# 2019 2nd World Conference on Mechanical Engineering and Intelligent Manufacturing (WCMEIM)

# WCMEIM 2019

## Table of Contents

**WCMEIM 2019 Preface** ..... **xxiii**
**WCMEIM 2019 Conference Organization** ..... **xxiv**
**WCMEIM 2019 Reviewers** ..... **xxviii**

## Mechanical Analysis

Thermal and Structural Analysis of the Nuclear Explosive Device ..... 1
*Zheng-Ming Gao (Jingchu University of Technology, China), Juan Zhao (Jingchu University of Technology, China), Su-Ruo Li (Jingchu University of Technology, China), and Yu-Rong Hu (Jingchu University of Technology, China)*

Sinusoidal Pressure Generator Contraction Section Simulation Analysis ..... 6
*Chenyang Zhao (Beihang University, China), Yinfeng Wu (Beihang University, China), Junzhou Li (Beihang University, China), Jing Nie (Beihang University, China), Xiaofeng Meng (Beihang University, China), and Yang Yu (University of Technology Sydney, Australia)*

Research and Structural Optimization of Heat Dissipation Performance of Plate-Fin Heat Exchanger ..... 12
*Li Xiaoxiang (Tongji University, China), Wang Anlin (Tongji University, China), and Liu Fumin (Qingdao University of Science and Technology, China)*

Effect Analysis of Skidding Damage on Cylindrical Roller Bearing Performance Based on Model and Experimental Study ..... 16
*Gao Qing-Zhen (Anhui Polytechnic University, China), Ma Li (Cheng Du Bureau of the Air Force, China), Pan Dao-Yuan (Anhui Polytechnic University, China), and Xiao Ping (Anhui Polytechnic University, China)*

Simulation Analysis of Electromagnetic Vibration of Rotor Compressor Motor Based on Modal Superposition Method ..... 21
*Mingxu Ren (Zhuhai Landa Compressor Co. , Ltd., China), Hui Shen (Zhuhai Landa Compressor Co., Ltd., China), Wanjie Sun (Zhuhai Landa Compressor Co. , Ltd., China), and Haishui Jin (Zhuhai Landa Compressor Co., Ltd., China)*

Numerical Analysis of Energy Separation in Vortex Tube with Various Nozzles ..27
*Fan Gao (University of Shanghai for Science and Technology, China), Zhuohuan Hu (University of Shanghai for Science and Technology, China), Yang Gao (University of Shanghai for Science and Technology, China), Rui Li (University of Shanghai for Science and Technology, China), and Mo Yang (University of Shanghai for Science and Technology, China)*

Research on the Thermodynamic Analysis of Ultrashort Laser Pulses Acting on the Silver ..31
*Wang Yuan (Shanghai University of Engineering Science, China) and Cheng Xiaojing (Shanghai University of Engineering Science, China)*

An Efficient Structure Stiffness Topology Optimization Strategy under Crash Loads Using Reduced Equivalent Static Loads Method ..37
*Gao Zhengang (Ordos Institute of Technology, China) and Ren Chun (Ordos Institute of Technology, China)*

Axial Contact Stiffness Analysis of the Ball Screw for Aerospace Electromechanical Servo System ..45
*Hongwei Li (Beijing Institute of Precision Electromechanical Control Equipment, China), Jinpeng Yang (Beijing Institute of Precision Electromechanical Control Equipment, China), and Yu Li (Beijing Institute of Precision Electromechanical Control Equipment, China)*

Energy Saving and Optimal Loading Analysis of Ship Trim ..50
*Chaocheng Hu (Wuhan University of Technology, China), Ruiping Zhou (Wuhan University of Technology, China), Rukun Ma (Wuhan University of Technology, China), and Yibo Gao (Wuhan University of Technology, China)*

Design and Research of the Load Device for Simulating the Product on the Rocket Based on the Finite Element Life Analysis ..54
*Hongwei Li (Beijing Institute of Precision Electromechanical Control Equipment, China), Jinpeng Yang (Beijing Institute of Precision Electromechanical Control Equipment, China), and Yu Li (Beijing Institute of Precision Electromechanical Control Equipment, China)*

A Lock Unit and Interlocking Device for Electrostatic Precipitator ..59
*Jingsong Zeng (Anhui Technical College of Mechanical and Electrical Engineering, China) and Yuhan Zeng (Anhui Palm Network Technology Co., Ltd., China)*

Analysis on the Impact Factors of Auxiliary Bearing in Vertical Magnetic Bearing ..64
*Yanan Kong (Henan University of Science and Technology, China), Yujun Xue (Henan University of Science and Technology, China), Jun Ye (Henan University of Science and Technology, China), Yongjian Yu (Henan University of Science and Technology, China), Xiaoyan Tie (Luoyang Bearing Research Institute Co., Ltd., China), Yanjing Yin (Luoyang Bearing Research Institute Co., Ltd., China), and Haotian Zheng (Luoyang Bearing Research Institute Co., Ltd., China)*

A Modified Differential Evolution Algorithm for Constrained Optimization Problems ..69
*Weitian Li (Guangdong University of Technology, China) and Baisheng Wu (Guangdong University of Technology, China)*

Analyses and Application of Conductor's Tension Stringing Layout for Large-Angle Turning ..... 73
*Wenchuan Jing (Sichuan Electric Power Transmission and Transformation Construction Co., Ltd., China), Gang Li (Sichuan Electric Power Transmission and Transformation Construction Co., Ltd., China), Kui Luo (Southwest Jiaotong University, China), Baigen Li (Sichuan Electric Power Transmission and Transformation Construction Co., Ltd., China), Xu Chen (State Grid Sichuan Electric Power Company, China), and Chaoming He (Southwest Jiaotong University, China)*

Research on Dynamic Oil-Filling Characteristics of DCT Clutch System ..... 80
*Xinqiang Fan (Shanghai University, China), Yongyi He (Shanghai University, China), and Pengfei Cheng (Shanghai University, China)*

