (Hiroshima City University), Keiji Nishiyama (Hiroshima City University), Hideyuki Kawabata (Hiroshima City University), and Tetsuo Hironaka (Hiroshima City University)</i>

## Testing Session

An Empirical Study of the Relationship between Continuous Integration and Test Code Evolution .426.....	
	<i>Gustavo Sizilio Nery (Federal Institute of Education, Science and Technology of Rio Grande do Norte), Daniel Alencar da Costa (University of Otago), and Uirá Kulesza (Federal University of Rio Grande do Norte)</i>
What Factors Make SQL Test Cases Understandable for Testers? A Human Study of Automated Test Data Generation Techniques .437.....	
	<i>Abdullah Alsharif (University of Sheffield), Gregory M. Kapfhammer (Allegheny College), and Phil McMinn (University of Sheffield)</i>
Systematically Testing and Diagnosing Responsiveness for Android Apps .449.....	
	<i>Wenhua Zhao (Shanghai Jiao Tong University), Zhenkai Ding (Shanghai Jiao Tong University), Mingyuan Xia (AppetizerIO), and Zhengwei Qi (Shanghai Jiao Tong University)</i>
DeepEvolution: A Search-Based Testing Approach for Deep Neural Networks .454.....	
	<i>Housseem Ben Braiek (Polytechnic Montreal) and Foutse Khomh (Polytechnic Montreal)</i>

## Systems and Configurations Session

An Exploratory Study of Logging Configuration Practice in Java .459.....	
	<i>Chen Zhi (Zhejiang University &amp; Alibaba-Zhejiang University Joint Institute of Frontier Technologies), Jianwei Yin (Zhejiang University), Shuiguang Deng (Zhejiang University &amp; Alibaba-Zhejiang University Joint Institute of Frontier Technologies), Maoxin Ye (Zhejiang University), Min Fu (Alibaba Group, China &amp; Macquarie University), and Tao Xie (University of Illinois at Urbana-Champaign)</i>
Performance-Influence Model for Highly Configurable Software with Fourier Learning and Lasso Regression .470.....	
	<i>Huog Ha (The University of Newcastle) and Hongyu Zhang (The University of Newcastle)</i>

Microservices Migration in Industry: Intentions, Strategies, and Challenges .481.....	<i>Jonas Fritzsch (University of Stuttgart), Justus Bogner (University of Applied Sciences Reutlingen), Stefan Wagner (University of Stuttgart), and Alfred Zimmermann (University of Applied Sciences Reutlingen)</i>
Comparing Constraints Mined From Execution Logs to Understand Software Evolution .491.....	<i>Thomas Krismayer (Johannes Kepler University Linz, Christian Doppler Laboratory MEVSS, Institute for Software Systems Engineering, Austria), Michael Vierhauser (Johannes Kepler University Linz, Institute for Software Systems Engineering, Austria), Rick Rabiser (Johannes Kepler University Linz, Christian Doppler Laboratory MEVSS, Institute for Software Systems Engineering, Austria), and Paul Grünbacher (Johannes Kepler University Linz, Christian Doppler Laboratory MEVSS, Institute for Software Systems Engineering, Austria)</i>
Synthesizing Program Execution Time Discrepancies in Julia Used for Scientific Software .496.....	<i>Effat Farhana (North Carolina State University), Nasif Imtiaz (North Carolina State University), and Akond Rahman (Tennessee Tech. University)</i>

## Comprehension and Empirical Studies Session

Comprehending Test Code: An Empirical Study .501.....	<i>Chak Shun Yu (Delft University of Technology), Christoph Treude (University of Adelaide), and Maurício Aniche (Delft University of Technology)</i>
An Empirical Study Assessing Source Code Readability in Comprehension .513.....	<i>John Johnson (University of Nebraska - Lincoln), Sergio Lubo (Universidad Nacional de Colombia), Nishitha Yedla (Youngstown State University), Jairo Aponte (Universidad Nacional de Colombia), and Bonita Sharif (University of Nebraska - Lincoln)</i>
Handling Duplicates in Dockerfiles Families: Learning from Experts .524.....	<i>Mohamed A. Oumaziz (Bordeaux University), Jean-Rémy Falleri (Bordeaux INP), Xavier Blanc (Bordeaux University), Tegawendé F. Bissyandé (SnT, University of Luxembourg), and Jacques Klein (University of Luxembourg)</i>
Share, But be Aware: Security Smells in Python Gists .536.....	<i>Md Rayhanur Rahman (North Carolina State University), Akond Rahman (Tennessee Tech. University), and Laurie Williams (North Carolina State University)</i>
Can Automated Impact Analysis Techniques Help Predict Decaying Modules? .541.....	<i>Natthawute Sae-Lim (Tokyo Institute of Technology), Shinpei Hayashi (Tokyo Institute of Technology), and Motoshi Saeki (Tokyo Institute of Technology)</i>

