Innovative Manufacturing Engineering and Energy (IManEE 2019)

22–24 May 2019, University of Pitesti, Romania

Accepted papers received: 5 June 2019

Published online: 30 October 2019

Preface

[Preface](#)

[Peer review statement](#)

Papers

Advanced Machining and Surface Engineering

[The quality of the machined surface of an aluminum alloy depending on the cutting depth variation](#)

A M Tîtu and A B Pop.....1

[Influence of the feed per tooth variation on the surface roughness at end milling of an aluminum alloy](#)

A B Pop and A M Tîtu.....7

[The influence of inclination of the axis of the toroidal tool on a flat surface roughness](#)

A R Osan, M Bănică and V Năsui.....13

[Technological investigation of binderless nanocrystalline cubic boron nitride \(BNNC\) as cutting material for groove turning of hardened steels](#)

A Hänel, M Hasterok, A Nestler, M Schwarz, A Brosius and E Kroke.....19

[Algorithms for modelling the load of teeth from pinion cutter tool used at worms machining](#)

M Bordeanu, G Frumusanu and N Oancea.....25

[Investigation the influence of surface topography on scattering ability of aluminium reflectors from infrared quartz heater](#)

S D Slavov, D M Dimitrov and P N Zlateva.....33

[Research in order to decrease the time manufacturing unit using the combined tools](#)

CI Indre, FS Blaga, C Miculas and DC Negrau.....40

[Examination of the influence of cutting conditions on nano-metric face milling using MD models](#)

N E Karkalos and A P Markopoulos.....47

[Effect of cooling condition over surface quality in turning of aluminium alloy 6082-T6](#)

I Besliu and I Tamasag.....53

[Surface roughness at facing on a lathe](#)

I Besliu, A Cîcu, E Besliu, C Agrigoroae and M Coteată.....59

[Main aspects of establishing the machining parameters of the railway wheelset's rolling surfaces](#)

I G Ghionea, A L Ghionea, N Predincea and E Balazs.....66

[Experimental research of tool axis inclination angle influence upon surface roughness in ball-nose end milling of polyetheretherketones \(Tecapeek natural\)-Part I](#)

I Pașca, M Lobonțiu, M Bănică and I Tămaș.....73

[Accounting casual character of the cutting tool life at the optimization of the cutting regimes](#)

A Mikhailov, T Ivchenko and I Petryaeva.....80

Assembling Technologies, Forming Technologies, Additive Manufacturing

[Studies on the influence of design parameters on the behaviour at shock of 3D-printed components fabricated by fused deposition modelling](#)

D C Anghel, A D Rizea, D M Iordache and M L Besliu-Gherghescu.....86

[The in-plane compression performance of hierarchical honeycomb additive manufactured structures](#)

M T Mansour, K Tsongas, D. Tzetzis and A. Antoniadis.....93

[Using of additive technologies in fabrication of casting models](#)

D Besnea, C Rizescu, E Moraru, I Panait, D Rizescu and E Dinu.....99

[Additive manufacturing of a stretch forming die using 3D printing technology](#)

C Grigoras, B Chiriță and G Brăbie.....105

[Numerical simulation of material failure in single point incremental forming process](#)

G P Rusu, M O Popp, M Oleksik and C Rodean.....111

[Research on manufacturing of pyramidal frustum parts using single point incremental forming process](#)

D Nasulea and G Oancea.....117

[Quality reinforcement, exploratory research and tendencies in sintering process manufacturing](#)

A G Dzetzit, G Nagit and M M Cucos.....125

[Robust design application for optimizing ABS fused filament fabrication process: A case study](#)

A Tsiolikas, T Mikrou, F Vakouftsi, K E Aslani and J Kechagias.....131

[An internal combustion engine visualization physical prototype applying digital manufacturing](#)

K Kitsakis, K E Aslani, N Vaxevanidis and J Kechagias.....137

[Simulated 3-axis versus 5-axis Processing Toolpaths for Single Point Incremental Forming](#)

G S Racz, R E Breaz, V S Oleksik, O C Bologa and P D Brîndasu.....143

Non-Conventional Technologies in Manufacturing, Welding Technologies

[Selection of effective equipment for shotcrete](#)

M A Stepanov and B A Kaitukov.....149

[Measuring the length of a spiral when evaluating the plastic processability by injection molding](#)

A Hrituc, G Nagît, O Dodun and L Slătineanu.....154

[Computational fluid dynamics in RTM method of the carbon composites molding](#)

P Paździor and M Szczepanik.....160

[The decision of problem of reducing the temperature of cement during its grinding](#)

Rinat R Sharapov.....166

[Research on the Process of Paint Removal from Thermoplastic Materials by Laser](#)

A Sover.....171

[Theoretical and numerical researches on the electrochemical polishing of dental prostheses realized by selective laser melting](#)