Cross Fracture Simulation Based on Cohesive Element ..... 85
*Zhen Zhong (Yangtze University, China), Zhong-xi Zhu (Yangtze University, China), Wan-neng Lei (Tarim Oilfield, China), and Yu-tang Jin (Zhonghai Aipu Oil and Gas Test Co., Ltd., China)*

Research on Fatigue Reliability of Knotter Frame ..... 90
*Wei Ma (Inner Mongolia University of Technology, China), Hai-Tang Cen (Inner Mongolia University of Technology, China), Qin Zeng (Inner Mongolia University of Technology, China), Pei-Wen Li (Inner Mongolia University of Technology, China), and Ling Li (Inner Mongolia University of Technology, China)*

The Model and Damping Analysis of Disk Gyroscope with (100) Single Crystal Silicon ..... 99
*Yixuan Li (Nanjing University of Science and Technology, China), Chen Lin (Nanjing University of Science and Technology, China), Zhichao Yao (Nanjing University of Science and Technology, China), and Yan Su (Nanjing University of Science and Technology, China)*

Analysis and Optimization of Mechanical Seal Water Joint Failure ..... 103
*Zhang Youan (Nanjing Research Institute of Electronics Technology, China)*

Analysis of Influence of Baffle Height on Liquid Sloshing Characteristics in Tank ..... 109
*Tu Jiaoyang (Zhe Jiang Ocean University, China), Wenfeng Wu (Zhe Jiang Ocean University, China), Gao Jialin (Zhe Jiang Ocean University, China), Wang Xuxiu (Zhe Jiang Ocean University, China), and Yang Yubin (Zhe Jiang Ocean University, China)*

Analysis of Influence of Baffle Number on Liquid Sloshing Characteristics in Tank ..... 113
*Yang Song (Zhe Jiang Ocean University, China), Wang Shuaijun (Zhe Jiang Ocean University, China), Wenfeng Wu (Zhe Jiang Ocean University, China), Tu Jiaoyang (Zhe Jiang Ocean University, China), Gao Jialin (Zhe Jiang Ocean University, China), Zhang Jiakuo (Zhe Jiang Ocean University, China), Zhen Changwen (Zhe Jiang Ocean University, China), and Wang Xuxiu (Zhe Jiang Ocean University, China)*

Experimental Analysis of the Effect of Cargo Viscosity on Sloshing in Tank ..... 117
*Wang Chenliang (Zhe Jiang Ocean University, China), Wang Weijun (Zhe Jiang Ocean University, China), Wu Wenfeng (Zhe Jiang Ocean University, SChina), Zhen Changwen (Zhe Jiang Ocean University, China), Yang Yubin (Zhe Jiang Ocean University, China), Gao Jialin (Zhe Jiang Ocean University, China), Tu Jiaoyang (Zhe Jiang Ocean University, China), Zhang Jiakuo (Zhe Jiang Ocean University, China), Sun Fan (Zhe Jiang Ocean University, China), and Wang Xuxiu (Zhe Jiang Ocean University, China)*

CFD Analysis of Supercritical CO2 Turbine Shaft Supporting Device ..... 121
*Li Lun (Henan University of Science and Technology, China), Zheng Peipei (Henan University of Science and Technology, China), Xu Shiyu (Henan University of Science and Technology, China), Li Jishun (Henan Key Laboratory for Machinery Design and Transmission System, China), Chen Wen (Henan Key Laboratory for Machinery Design and Transmission System, China), Niu Baozhen (Henan Key Laboratory for Machinery Design and Transmission System, China), and Jin Xiyang (Henan Key Laboratory for Machinery Design and Transmission System, China)*

Optimization of Subway Vehicle Interior Structure-Borne Noise Based on Nodal Contribution Analysis ..... 126
*Bu Zheng (Tongji University, China, & Shanghai Key Laboratory of Rail Infrastructure Durability and System Safety, China), Li Li (Tongji University, China, & Shanghai Key Laboratory of Rail Infrastructure Durability and System Safety, China), Liu Cunzhen (Tongji University, China, & Shanghai Key Laboratory of Rail Infrastructure Durability and System Safety, China), and Lei Zhenyu (Tongji University, China, & Shanghai Key Laboratory of Rail Infrastructure Durability and System Safety, China)*

Study on Influence of Lubricating Oil Parameters on Lubrication Characteristics of Ship Stern Bearing ..... 132
*Qiang Yuan (Zhejiang Ocean University, China, & Wuhan University of Technology, China), Yongqiang Lu (Zhejiang Ocean University, China), Ruiping Zhou (Wuhan University of Technology, China), and Xiaofei Wen (Zhejiang Ocean University, China)*

Dynamic Modeling of Quayside Container Crane and Its Vibration Characteristic Analysis under Hoisting Condition ..... 136
*Liu Zhaohang (Tongji University, China), Qin Xianrong (Tongji University, China), Zhang Qing (Tongji University, China), Pan Jie (Tongji University, China), and Ding Xu (Tongji University, China)*

Prediction of Vibration Characteristics of Mechanical Bearing Based on a Novel Grey Model ..... 143
*Sun Yu (Zhejiang Ocean University, China), Yuan Qiang (Wuhan University of Technology, China, & Zhejiang Ocean University, China), Zhou Rui-ping (Wuhan University of Technology, China), and Wen Xiao-fei (Zhejiang Ocean University, China)*

Research on Parameter Optimization of Potato Soil Transportation Separation Mechanism ..... 147
*Bowen Li (Beijing University of Technology, China) and Guohua Gao (Beijing University of Technology, China)*

Dual Method for Problems of Transversely Isotropic Elastic Solids ..151
*Weixiang Zhang (Nantong Polytechic College, China, & Hunan University of Science and Engineering, China) and Weixiang Zhang (Hunan University of Science and Engineering, China)*