## Architecture Session

- Assuring the Evolvability of Microservices: Insights into Industry Practices and Challenges .546.....  
*Justus Bogner (University of Applied Sciences Reutlingen), Jonas Fritzsich (University of Stuttgart), Stefan Wagner (University of Stuttgart), and Alfred Zimmermann (University of Applied Sciences Reutlingen)*
- Investigating Instability Architectural Smells Evolution: An Exploratory Case Study .557.....  
*Darius Sas (University of Groningen), Paris Avgeriou (University of Groningen), and Francesca Arcelli Fontana (University of Milano-Bicocca)*
- A Qualitative Study on Framework Debugging .568.....  
*Zack Coker (Carnegie Mellon University), David Gray Widder (Carnegie Mellon University), Claire Le Goues (Carnegie Mellon University), Christopher Bogart (Carnegie Mellon University), and Joshua Sunshine (Carnegie Mellon University)*
- Adoption, Support, and Challenges of Infrastructure-as-Code: Insights from Industry .580.....  
*Michele Guerriero (Politecnico di Milano), Martin Garriga (Jheronimus Academy of Data Science & Tilburg University), Damian A. Tamburri (Jheronimus Academy of Data Science & Eindhoven University of Technology), and Fabio Palomba (University of Zurich)*

## Doctoral Symposium

- Studying the Impact of Policy Changes on Bug Handling Performance .590.....  
*Zeinab Abou Khalil (University of Lille, University of Mons and Inria Lille)*
- Automatic Examining of Software Architectures on Mobile Applications Codebases .595.....  
*Drago Dobrean (Babes Bolyai University)*
- The Relationship Between Cognitive Complexity and the Probability of Defects .600.....  
*Basma Alqadi (Imam Muhammad Ibn Saud Islamic University, Kent State University)*
- Business-Driven Technical Debt Prioritization .605.....  
*Rodrigo Rebouças de Almeida (Federal University of Paraíba)*
- Applying Markov Models to Identify Grammatical Patterns of Function Identifiers .610.....  
*Reem Alsuhaibani (Kent State University)*
- Enhancing Eye Tracking of Source Code: A Specialized Fixation Filter for Source Code .615.....  
*Drew T. Guarnera (Kent State University)*
- Improving the Robustness and Efficiency of Continuous Integration and Deployment .619.....  
*Keheliya Gallaba (McGill University)*
- Towards Better Understanding Developer Perception of Refactoring .624.....  
*Eman Abdullah Alomar (Rochester Institute of Technology)*
- RAPTOR: Release-Aware and Prioritized Bug-Fixing Task Assignment Optimization .629.....  
*Yutaro Kashiwa (Wakayama University)*
- Characterizing Performance Regression Introducing Code Changes .634.....  
*Deema ALShoabi (Rochester Institute of Technology)*

Towards a Model to Appraise and Suggest Identifier Names .....	639
<i>Anthony Peruma (Rochester Institute of Technology)</i>	
Design Smell Detection and Analysis for Open Source Java Software .....	644
<i>Asif Imran (University at Buffalo)</i>	
MigrationMiner: An Automated Detection Tool of Third-Party Java Library Migration at the Method Level .....	<b>414</b>
<i>Hussein Alrubaye (Rochester Institute of Technology), Mohamed Wiem Mkaouer (Rochester Institute of Technology), and Ali Ouni (ETS Montre al, University of Quebec)</i>	
<b>Author Index</b> .....	<b>649</b>