E Moraru, O Dontu, D Besnea, C Rizescu, D Rizescu and V Constantin.....177

[Studies and Research on the Stress – Strain Analyses of the Polyethylene Pipe-Fitting Assemblies Accidentally Subjected to an External Force](#)

E Avrigean and S M Filip.....183

[Numerical simulation of friction stir welding of pure copper plates](#)

M A Constantin, E L Nițu and C Bădulescu.....189

[Continuously pulsed electric field treatment chamber modelling and design](#)

I Shorstkii, M Sosnin and D Khudyakov.....195

[Numerical simulation of Friction Stir Welding of three dissimilar aluminium alloys](#)

A Bosneag, M A Constantin and E L Nitu.....201

[Tensile properties of friction stir welding of three dissimilar aluminium alloys, AA7075, AA2024 and AA6061 versus process parameters](#)

J C Grigore, A Bosneag and C Badulescu.....210

[Investigation of the abrasion resistance of stainless-steel composites with Al₂O₃ reinforcement phase produced by using the capillary forming method](#)

D Spasova.....216

Advanced Materials

[Numerical and experimental investigation of metamaterial structures used in non-destructive dielectric material testing](#)

D Faktorová, A Savin, R Steigmann, M D Stanciu and G Špániková.....223

[Development and characterization of starch - based nanocomposite materials](#)

M Zoumaki, D Tzetzis and G Mansour.....229

[Study on the diamond's role in manufacturing engineering and in energy](#)

E Bauer Grosse.....236

[Surface modification to develop hierarchical micro/nano topography on titanium based medical implants](#)

G Strnad, L Jakab-Farkas, R Cazacu, O Russu and C Petrovan.....242

[Study of the opto – electronic coupling in some complementary metallic – dielectric metamaterials used as biosensors](#)

D Ionescu and G Apreotesei.....248

[Microwave absorption and reflection properties of a composite dielectric absorber](#)

I Shorstkii and M Sosnin.....254

[Elaboration and characterization of TiO₂ coatings produced by micro-arc oxidation process](#)

M M Dicu, L I Neblea and P C Dicu.....260

[SEM, EDS and XPS studies of AC & DC PEO coatings obtained on titanium substrate](#)

K Rokosz, T Hryniewicz, Ł Dudek, K Pietrzak, S Raaen, W Malorny and R Ciuperca.....266

[Porous coatings obtained on titanium after IMPULSE – PEO processes](#)

K Rokosz, T Hryniewicz, Ł Dudek, K Pietrzak, S Raaen, W Malorny and R Ciuperca.....272

[Comparative analysis of the morphology of doped zinc and copper oxide nanopowders](#)

E M Modan, C M Ducu, S G Moga, A D Negrea and A G Plăiașu.....278

[Influence of thermal shocks at high temperatures on microstructure and hardness of RENE 41 alloy](#)

E Ungureanu (Arva), D-C Anghel, D Negrea, A G Plaiasu, V Rizea, M M Dicu, C M Ducu and M Abrudeanu.....283

Design and Analysis, CAD/CAM/CAE/CAX Technologies, Flexible Manufacturing, Automation and Robotics in Technological Processes

[Analysis and impact of different ambiguities in industrial technical product drawings](#)

R Oezden, M S Popa and S Danho.....289

[Stress/Strain analysis in the bogie in linear motion](#)

I Blanari and V Goanta.....295

[Survey on the kinematics of a 6RSS parallel robot based on manipulability indices](#)

L Milica, A Năstase and G Andrei.....301

[Cost reduction of the motor beam design](#)

M Kalinowski and M Szczepanik.....307

[Path planning optimization for mechatronic systems with the use of genetic algorithm and ant colony](#)

A Tsagaris and G Mansour.....314

[Experimental approach and finite element analysis of the behavior of a steel bending tool](#)

D C Negrău, C I Indre and G Grebenisan.....320

[Analysis of shape deviations of technical polyamide workpieces in different defined time intervals](#)

M Aclan, M S Popa and R Oezden.....327

[A comparative study about some application packages used in Photogrammetry](#)

D Nedelcu, G-R Gillich and C Malin-Tatian.....333

[Using CAM software to improve productivity](#)

A But and S Scaticailov.....339

[Design for manufacturing using TEBIS CAM software for milling processing](#)

A But.....345

[Determination of the shape of a beam obtained by fused deposition material with general loads](#)

N D Stănescu, M L Besliu–Gherghescu and A Rizea.....351

[Analyses and redesign of a technological device for automated assembly, using Design for Manufacturing and Assembly approach](#)

I M Pista, G Nagît, V Merticaru, M I Rîpanu and M Cucos.....357

[Software instrument used as interface in the design of technical installations](#)

L Popa and V Popa.....364

[A method of inserting symbol matrix on the workpiece sketch and assembling a device](#)

A Babă and M Bâldea.....371

[Design and analysis of side dump bucket for wheel loader using CAD/CAE/CAM technologies](#)

