Annual Session of Scientific Papers "IMT ORADEA 2019"

30–31 May 2019, Oradea, Felix SPA, Romania

Accepted papers received: 13 June 2019
Published online: 17 September 2019

Preface

Annual Session of Scientific Papers "IMT ORADEA 2019"

Peer review statement

Papers

Multi-body system simulation of the sun trackers used for PV panels

C Alexandru.....1

Metal coin error study using 3D modelling and FEM Analysis

C C Gavrila and M T Lates.....6

Pedestrian visibility at night: the influence of the pedestrian clothing and the defective headlamp of the car

B C Benea, D D Trusca, G R Toganel and A I Radu.....11

Focusing device based on overconstrained mechanism

L D Racila, I Dumitru, D Tutunea, L Matei, I Geonea, O Otat and M Racila.....16

Organizational factors that influence job satisfaction in a company from automotive industry

G M Moraru and D Popa.....22

Bush chain friction depending on speed and influence of centrifugal effect

R Velicu.....30

The dynamic capabilities framework implementation in innovation and creative ecosystems

E Avram, S Avasilcai, C A Hutu and A Bujor.....35

NI LabVIEW based camera system used for gait detection

D Salánki and K Sarvajcz.....40

Optimization methods of the industrial robots' trajectory

M Ratiu, G Grebenisan, M A Prichici and S Bogdan.....45

Digital world of co-creation: strategy and process

A Bujor, S Avasilcăi, C A Hutu and E Avram.....50

Modeling the mechanical and electrical characteristics of the synchronous motor for different variations of torque in time

C Cristea and I Stroe.....55

Assembly project management of a suspended conveyor

F S Blaga, I Stănăşel, A Pop, V Hule and D Craciun.....61

Computation of a torsion spring stabilizer bar rigidity and fatigue resistance

I Geonea, N Dumitru, A Rosca, N Craciunoiu, L Racila and C Copilusi.....66

Lead time reduction and increasing productivity by implementing lean manufacturing methods in cnc processing center

I C Gherghea, C Bungau and D C Negrau.....72

Manufacturing based on feature recognition using NX

I Stănăşel, F S Blaga and T Buidoş.....77

Considering constructive-functional optimization as a stage of product design in industrial practice

V. F. Banciu, E. Pământaş and D. I. Ioaniciu.....82

Kinematics analysis of the swash plate mechanism

S Alaci, R D Pentiuc, F-C Ciornei, F Buium and O T Rusu.....87

The study of the motion of a gyroscope without rotational symmetry

F-C Ciornei, S Alaci, R D Pentiuc, C Bujoreanu and O T Rusu.....92

Dynamic simulation of the adaptive sun tracking system used for an electric unmanned ground vehicle

C Alexandru.....97

8D complaint solving method in an automotive component processing company

E S Muncut, L I Culda, G M Erdodi and G Sima.....102

Kinematic modeling of a 6R industrial robot

M Ratiu, A Rus and M L Balas.....107

Analysis of the movement of an exoskeleton for the upper limb

I A Tătulea and C N Drugă.....112

Surface roughness measuring in case of electro-erosion processed work pieces

D Popescu and I Geonea.....117

Estimation of braking capability for two distinct auxiliary engine brake systems paired with an exhaust brake

I C Manolache-Rusu, M Glovnea and C Suciu.....122

Sustainable mobility as a result of peoples' awareness on environmental problems generated by transport activity

G Mitran, S Ilie, S V Igret and S Mihailescu.....127

Tribological properties of the PA46 and Teflon added PA46 polyamides

M T Lates.....132

Experimental research on Diesel Particle Filter (DPF) in relation to the fuel type

B M Jurchiş, A I Borzan and D L Băldean.....137

Reducing NOx emissions from diesel engines supercharged with pressure wave compressor driven by the electric motor

C I Leahu and S Radu.....143

Methods of project management used in small and medium enterprises

G M Moraru and D Popa.....148

Performance evaluation of the support bush manufacturing line by modeling and simulation

F S Blaga, I Stănăşel, A Pop, V Hule and T Buidos.....153

Concepts and tools used to manage industrial manufacturing processes optimization