Study on Vibration Fatigue Life of Vehicle Radar ..155
*Changming Hu (China Electronics Technology Group Corporation), Weizhong Cao (China Electronics Technology Group Corporation), Qingguo Fei (Southeast University, China), and Weimin Sun (China Electronics Technology Group Corporation)*

Analysis of Hydraulic Hammer Capacity under Different Inclination ..164
*Yin Yaobao (Tongji University, China) and Cai Wenqi (Tongji University, China)*

## Mechanical Design and Machining Technology

Design Improvement and Finite Element Analysis of Ceramic Gas Kiln Steel Structure Frame ..169
*Pan Ming (Guangdong Institute of Special Equipment Inspection and Research, Chaozhou Branch, China), Chen Qinhong (Guangdong Institute of Special Equipment Inspection and Research, Chaozhou Branch, China), Su Hekai (Guangdong Institute of Special Equipment Inspection and Research, Chaozhou Branch, China), and Yang Zhao (Guangdong Institute of Special Equipment Inspection and Research, Chaozhou Branch, China)*

Topological Graph Representation Method to Design Multistage Planetary Differential Gear Trains ..173
*Jungang Wang (East China Jiaotong University, China), Shinnan Yang (East China Jiaotong University, China), Yande Liu (East China Jiaotong University, China), Shengtong Zhou (East China Jiaotong University, China), and Ruina Mo (East China Jiaotong University, China)*

Tooth Dynamic Contact Simulation and Experimental Validation of Involute Spur Gear ..178
*Yanping Liu (Harbin Institute of Technology, China), Xiaohui He (Harbin Institute of Technology, China), Yongqiang Zhao (Harbin Institute of Technology, China), and Ming Liu (Harbin Institute of Technology, China)*

Quantitative Study on the Humping Formation Mechanism of GMAW with Consideration of Varying Viscosity in Molten Pool ..186
*Zhu Yonggang (Anhui Sanlian College, China) and Zuo Yanhong (Anhui Jianzhu University, China)*

Optimization Design and Vibration Characteristics Analysis of Drum Shearer's Haulage Unit ..194
*Xiangkun Song (Tiandi Science and Technology Co., Ltd., Shanghai Branch, China), Hongbing Ge (Tiandi Science and Technology Co., Ltd., Shanghai Branch, China), Liquan Qian (Tiandi Science and Technology Co., Ltd., Shanghai Branch, China), and Xiaoyong Zhang (Tiandi Science and Technology Co., Ltd., Shanghai Branch, China)*

Analysis and Synthesis on the Double Feed Mechanism ..203
*Han Jiguang (Jiangsu Normal University, China) and He Zhenzhi (Jiangsu Normal University, China)*

Numerical Study of Weld Tracking Device with Different Wet Conditions ..209
*Ting Luo (University of Shanghai for Science and Technology, China), Zhuohuan Hu (University of Shanghai for Science and Technology, China), Yiping Ding (University of Shanghai for Science and Technology, China), and Mo Yang (University of Shanghai for Science and Technology, China)*

Structural Design of Drying Chest in Tea Dryer ..214
*Chen Jianguo (Chengdu Agricultural College, China)*

Structural Design and Characteristic Research of Product Vibration Test Fixture Based on High Frequency Response Characteristics ..219
*Hongwei Li (Beijing Institute of Precision Electromechanical Control Equipment, China), Jinpeng Yang (Beijing Institute of Precision Electromechanical Control Equipment, China), and Yu Li (Beijing Institute of Precision Electromechanical Control Equipment, China)*

Vibration Improvement and Dynamic Balance Automatic Optimization of Rotor Compressor ..224
*Zhiqiang Deng (Zhuhai Landa Compressor Co., Ltd., China), Hui Shen (Zhuhai Landa Compressor Co., Ltd., China), Ke Wang (Zhuhai Landa Compressor Co., Ltd., China), and Haishui Jin (Zhuhai Landa Compressor Co., Ltd., China)*

Design of a Smart Storytelling Toy Based on Voice Interaction ..229
*Yihan Ni (Nanjing University of Aeronautics and Astronautics, China) and Yanbin Wang (Nanjing University of Aeronautics and Astronautics, China)*

Parametric Design and Optimization of Eight-Bar Mechanism Based on RecurDyn ..234
*Chen Xiaogang (Nanjing University of Science and Technology, China), Sun Yu (Nanjing University of Science and Technology, China), Zhang Dengfeng (Nanjing University of Science and Technology, China), and Zhang Jun (Yangli Group Corporation Ltd., China)*

Accurate Prediction Method for Energy Consumption in Automatic Tool Changing Process of Computer Numerical Control Lathe ..241
*Shun Jia (Shandong University of Science and Technology, China), Wenxi Yao (Shandong University of Science and Technology, China), and Zhiqiang Wang (Shandong University of Science and Technology, China)*

A Study on the Icon and Layout Design of Device UI in Augmented Reality ..245
*Dan Liu (Chung-Ang University, South Korea, & Hefei Normal University, China) and Jin Wan Park (Chung-Ang University, South Korea)*

Design and Test of Core Components of Two-Plane Rotary Knot ..249
*Yaxin Zhang (Chifeng University, China)*

Simulation Study on the Effect of Fuel Preheating Temperature on Temperature Field and NOx Emission of 130kW Natural Gas Heater ..253
*Zhongwei Zhou (Shanghai University of Engineering Science, China) and Yun Guo (Shanghai University of Engineering Science, China)*

Design of a Low Power Data Collection Node ..257
*Xuesong Liu (University of Science and Technology of China), Jie Wu (University of Science and Technology of China), and Li Wang (University of Science and Technology of China)*

Design of Adaptive Lubrication System for Wind Turbine .262
*Qin Zeng (Inner Mongolia University of Technology, China), Hai-Tang Cen (Inner Mongolia University of Technology, China), Wei Ma (Inner Mongolia University of Technology, China), and Tian-Fang Zhang (Inner Mongolia University of Technology, China)*

