Volume 595

The XXIIInd National Conference on Thermodynamics with International Participation

23–24 May 2019, Galati, Romania

Accepted papers received: 11 July 2019

Published online: 20 September 2019

Preface

[Preface](#)

[Peer review statement](#)

Papers

Applied thermodynamics, Heat and mass transfer, Fluid dynamics and CFD

[Application areas and calculation method for capillary-porous heat exchangers of the new heat-removing class](#)

A Genbach, N Jamankulova and I Iliev.....1

[Experimental validation data for CFD of heat transfer processes in a heat exchanger thermosyphon type with complex geometry](#)

A K Terziev, C I Iliev, I K Iliev, I H Beloev and E V Velkov.....8

[Finite elements analysis of mass transfer and mechanical processes in ceramic ware at convective drying](#)

N Y Penkova, B M Mladenov and K S Krumov.....18

[Analytical and numerical investigation of heat exchange in fin-tube refrigerating heat exchanger](#)

M Georgieva, P Raynov, D Atanasov and I Tashev.....27

[Numerical analysis of the transient heat transfer in high temperature chamber furnaces](#)

K S Krumov and N Y Penkova.....36

[Numerical Modelling of Heat Transfer in Convective Pipes by ABAQUS](#)

Zh D Kolev and S Y Kadirova.....44

[Research of the heat transfer crisis and limit state of the heat exchange surface covered by capillary porous medium](#)

A A Genbach, K K Shokolakov, D Y Bondartsev and I Iliev.....52

[The E4 brickhouse of Romania – a local proved nZEB](#)

E C Mladin.....59

[Two-dimensions finite-difference heat transfer study for a single borehole heat storage system during a seasonal charge-discharge cycle](#)

B Horbaniuc, G Dumitraşcu and A Dumencu.....71

[Behaviour of transmission and distribution networks with big consumption, the stress test](#)

C N Eparu, S Neacsu, A P Prundurel, R Radulescu and A Neacsu.....82

[Development of the highly boosted capillary porous foam generator for gas \(steam\) mechanical foam](#)

A A Genbach, K K Shokolakov, I K Iliev and A K Terziev.....94

[Investigation of the energy consumption in regulating the flow rate of fan systems](#)

G S Popov, K V Klimentov and B Z Kostov.....102

[Numerical study of the heat transfer and flow characteristics of heat pipes](#)

A Huminic and G Huminic.....111

[Oxy-combustion simulation of ethylene](#)

S Grigorean, G Dumitrascu and S Predoi.....118

[Research on the fire endurance of the silica sand membrane](#)

A Kaya, S Çelen and U Akyol.....124

[Thermal - fluidics behaviour of water mist and gas fuel flame jets based on experimental results](#)

D Pavel, A Chisacof, S Dimitriu and P Cozma.....131

[Comparative analysis of the study of microclimate parameters in wooden houses in North-Eastern Bulgaria](#)

P Zlateva and K Yordanov.....140

[The melting temperature of BCC perfect ternary alloy FeCrC under pressure](#)

C D Tran, G Coman, H Q Nguyen, H T Nguyen and V Q Dinh.....148

[Thermodynamic properties of interstitial alloy FeC with BCC structure under pressure](#)

H T Nguyen, C D Tran, G Coman, H Q Nguyen and V Q Dinh.....155

[Heat exchanger design based on minimum entropy generation](#)

S Bucsa, D Dima, A Serban, M-F Stefanescu, V Popa and A Dobrovicescu.....161

Refrigeration and heat pumps, Power plants and CHP, Internal combustion engines

[Analysis of a high-pressure screw compressor performances](#)

C N Eparu, A Neacsu, A P Prundurel, R Rădulescu, C Slujitoru, N Toma and M Nitulescu.....169

[Thermodynamic analysis of irreversible closed Brayton engine cycles used in trigeneration systems](#)

G Dumitrascu, M Feidt, A R J Namat, Ş Grigorean and B Horbaniuc.....179

[Design analysis of low pressure distillation column for cryogenic air separation](#)

M Pintilie, A Serban, V Popa and C L Popa.....187

[Design of air cooling unit with PCM](#)

Ç Susantez, E Akyol, O Hacıhafızoğlu and U Akyol.....194

[Entropic model and optimization of a refrigeration machine](#)

M Feidt, M Costea, C Stanciu and D Stanciu.....202

[Analysis of a proportional pressure regulator](#)

M Avram, M-F Stefănescu, A Serban, A Dobrovicescu and B Grănescu.....209

[Evaluation of the thermal comfort for its occupants inside a vehicle during summer](#)

P Danca, I Nastase, F Bode, C Croitoru, A Dogeanu and A Meslem.....218

[Heat transfer characteristics of a gas cooler](#)

D Dima, S Bucsa, C Ionita, E E Vasilescu, A Dobrovicescu and E Niculae.....230

[Kinematic Beta-Type Stirling Motor-Driven Compressor](#)