C Debeleac.....377

[State machines simulator for distributed decision system](#)

T Savu and B A Jugravu.....383

[Influence of the cutting precision of the cams on the dynamic performances of the cam mechanisms](#)

D Popa and C M Popa.....390

[The generation of the worm and wheel gears in a CAD soft](#)

D Popa and C M Popa.....398

[Determination of the load factor between screw and flange in screw connection realized with C-rail](#)

M Kalinowski and M Szczepanik.....406

Mechanical and Manufacturing Equipment, Devices and Instrumentation

[Determining the state of stress in the narrow section of Arcan test specimens, by the FEM method](#)

N A Danila, I Blanari and P D Barsanescu.....412

[Structural health monitoring of critical zones of small wind turbine blades for domestic users](#)

A Savin, N Iftimie, S M Nastac and M D Stanciu.....418

[Choice of truck for installation of concrete pump and distribution boom](#)

Y V Koshkarev and M A Stepanov.....424

[Personification of criterial resource validation and scientific and technical support for the life cycle of vertical transport](#)

A Prusov, N Sevryugina and A Ovsienko.....428

[Particular features of the load-bearing elements of rigging lifting systems](#)

A Verschinskiy, P Gorokhov and A Shubin.....434

[Stiffness design of machine tools structures by topology management optimization approach](#)

D M Dimitrov, S D Slavov and K K Yordanov.....440

[Increase of compliance of shock absorbers with cut shells](#)

I Shatskyi and A Velychkovych.....446

[Modelling and improvement of the design of hinged centralizer for casing](#)

I Shatskyi, I Vytvytskyi, M Senyushkovych and A Velychkovych.....452

[Methods for modernization of processing equipment](#)

M D Iordache, A Costea and C Malea.....458

[Vibrodynamic mechanism control automation in soil compacting machine](#)

A F Tikhonov.....464

[Analysis of the influence of the aspect ratio on the vertical axis wind rotor performance](#)

I Rabei and M Gutu.....470

[Experimental study of acoustic performances of reactive engine mufflers](#)

C Bujoreanu, A Tufescu, M Benchea and G Ianuș.....476

[Making a device for forced crystallization in magnetic and electric environment](#)

L Mândrea, C Constantinescu and Z Marosy.....482

[The error assessment in case of using two models for the displacement of a linear spring](#)

R Ibanescu and M Ibanescu.....488

[Adaptive drive and adaptive mechanisms of technological machines](#)

M A Lemeshko, A V Kozhemiachenko and A G Iliev.....494

Innovation, Creativity, Learning and Education in Engineering

[Innovative technical implementation of the Schumann resonances and its influence on organisms and biological cells](#)

S Danho, W Schoellhorn and M Aclan.....500

[Mapping of industrial innovations of the fifth technological mode within the framework of industrial park structures of the Sverdlovsk region](#)

A E Plakhin, I N Tkachenko, M V Kompaneets and P V Mihajlovskij.....506

[Dynamics of employers' costs for the implementation of the dual model in industrial sectors](#)

E S Ogorodnikova, A Yu Kokovikhin, L G Creciun and T V Kochergina.....511

[Study to increase the quality of the scientific research process](#)

S S Ghimisi and D Nicula.....516

[Development of a digital learning platform for the planning of manufacturing processes](#)

M Hartmann, A Nestler, D Wohlrabe, F Arnold, J Hoffmann and E Wenkler.....522

[Analysis as the starting point for the development of scientific research](#)

B Oroian, I Condrea, A Hrituc, C Botezatu, M Etcu and L Slătineanu.....528

[A neural network application for the estimation of the probability of leaving a working place](#)

A Ene and C Stirbu.....534

[Personal development in the knowledge-based economy](#)

C Pirnau, L D Ghiculescu and N I Marinescu.....539

[Implementation of tool-technical base of agile manufacturing in Russian industry](#)

E A Gromova.....545

[Use of structural design and analysis software for master degree education in mechanical engineering fields](#)

C Debeleac.....551

Industrial and Product Management, Quality and Evaluation

[Application of the FMEA method for the assessment of technical safety levels](#)

Adam Górný.....557

[Development of the production system through lean management tools](#)

A E Plakhin, S M M Al-Ogaili, I I Semenets, T V Kochergina and P V Mihajlovskij.....563

[Ishikawa diagram applied to identify causes which determines bearings defects from car wheels](#)

L Luca and T O Luca.....568

[Analysis of information and information flow in technological processes. Method of transmitting information unaltered](#)

N Anton and A Nedelcu.....574

[Quantitative measurement of the quality of a social economy project](#)

D Marcu, M Costoiu, A Semenescu, A Ioana and D Tufeanu.....580

[Industrial processes efficiency and lower energy consumption initiatives through advanced retrofitting in the wood industry](#)