Effect of Lap Ratio on Microstructure and Properties of Laser Cladding Ni Based Coating on 45 Steel .269
*Ji Youdi (Shanghai University of Engineering Science, China), Gong Hongying (Shanghai University of Engineering Science, China), Shen Chentong (Shanghai University of Engineering Science, China), Jia Xingpeng (Shanghai University of Engineering Science, China), Zhou Zhiwei (Shanghai University of Engineering Science, China), and Qin Liang (Jiangsu University of Science and Technology, Zhangjiagang Campus, China)*

Model Build and Optimization Design on Powder Compaction .273
*Zhang Zhimin (South China University of Technology), Chen Litao (South China University of Technology), Liu Yajun ( South China University of Technology), Zhang Shenchao (South China University of Technology), and Zuo Chunyang (South China University of Technology)*

Structural Design and Finite Element Analysis of Desktop Stacking Manipulator .278
*Qigao Cheng (Hubei University of Technology, China), Yawei Kang (Hubei University of Technology, China), and Dazhang You (Hubei University of Technology, China)*

Design and Test for Packaging Machine Cutter Based on TRIZ Theory .283
*Juan Huang (Beijing University of Technology, China) and Xiaodong Liu (Beijing University of Technology, China)*

Design and Analysis of Automatic Vegetable Harvesting Machine .287
*Yongzhi Liang (Beijing University of Technology, China) and Guohua Gao (Beijing University of Technology, China)*

Effects of Friction and Lubrication of New Water-Based Nano-Graphite Lubricant and Application during Warm Extrusion Processing .291
*Xiaoyun Zhao (Shanghai University of Engineering Science, China), Hongying Gong (Shanghai University of Engineering Science, China), Xiying Zhou (Shanghai University of Engineering Science, China), Yannis P. Korkolis (University of New Hampshire, USA), Brad L. Kinsey (University of New Hampshire, USA), and Zehuan Liao (Shanghai Dong fu Cold Forging Manufacturing Co., Ltd., China)*

Innovative Design of Seedling Transplanting Mechanism Based on TRIZ Theory .296
*Yuxuan Tian (Beijing University of Technology, China) and Xiaodong Liu (Beijing University of Technology, China)*

Handling Device for Long Cargo: Innovative Design and Emulational Analysis .300
*Bo Dong (Beijing University of Technology, China) and YunSong Du (Beijing University of Technology, China)*

Structure Design and Simulation Analysis of a Discharge Blade in Coating Machine .304
*Zizhao Yang (Beijing University of Technology, China) and Yunsong Du (Beijing University of Technology, China)*

Design and Analysis of a Clamping Clamp of the Transplanter .308
*Weidong Zhao (Beijing University of Technology, China) and Yunsong Du (Beijing University of Technology, China)*

TRIZ-Based Design and Simulation of High Speed End Sealing Device of Packaging Machine .312
*Xu Han (Beijing University of Technology, China) and Liying Su (Beijing University of Technology, China)*

Research on Key Technologies of Oil Mist Lubrication and Residual Fog Recovery .316
*Yunhao Xiao (Beijing University of Chemical Technology, China), Wenbin Liu (Beijing University of Chemical Technology, China), and Dequan Liu (Beijing Anlian Guoke Technology Consulting Co., Ltd., China)*

Simulation of Liquid Atomization in Cyclone Atomizer Based on VOF-DPM Coupling Model .323
*Yunhao Xiao (Beijing University of Chemical Technology, China), Wenbin Liu (Beijing University of Chemical Technology, China), and Dequan Liu (Beijing Anlian Guoke Technology Consulting Co., Ltd., China)*

Design and Analysis of a Novel Miniature Two-Axis Force Sensor .328
*Lv Bohan (China Academy of Launch Vehicle Technology), Wang Xiaoliang (China Academy of Launch Vehicle Technology), Liu Shan (China Academy of Launch Vehicle Technology), Liu Junqin (China Academy of Launch Vehicle Technology), and Zeng Guangshang (China Academy of Launch Vehicle Technology)*

Slicing Principle and Cutter Design for the Arc Internal Tooth of Pin Gear Housing in RV Reducer .335
*Peng Wang (Tianjin University of Technology and Education, China)*

Numerical Optimization and Experimental Study of Cutting Performance with Abrasive Water Jet .339
*Huyan Cao-jing (People's Armed Police Engineering University, China), Hui Qiao-ge (People's Armed Police Engineering University, China), and Jiang Da-yong (People's Armed Police Engineering University, China)*

## Mechatronics

Research on Calculation Method of Internal Resistance of Lithium Battery Based on Capacity Increment Curve .343
*Dongpei Qian (Zhejiang Huayun Technology Information Co., Ltd., China), Jie Hong (Zhejiang Huayun Technology Information Co., Ltd., China), Jionggeng Wang (Zhejiang Huayun Technology Information Co., Ltd., China), Dong Dong (Zhejiang Huayun Technology Information Co., Ltd., China), Yufeng Zhou (Zhejiang Huayun Technology Information Co., Ltd., China), Yu Tian (Zhejiang Huayun Technology Information Co., Ltd., China), Weixiong Sheng (Zhejiang Huayun Technology Information Co., Ltd., China), Junjie Xu (Zhejiang Huayun Technology Information Co., Ltd., China), Xiao Yan (Shanghai Makesens Energy Storage Technology Co., Ltd., China), Zhongcai Liu (Shanghai Makesens Energy Storage Technology Co., Ltd., China), and Dong Liu (Shanghai University of Engineering Science, China)*

Hybrid Trefftz Finite Element Method for the Transversely Isotropic Piezoelectric Material.347
*Huan Liu (Shanghai University of Engineering Science, China) and Keyong Wang (Shanghai University of Engineering Science, China)*