V M Homutescu, D T Bălănescu, C E Panaite and A G Lupu.....239

[Modelling of CO₂/acetone fluid mixture thermodynamic properties for compression/resorption refrigeration systems](#)

R J B Moreira-da-Silva, D Salavera and A Coronas.....247

[Theoretical and experimental features of the thermodynamic process in oil injection screw compressors](#)

S Neacsu, C N Eparu, S Suditu, A Neacșu, N Toma and C Slujitoru.....260

[Hydrogen a new fuel for internal combustion engines](#)

D Gheorghe, D Tutunea, M Bică, A Gruia and M Calbureanu.....269

[A review of hydrogen/diesel fuel blends in internal combustion engines](#)

D Gheorghe, D Tutunea, M Bică, A Gruia and M Calbureanu.....277

[A review of new technologies in valve systems of internal combustion engines and their effects](#)

D Akal, U Akyol and K Uzuneanu.....281

[Experimental study of NO_x and CO₂ emissions at load regimes for a passenger car powered by direct injection diesel engine](#)

S M Burciu and G Coman.....288

[Prediction of spark ignition engine fuel consumption for different functional conditions using a theoretical model](#)

V Vornicu, T Ulian, E Rakosi, G Manolache and S Talif.....296

[Reducing CO₂ emissions from tractor engines by using the diesel fuel and rapeseed oil blend](#)

S M Burciu, M Lupchian and M Neacsu.....304

[Reducing NO_x emissions from tractor engines by using the diesel fuel and rapeseed oil blend](#)

G Coman, S M Burciu and M Lupchian.....313

[Study of the thermal stability of biodiesel and diesel fuel](#)

D Gheorghe, D Tutunea, M Bică, A Gruia and M Călbureanu.....321

[Study on performance of an innovative power system for hybrid propulsion consisting in a gas turbine with heat exchanger and steam turbine](#)

D T Balanescu, V M Homutescu, C E Panaite and A Popescu.....326

[About Structural and Thermal Analysis of Diesel Engine Piston Using Ansys Software](#)

M Frătita, F Popescu, K Uzuneanu, I V Ion and C M Anghelută.....333

Renewable energy, Energy use and storage, Environmental impact of energy conversion

[Aerodynamic and structural analysis of a small-scale horizontal axis wind turbine using QBlade](#)

D Zahariea, D E Husaru and C M Husaru.....339

[Analysis of the terrain specifics and roughness factor on the wind shear over complex terrains](#)

A K Terziev.....347

[Basic geometric and physical parameters of pumpkin seeds](#)

D Atanasov, M Georgieva, I Kiryakov and V Rulev.....357

[Correlations between kinetic and thermodynamic parameters of the extraction of tobacco leaves](#)

S Tasheva, V Gandova, V Popova, T Ivanova, S Damyanova and A Stoyanova.....363

[Determining the expenses for heating of a residential building using different energy sources](#)

G Komitov, V Rasheva and I Binev.....371

[Effect of yaw angle on the global performances of Horizontal Axis Wind Turbine - QBlade simulation](#)

D E Husaru, P D Bârsănescu and D Zahariea.....378

[Modelling and simulation of a hydraulic system used for wind turbines](#)

R-I Pelin and I Tita.....388

[Numerical analysis of the influence of the lower hull angle of a round skirtless air cushion vehicle](#)

M S Pavăl, A Popescu and D Zahariea.....397

[Trifold PV-T-TEG \(photovoltaic-thermal-thermoelectric generators\) panel characterization overview](#)

A G Lupu, C E Panaite, V M Homutescu, D T Balanescu and A Popescu.....408

[Energy characteristics of the char obtained by two steps pyrolysis of chicken manure](#)

E Pop, L Mihăescu, G Lăzăroiu, I Pîsă, G Negreanu and V Berbece.....420

[Equilibrium moisture content of pumpkin seeds](#)

I Kiryakov, M Georgieva and D Atanasov.....428

[Wastewater sludge to energy production. A review](#)

N Vatachi.....433

[Examination of natural noise signals: preliminary results for aquatic environment](#)

H Zhivomirov and I Nedelchev.....444

[Generating structural, interactional and processual order through synergetic entanglement is the essence for understanding and using Quantum Biological Thermodynamics with Finite Speed of the Cardio-Pulmonary System](#)

S Petrescu, M Costea, V Petrescu, R Bolohan, B Borcila and M Feidt.....453

[Investigation of the effect of drying air temperature on drying time by numerical method for textile bobbins](#)

U Akyol, A Karakoca, R Shaliyev, D Akal and K Uzuneanu.....461

[Kinetics coefficients of solid-liquid extraction of resinoid from tobacco leaves](#)

S Tasheva, V Popova, T Ivanova, A Stoyanova and G Valtchev.....469

[Sorption characteristics of subtropical fruit – Lucuma powder](#)

A Durakova, A Bogoeva, R Krasteva, T Gogova, A Krasteva and N Georgieva.....478

[Effects of wind speed, relative humidity, temperature and air pressure on PM10 concentration for an urban background area](#)

S Paraschiv and L S Paraschiv.....484