F. V. Banciu and E. Pămîntaş.....158

Use of dual numbers in kinematical analysis of spatial mechanisms. Part II: applying the method for the generalised Cardan mechanism

S Alaci, R D Pentiuc, I Doroftei and F C Ciornei.....164

Use of dual numbers in kinematical analysis of spatial mechanisms. Part I: principle of the method

F C Ciornei, S Alaci, R D Pentiuc and I Doroftei.....169

Mechanical design and 3D printing process of an exoskeleton used for elbow joint rehabilitation

I A Tătulea, C N Drugă and I Şerban.....174

Study of the mechanical and electrical characteristics of the synchronous motor with varying resistive torque

C Cristea and I Stroe.....179

Influence of the silent chain link geometry on the link / chain guide contact

M T Lates and C C Gavrila.....185

Vibrations influence on the operation of gears

V Ionica, M Stanescu, C Miritoiu and I Geonea.....190

Experimental design for *Diesel supply control* in order to improve fuel efficiency

A I Borzan and D L Baldean.....196

A brief assessment of outliers and malfunctions detecting techniques with an application on lubricant condition monitoring

G Grebenişan, S Bogdan, N Salem and D C Negrău.....202

Analysis of the dynamics of road accidents in Sibiu county, Romania, in the period 2010-2018

L Tarnu and C Deac.....208

Experimental research regarding some dynamic parameters determination for sandwich bars reinforced with carbon fiber

C M Mirițoiu, C O Burada, D F Tărâță, A Bolcu and V Ionică.....213

Considerations on the road safety situation in Sibiu county, between 2010 and 2019

A Gligor.....218

Aspects regarding corrosion and mechanical tests for metallic parts obtained by Powder Metallurgy

A Didu, I Pascu, S Gheorghe and C Rotea.....223

Introduction to the research of uncertainty in logistics management

Ł Marzantowicz and I Dembińska.....228

Key assumptions of energy-consumption analysis for the functioning of a logistics center

I Dembińska and Ł Marzantowicz.....233

Numerical analysis of the SOC factor variations' influence on the autonomy of an electric vehicle

L Scurtu, B O Varga, F Mariasiu, T Buidin, Adela Borzan and D Moldovanu.....238

Numerical study on the effects of using different concentrations of FAME blends on the spray structure of the injection process

M S Motogna, D Moldovanu and F Mariasiu.....243

Intake and exhaust pipe optimization for an internal combustion engine

V B Magdas, D Moldovanu and D C Mastan.....248

Structural and mechanical properties of TiMnSnAlZrC alloy sintered in different ways

S Gheorghe, I Pascu, C Nicolicescu and A Didu.....254

Flow studies on increasing the efficiency of the inlet manifold

D Moldovanu, A Csato and N Bagameri.....262

Refueling strategies of autonomous hybrid vehicles

M Zöldy, S Szalay, Z Szalay and I Zsombók.....267

Study regarding the influence of passive safety systems on the occupant in the case of Automatic Emergency Braking System activation

A I Radu, D D Trusca, G R Toganel and B Benea.....272

The study of the car's stability using a simplified model

L Simniceanu.....277

Numerical analysis of the influence of mechanical stress on the battery pack's housing of an electric vehicle

L Scurtu, I Szabo, F Mariasiu, D Moldovanu, L Mihali and Ancuta Jurco.....283

Exploring the insights of a consignment stock program implementation in a leagile supply chain

M Faur and C Bungau.....288

Vehicle dynamics influence on traffic safety in case of a certain route deceleration

O V Oțăt, V Oțăt, L Racilă, I Geonea and D Tutunea.....293

Notes on the possibilities and limitations of using topological tools in mechanical modeling of media

G Lámer.....298

Notes on the possibilities and limitations of using metrical tools in mechanical modeling of media

G Lámer.....306

Restoration and PLC control of a robot cell compatible MP-11 industrial manipulator platform

G Hegyi, T I Erdei and G Husi.....316

Restoration and PLC control of a material handling MP-9S industrial manipulator platform