GPS/SINS Speed Integral Matching Alignment Based on Improved Adaptive UKF .352
*Wang Minghang (Jiangsu University of Science and Technology, China) and Liu Wei (Jiangsu University of Science and Technology, China)*

Study on Safety of Micro-Cultivator under Backward Driving Conditions .358
*Guangming Wang (Shandong Agricultural University, China), Yue Song (Shandong Agricultural University, China), Jiabo Wang (Jiangsu Vocational College of Agriculture and Forestry, China), Chao Li (Shandong Agricultural University, China), Jie Liu (Shandong Agricultural University, China), and Xing Yang (Shandong Agricultural University, China)*

Study on One Type of 4-Position Load Simulator System Technology Based Large Moment of Inertia and High Torque .364
*Hongwei Li (Beijing Institute of Precision Electromechanical Control Equipment, China) and Jinpeng Yang (Beijing Institute of Precision Electromechanical Control Equipment, China)*

Research on Barge Stability Automatic Adjustment Method of Jacket Sliding into Water .369
*Xian-kang Wang (Tianjin University, China), Qing Zhang (Tianjin University, China), and Ming-Jun Gao (Tianjin University, China)*

Multi-Objective Optimization Genetic Algorithm for Flow-Shop Scheduling Module by Using Fuzzy-AHP .372
*Lan Cai (Wuhan University of Technology, China) and Zhen Chen (Wuhan University of Technology, China)*

Similarity Query Method for Time Series Subsequences Based on Pathologic Matching of DTW .376
*Zhi Yan (Air Force Engineering University, China), Yichao Shen (Air Force Engineering University, China), Chuan Xie (Air Force Engineering University, China), Peng Zhang (Air Force Engineering University, China), and Baojun Li (Air Force Engineering University, China)*

An Overview of Energy-Saving Schemes with Cooperative MIMO in Wireless Sensor Networks .382
*Wei Du (Nanjing Forestry University, China) and Wen Zhou (Nanjing Forestry University, China)*

Study on a New Numerical Method for Solving Heat Conduction Problems .387
*Pengjie Liu (Shenyang Institute of Automation, CAS, China; Institute of Robotics and Intelligent Manufacturing Innovation, CAS, China; University of Chinese Academy of Sciences; & Key Laboratory of Networked Control System, CAS, China), Fucheng Pan (Shenyang Institute of Automation, CAS, China; Institute of Robotics and Intelligent Manufacturing Innovation, CAS, China; & University of Chinese Academy of Sciences), Gangfeng Xu (Dalian Shipbuilding Industry Group Co., Ltd., China), Weidong Shi (Dalian Shipbuilding Industry Group Co., Ltd., China), Ning Wang (Dalian Shipbuilding Industry Group Co., Ltd., China), and Lini Zhang (Dalian Shipbuilding Industry Group Co., Ltd., China)*

Research on the Influence of Digital Printing Quality .392
*Yi Wang (Xi'an University of Technology, China) and Yana Ai (Jiangnan University, China)*

Research on the Flow Field Characteristics of a Wheat Flour Purifier Based on the Standard Turbulent Model ..396
*Yu Wang (Nanjing University of Science and Technology, China), Yu Sun (Nanjing University of Science and Technology, China), and Kai Wu (Nanjing University of Science and Technology, China)*

A Comparative Study on Different Methods of Measuring Dynamic Characteristics of the Plasma Synthetic Jet ..401
*Rubing Liu (Xiamen University, China, & Fujian Key Laboratory of Plasma and Magnetic Resonance Research, China), Guangce Lian (Xiamen University, China, & Fujian Key Laboratory of Plasma and Magnetic Resonance Research, China), Xunwang Duan (Xiamen University, China, & Fujian Key Laboratory of Plasma and Magnetic Resonance Research, China), Qi Lin (Xiamen University, China, & Fujian Key Laboratory of Plasma and Magnetic Resonance Research, China), Ruixin Lin (Xiamen University, China, & Fujian Key Laboratory of Plasma and Magnetic Resonance Research, China), and Xiaoyin Mei (Xiamen University, China, & Fujian Key Laboratory of Plasma and Magnetic Resonance Research, China)*

Analysis of the Influence of External Excitation on the Volatilization Characteristics of Oil and Gas in the Cargo Tank of Oil Tanker under Sloshing Condition ..412
*Ding Renming (Zhe Jiang Ocean University, China), Gu Shiming (Zhe Jiang Ocean University, China), Wu Wenfeng (Zhe Jiang Ocean University, China), Gao Jialin (Zhe Jiang Ocean University, China), Yang Shuai (Zhe Jiang Ocean University, China), and Wang Xuxiu (Zhe Jiang Ocean University, China)*

Numerical Simulation of Temperature Field of Cargo Oil Microwave Heating Process ..416
*Cai Hu (Zhe Jiang Ocean University, China), Wu Wenfeng (Zhe Jiang Ocean University, China), Zhang Jiakuo (Zhe Jiang Ocean University, China), An Dongnan (Zhe Jiang Ocean University, China), Li Shanshan (Zhe Jiang Ocean University, China), and Sun Fan (Zhe Jiang Ocean University, China)*

Numerical Simulation Analysis of Oil Heating Process of Oil Tanker in Arctic Route ..420
*Gao Jialin (Zhe Jiang Ocean University, China), Wu Wenfeng (Zhe Jiang Ocean University, China), Zhang Jiakuo (Zhe Jiang Ocean University, China), Tu Jiaoyang (Zhe Jiang Ocean University, China), Wang Xuxiu (Zhe Jiang Ocean University, China), and Yang Shuai (Zhe Jiang Ocean University, China)*

Numerical Simulation and Experimental Study of the Flow Field in the Cavity of the High Speed Blend Machine ..424
*Yu Kun (South China University of Technology), Liu Yajun (South China University of Technology), Luo Qi (South China University of Technology), and Xie Wenhua (South China University of Technology)*

Research on the Prediction Model of Discharge Rate of Silo Device Based on Dynamic Arching Theory ..432
*Chen Litao (South China University of Technology), Liu Yajun (South China University of Technology), Wang Liya (South China University of Technology), Luo Qi (South China University of Technology), and Fang Yige (South China University of Technology)*

Research Progress on Defrosting Strategy of Heat Pump System Heat Exchanger Outside for EV .438
*Hongzeng Ji (Beijing Institute of Technology, China), Fen Guo (Beijing Institute of Technology, China), Yichun Wang (Beijing Institute of Technology, China), and Xin Luo (Beijing Institute of Technology, China)*

Research on a Digital Watermarking Algorithm for Color Image Based on Dual-Tree Complex Wavelet Transform (DTCWT) .443
*Wenju Wang (University of Shanghai for Science and Technology, China), Yue Ning (University of Shanghai for Science and Technology, China), Yu Hu (University of Shanghai for Science and Technology, China), and Yuwei Yang (University of Shanghai for Science and Technology, China)*

A Uniform Balancing Method for High-Speed Rotor Bearing System .447
*Yun Zhang (Xidian University, China), Meng Li (Xidian University, China), Wanqin Zhao (Shanghai University of Engineering Science, China), and Haodong Liu (Shanghai University of Engineering Science, China)*

Markov Chain and Monte Carlo Predictions for Light Multiple Scattering Applications .451
*Shangning Wang (Shanghai Jiao Tong University, China), Shuyi Qiu (Shanghai Jiao Tong University, China), Shangze Yang (Shanghai Jiao Tong University, China), and Xuesong Li (Shanghai Jiao Tong University, China)*

## Robotics and Computer Technology

Workspace Analysis of CNC Load-Unload Material Robot .456
*Chang Rui-li (Inner Mongolia University of Science and Technology, China), Han Jun (Inner Mongolia University of Science and Technology, China), Cui Guo-wei (Inner Mongolia University of Science and Technology, China), Gao Mei-xia (Inner Mongolia University of Science and Technology, China), and Wei Yi-li (Inner Mongolia University of Science and Technology, China)*

A Multi-Module Soft Robotic Arm with Soft End Effector for Minimally Invasive Surgery .461
*Minghong Chen (Soochow University, China), Deshan Wang (Soochow University, China), Jiakang Zou (Soochow University, China), Lining Sun (Soochow University, China), Jin Sun (Yangzhou University, China), and Guoqing Jin (Soochow University, China)*

Research on Grinding Mechanism of Wall-Climbing Grinding Robot for Large Spherical Tank .466
*Xingji Du (Zhejiang Academy of Special Equipment Science, China), Zhangwei Ling (Zhejiang Academy of Special Equipment Science, China), Yonggui Chen (Zhejiang Academy of Special Equipment Science, China), Yun Li (Jiaxing Special Equipment Inspection and Testing Institute\ China), and Liang Sun (Zhejiang Hongji Petrochemical Co., Ltd., China)*

The Research and Simulation of Kinematics through the Method of Spatial Projection for Dual-Robot .470
*Miao Yu (Changchun University, China), Xinxing Liu (Changchun University, China), Shanfeng Chen (Changchun University, China), and Yuan Xu (Changchun University, China)*

Robotic Control of Dynamic and Static Gesture Recognition ..474
*Xuexiang Zhang (Shanghai University of Engineering Science, China) and Xuncheng Wu (Shanghai University of Engineering Science, China)*

Mode Energy Ratio Analysis Using Pulse Signals for Diagnosis of Pregnancy Conditions ..479
*Lulu Zhang (Beihang University, China), Xiaofeng Meng (Beihang University, China), Yaqin Wang (Luoyang Dongfang Hospital, China), and Jing Nie (Beihang University, China)*

AGV Localization Based on Odometry and LiDAR ..483
*Sibo Quan (South China University of Technology) and Jianwu Chen (South China University of Technology)*

Adaptive Walking on Slope of Quadruped Robot Based on CPG ..487
*Junpeng Xie (National University of Defense Technology, China), Hongxu Ma (National University of Defense Technology, China), Qing Wei (National University of Defense Technology, China), Honglei An (National University of Defense Technology, China), and Bo Su (China North Vehicle Research Institute)*

Manipulator Arm Interactive Control in Unknown Underwater Environment ..494
*Zheyu Hu (Shanghai University, China), Xiaowen Zhu (Shanghai University, China), Dawei Tu (Shanghai University, China), Xu Zhang (Shanghai University, China), and Mei Wang (Shanghai University, China)*

Light Field Camera Image Sharpness Enhancement for Underwater Machine Vision Application ..499
*Yong Ji (Shanghai University, China), Da-wei Tu (Shanghai University, China), Xu Zhang (Shanghai University, China), Yun Jin (Shanghai University, China), and Chen Li (Huazhong University of Science and Technology, China)*

Kinematics Simulation and Operation Space Analysis of Arc Welding Six-Axis Robot Based on Matlab and Adams ..504
*Tiewen Zeng (Hubei University of Technology, China), Pan Liu (Hubei University of Technology, China), and Dazhang You (Hubei University of Technology, China)*

Image Compression Algorithms Based on Dual Tree-Complex Wavelet Transform ..508
*Jing Wang (University of Shanghai for Science and Technology, China), Wenju Wang (University of Shanghai for Science and Technology, China), and Xiaohong Wang (University of Shanghai for Science and Technology, China)*

Multi Focus and Multi-Source Image Fusion Based on Deep Learning Model ..512
*Jie Fu (University of Shanghai for Science and Technology, China), Xin-Ran Gao (University of Shanghai for Science and Technology, China), Min Xu (University of Shanghai for Science and Technology, China), and Wenju Wang (University of Shanghai for Science and Technology, China)*

Abnormal Exposure Image Self-Adaptive Correction Algorithm ..516
*Yuzhou Wang (University of Shanghai for Science and Technology, China), Wenju Wang (University of Shanghai for Science and Technology, China), and Xiaohong Wang (University of Shanghai for Science and Technology, China)*