P P Horváth, T I Erdei and G Husi.....321

CodeSys modeling of an industrial cell, and linear drive control with PLC & ATmega2560 microcontrollers for testing and improvement purposes

T Pajkos, T I Erdei and G Husi.....326

CodeSys based HMI design and sensor upgrades for a PLC and Atmega2560 controlled industrial conveyor

R Varga, T I Erdei and G Husi.....331

Some aspects of gas meter quality and analyzing the sustainability of a gas meter element

P Ilea, D Săvescu and A Stoica.....337

The theoretical bases and study parameters with FEA application approach on a bending tool design

D C Negrău, G Grebenişan and T Vesseleny.....343

An optimization approach by Finite Element Analysis, using Design of Experiments and Response Surfaces- a survey

D C Negrău, G Grebenişan and C Gherghea.....348

Research about the quality of the surface after turning out of duralumin alloy

I Pascu, I Popescu, S Gheorghe, I. Geonea and A Didu.....353

Considerations on the influence of the moment of inertia on the movement of a vehicle

M Trotea, A Constantinescu and A E Romanescu.....358

Developing a real-time accuracy monitoring system for industrial robot arms based on lean principles

Zs Molnár, G E Cascio, G Husi and E G Szűcs.....363

The assessment of the financial performance based upon ratios. A comparative analysis

M B Tudose and S Avasilcai.....368

Digital twins of mechatronic machine tools for modern manufacturing

A A Kutin, V V Bushuev and V V Molodtsov.....374

The structure of a sliding sensory system for a self-adaptive prehensor

I C Frincu and I Stroe.....380

Analysis of tribological damages of plain bearings

S Sovilj-Nikić, B Sovilj, G Varga, R Antunović and N Ungureanu.....385

The calculus of the temperatures in the characteristic points of the gasoline direct injection engine cycle

V Blaga, T Mitran, G Dragomir and D Făgădar.....390

Pedestrian visibility at night: the influence of the pedestrian clothing and the defective headlamp of the car

B C Benea, D D Trusca, G R Toganel and A I Radu.....395

Application of thermogravimetric analysis for thermal characterization of walnut oil and biodiesel

D Tutunea, D Ilie, L Racila, I Geonea, O Otat and L Matei.....400

Experimental research regarding the influence of AdBlue solution temperature on internal combustion engines pollutants

D M S Capătă, M F Popa, N Burnete and M L Ungureşan.....405

Dynamic Analysis of a Human Ankle Joint Prosthesis

C Copilusi, N Dumitru, A Margine and I Geonea.....410

Experimental data collection system for reading pressure levels in a vacuum environment

D I Tarcă, L Csokmai, O Moldovan, R Ghincu and D Potrovită.....416

A neural networks approach of process fault diagnosis using time series collected data through oil condition monitoring

G Grebenişan, N Salem, S Bogdan and D C Negrău.....421

Parameterized optimization analysis with finite elements, using ANSYS®, of a reference point under a torque action

F G Marian and G Grebenisan.....427

Designing and realization an ECG based the Arduino Mega 2560 development board

A I Tătaru and C N Drugă.....432

Concept and premises of the logistic management model in conditions of uncertainty - research approach

Ł. Marzantowicz and I. Dembińska.....437

Basic effects types of logistic infrastructural investments - theoretical approach

I Dembińska and Ł Marzantowicz.....442

Approaching the labor market from a generational perspective

D Pop and M T Pop.....447

Focusing Device Based on Overconstrained Mechanism

L D Racila, I Dumitru, D Tutunea, L Matei, I Geonea, O Otat and M Racila.....454

Challenges of digitalization process in different industries. Before and after

V C Vartolomei and S Avasilcai.....459

The effect of changing training data on a fixed deep learning detection model

A N Nasser, A Alsabbagh and H Géza.....464

The state of stress and deformation by the finite element method of the mechanical structure for a self-adaptive prehensor

I C Frincu and I Stroe.....469

Strategic Communication Process: Support for Performance Measurement and Popularization of SMEs Innovations – I

A Hulubei (Georgescu) and S Avasilcăi.....474

Strategic Communication Process: Support for Performance Measurement and Popularization of SMEs Innovations – II