Vehicle-Mounted with Tracked Robotic System Based on the Kinect .521
*Juan Fang (Yunnan University, China), Mu Qiao (Yunnan University, China), and Yijian Pei (Yunnan University, China)*

Kinematics Analysis of a Novel Continuum Manipulator .525
*Cong Liu (Beijing University of Technology, China) and Guohua Gao (Beijing University of Technology, China)*

A Semi Closed Loop Compensation Method for Trajectory Error of Continuum Robot Based on Vector Method .529
*Pengyu Wang (Beijing University of Technology, China) and Guohua Gao (Beijing University of Technology, China)*

Obstacle Surmounting Principle Analysis and Structural Design for Two Degree of Freedom Tracked Robot .533
*Ping Chen (Beijing University of Technology, China) and Yang Li (Beijing University of Technology, China)*

Design and Simulation of Robotic Arm with Light Weight and Heavy Load .537
*Zhaoyong Wei (Beijing University of Technology, China) and Yang Li (Beijing University of Technology, China)*

Design and Kinematics on Biased Channel Retractable Continuum Robot .541
*Yaozong Zhang (Beijing University of Technology, China) and Guohua Gao (CBeijing University of Technology, China)*

The Simulation and Analysis of a New Rescue Robot with Transformable Wheels .545
*Xinran Zhao (Academy of Military Sciences, China), Weihua Su (Academy of Military Sciences, China), and Shiyue Zhang (Tianjin Artificial Intelligence Innovation Center, China)*

Research on Position-Based Impedance Control in Cartesian Space of Robot Manipulators .549
*Lv Bohan (China Academy of Launch Vehicle Technology), Zhong Yue (China Academy of Launch Vehicle Technology), Zhao Xinying (China Academy of Launch Vehicle Technology), and Zeng Guangshang (China Academy of Launch Vehicle Technology)*

Research on Absolute Distance Measurement .552
*Feng Zou (Hubei University of Technology, China), Tianxiong Zheng (Hubei University of Technology, China), and Guangyang Zheng (Hubei University of Technology, China)*

Research on Safety Collision Technology for Micro/Nano Satellite Robot Assembly .556
*Shuai Li (DFH Satellite Co., Ltd., China), Hailong Yang (Space Engineering University, China), and Jia Hao (Space Engineering University, China)*

## Intelligent Control and Intelligent Manufacturing

Preventive Maintenance Decision Model for Multi-Station Manufacturing System Subject to System Deterioration .560
*Cong Zhang (Huazhong University of Science and Technology, China), Haiping Zhu (Huazhong University of Science and Technology, China), Jun Wu (Huazhong University of Science and Technology, China), Leibo Ma (Huazhong University of Science and Technology, China), Jiaxin Cheng (Huazhong University of Science and Technology, China), and Hui Wang (Huazhong University of Science and Technology Wuhan, China)*

Research on the Evaluation Standard of Intelligent Production Line Level ..565
*Sun Tian-tian (Shenyang Aerospace University, China) and Meng Biao (Shenyang Aerospace University, China)*

Study on Molding Rate with Segmented Control in Glass Molding Process ..571
*Kejun Zhu (Shaoyang University, China) and Xiaolong Zhu (Xiangtan University, China)*

Accurate Reasoning of Assembly Processes Using Unified-Format Planning Knowledge ..575
*Ke Jiang (Beijing Institute of Mechanical Equipment, China), Haifeng Li (Beijing Institute of Mechanical Equipment, China), Shaokang Yang (Beijing Institute of Mechanical Equipment, China), Lin Chen (China Air Force Equipment Department), and Jianli Su (Beijing Institute of Mechanical Equipment, China)*

Research on Intelligent Design Method of Complex Products ..580
*Bo Hao (Northeastern University, China), Dongping Xu (Northeastern University, China), and Jipeng Zhou (Shenyang Ligong University, China)*

Human-Machine Hybrid Enhanced Intelligent Design of Aircraft Structural Parts Based on Knowledge ..584
*Bo Hao (Northeastern University, China) and Hao Dai (Northeastern University, China)*

Remote Control System of Semiconductor Air Conditioning on Vehicle Based on 4G Network ..591
*Ma Baorong (Yunnan University, China), Pei Yijian (Yunnan University, China), and Fang Juan (Yunnan University, China)*

Research on the Load Characteristics of the Ball Nozzle Based on the Control Strategy of Stiffness Adaptive Compensation ..596
*Jinpeng Yang (Beijing Institute of Precision Electromechanical Control Equipment, China), Hongwei Li (Beijing Institute of Precision Electromechanical Control Equipment, China), and Chenhong Shi (Beijing Institute of Precision Electromechanical Control Equipment, China)*

Multi-UAV Cooperative Detection Method for Ballistic Missile Boosting Section ..600
*Qiang Cai (Air Force Engineering University, China) and Xiaoping Wang (Air Force Engineering University, China)*

Optimization Method for Heat Dissipation Micro-Channel of 3D System in a Package ..607
*Weiyuan Guo (Huanghe Science and Technology University, China), Junli Xie (Huanghe Science and Technology University, China), and Yunxia Xiong (Huanghe Science and Technology University, China)*

UAV Route Planning Based on QPSO Algorithm under Rolling Time Domain Control ..612
*Bo Liu (Air Force Engineering University, China) and Xiaoping Wang (Air Force Engineering University, China)*

Quantitative Control of Three-Dimensional Time-Varying Formation for Multi-Rotor Aircraft ..618
*Yingyi Tong (Air Force Engineering University, China), Wenhan Dong (Air Force Engineering University, China), and Haoyu Shi (Air Force Engineering University, China)*

Research on Scheduling Strategy of Information Coordination Mechanism for Big Data Storage and Computing ..623
*Xin Qi (China University of Petroleum) and Qian Zhang (China University of Petroleum-EastChina)*