A Hulubei (Georgescu) and S Avasilcăi.....479

An overview of strategic issues in the evolution of its industry

N Bagiu, S Avasilcăi and L Alexa.....484

Study regarding the implementation of an Ackerman steering geometry in MATLAB

D Moldovanu, A Csato and N Bagameri.....489

Aspects of wear braking process on brake discs and brake pads in the construction of commercial vehicles

M F Popa, D M S Capătă and N Burnete.....494

Comparison of heating system alternatives for a rural house employing analytic hierarchy process

C Cristea, M Cristea and R Tirnovan.....502

The assessment of pedestrian's head injury risk at the contact with the vehicle's hood

H Beles, B A Tolea, G F Crisan, C A Dogar and V V Ciotachiev.....507

Improving the engineering education system – a students' perception

C P Simion, G C Slusariuc, R D Stanciu and O Bucovetchi.....512

The implementation of an adaptive traffic light concept in regards to tram access in a complex intersection

S Bogdan, G Grebenisan, D A Ulica and M Ratiu.....517

Python-Based Data Analysis Tool for a 6-DoF Industrial Robot

A Alsabbagh, A N Nasser and G Husi.....522

Comparative analysis of different heating systems based on the surface area of a household

C Cristea, M Cristea, R Tirnovan and C Fagarasan.....527

Design of a device for testing and analyzing the friction coefficient during metal cutting

I Tamaşag, D Amarandei and I Beşliu.....532

Research on designing a manufacturing cell for the Disk Limiter

C I Indre, F S Blaga and C Miculaş.....537

Application of new data formats for electronic document management in government bodies

V Pysarenko, L Dorohan- Pysarenko and N Kantsedal.....542

The method of identity verification when signing electronic documents based on biometric means of identification

V Pysarenko, L Dorohan-Pysarenko and N Kantsedal.....548

Using "GUI" programming environments to calculate the level of service at intersections

I Dumitru, L D Racila, L Matei, D Tutunea and B S Florescu.....555

Rapid filament prototyping of a bionic hand

L I Culda, E S Muncut and A Komjaty.....561

Using virtual inductive loops to adapt the signal plans of junctions

L Matei, I Dumitru, L D Racila, D Tutunea and A C Oprica.....566

Designing and Implementing Control panel for Diesel generator

A Alsebai and S Afghan.....571

Urban buses gearbox faults analysis

S C Dan, R D Mureşan and N Burnete.....577

Video analysis system of the gait cycle and posture of people wearing high heels

M. I. Baritz.....582

Research on the relationship between chromatic vision and biomechanics of the posture and the gait cycle

M. I. Baritz.....587

Research of CFR SI Engine and Dacia single cylinder SI engine equipped with LASER and Classical Spark Plug

B G Done and I Copae.....592

Comparative research results of CFR Octane Rating Unit Engine and Dacia Single Cylinder SI Engine equipped with classical Spark Plug and LASER Ignition

B G Done and I Copae.....597

Analyzing the sustainability of an automotive component using SolidWorks CAD software

C Torcătoru and D Săvescu.....602

Design and development of a virtual model of an electric vehicle of category L7

C M Pappalardo, N Lombardi, P V Dašić and D Guida.....607

Modeling techniques for kinematic analysis of a six-axis robotic arm

R Guida, M C De Simone, P Dašić and D Guida.....613

Ensuring the adequacy of neural network models based on the optimization of test volumes

S Kovalevskyy, O Kovalevska, I Tasić, R Cvejić and A Koshevoy.....619

Using wave signatures for identifying mechanical objects

S Kovalevskyy, O Kovalevska, A Koshevoy and I Tasić.....625

Increase of operational properties of tools and machine parts nitriding the powder mixture

V O Kostyk, K O Kostyk, V D Kovalov, R Turmanidze and P Dašić.....630

The technique of designing high-power CNC lathes for enterprises of the heavy engineering industry

V Kovalov, Y Vasilchenko, R Turmanidze, P Dašić, T Sukova and M Shapovalov.....636