Construction of Intelligent Manufacturing Digital Workshop Ability Assessment Model for CPS .627
*Chengcheng Wang (Instrumentation Technology and Economy Institute, China) and Kunlun Wei (Beihang University, China)*

A Method to Solve the Assembly Line Parts Feeding Problem Based on Variable Route .631
*Beixin Xia (Shanghai University, China), Tiantian Chen (Shanghai University, China), and Chen Wang (Shanghai University, China)*

Development and Application of Underground Intelligent Explosive Vehicles .635
*Hong-peng Chi (BGRIMM Technology Group, China) and Bing Gong (BGRIMM Technology Group, China)*

Rule Adjustment Method for Self-Organizing Control Rules Oriented to Urban Traffic Signals .639
*Fusheng Zhong (Tongji University, China), Anlin Wang (Tongji University, China), and Tao Jiang (Tongji University, China)*

Research on Adaptive Feedrate Planning of NURBS Curves for CNC System .645
*Jiaqi Wu (Tsinghua University, China), Bingran Li (Tsinghua University, China), Hui Zhang (Tsinghua University, China), and Peiqing Ye (Tsinghua University, China)*

Research on Control System of Intelligent Valve Positioner .653
*Weibin Xu (Wuhan University of Technology, China), Chun Xiao (Wuhan University of Technology, China, & Hankou University, China), and Min Huang (State Grid Wuhan Power Supply Company, China)*

Research on Intelligent Manufacturing System of Sustainable Development .657
*Zhang Ding-yi (Shenyang Institute of Automation, CAS, China, & Institutes for Robotics and Intelligent Manufacturing, CAS, China), Wang Peng (Shenyang Institute of Automation, CAS, China; Institutes for Robotics and Intelligent Manufacturing, CAS, China; & University of Chinese Academy of Sciences), Qu Yan-li (Shenyang Institute of Automation, CAS, China, & Institutes for Robotics and Intelligent Manufacturing, CAS, China), and Fang Lin-shen (Shenyang Institute of Automation, CAS, China, & Institutes for Robotics and Intelligent Manufacturing, CAS, China)*

Quadrotor UAV Formation High-Order Consistency Formation Control .661
*Xiaomin Zhang (Chinese Flight Test Establishment, China) and Haoyu Shi (Air Force Engineering University, China)*

Design and Simulation Study on Logistics Planning in Automatic Plant Factory Based on Tecnomatix Plant Simulation .667
*Yongbing Feng (Beijing University of Technology, China) and Guohua Gao (Beijing University of Technology, China)*

A New Fast Matching Algorithm for Angle-Adaptive Grayscale Templates .672
*Sai Zhang (Beijing University of Technology, China) and Liying Su (Beijing University of Technology, China)*

Research on Interior Noise Distribution Characteristics of Metro in Different Vehicles .676
*Liu Cunzhen (Tongji University, China, & Shanghai Key Laboratory of Rail Infrastructure Durability and System Safety, China), Li Li (Tongji University, China, & Shanghai Key Laboratory of Rail Infrastructure Durability and System Safety, China), Bu Zheng (Tongji University, China, & Shanghai Key Laboratory of Rail Infrastructure Durability and System Safety, China), and Luo Yanyun (Tongji University, China, & Shanghai Key Laboratory of Rail Infrastructure Durability and System Safety, China)*

Research on the Adjustable Magnification of Vision Measurement Module Integrated in Precision Assembly System .681
*Hongtu Zhao (Dalian University of Technology, China), Zhiyong Zhang (Dalian University of Technology, China), Xiaodong Wang (Dalian University of Technology,China), Tongqun Ren (Dalian University of Technology, China), and Hongxia Song (Dalian University of Technology, China)*

Precision Assembly System Based on Position-Orientation Decoupling Design .685
*Yi Luo (Dalian University of Technology, China), Mingyi Chen (Dalian University of Technology, China), Xiaodong Wang (Dalian University of Technology, China), and Yuntao Fang (Dalian University of Technology, China)*

A Method of Planar Multi-Segment Five-Degree Polynomial Trajectory Planning for Simplified Obstacles .689
*Ziyun Zhou (Beijing University of Technology, China) and Yunsong Du (Beijing University of Technology, China)*

Research on Online Monitoring and Diagnosis System for Key Equipment Health Status in Intelligent Manufacturing of Metallurgical Enterprises .693
*Gao Fan (ChongQing ChuanYi Software Co., Ltd., China), Dai Jianjun (Hunan Valin Lianyuan Iron and Steel Co., Ltd., China), and Xiang Liping (Hunan Valin Lianyuan Iron and Steel Co., Ltd., China)*

Polynomial Fitting Based Vibration Prediction and Stabilization Control of a 6 Degree-of-Freedom Platform .697
*Sun'an Wang (Xi'an Jiaotong University, China), Jiashun Fu (Xi'an Jiaotong University, China), Yuanhao Cheng (Xi'an Jiaotong University, China), and Binquan Zhang (Xi'an Jiaotong University, China)*

## System Analysis, Monitoring, and Testing

An Unsupervised Anomaly Detection Approach Based on Industrial Big Data .703
*Cong Zhang (Xi'an Jiaotong University, China), Yongsheng Zhu (Xi'an Jiaotong University, China), Zhijun Ren (Xi'an Jiaotong University, China), and Kaida Chen (Xi'an Jiaotong University, China)*

Study on Digital Inspection and Planning Technology of Aviation Sheet Metal Parts .710
*Bo Hao (Northeastern University, China) and Mingqiang Dong (Northeastern University, China)*

Establishment and Verification of Finite Element Model of Pedestrian Head Based on Accident Reconstruction .716
*Yang Xueyan (Shanghai University of Engineering Science, China), Qian Yubin (Shanghai University of Engineering Science, China), and Wang Ying (Autoliv Shanghai, China)*

Vehicle Speed Accident Reconstruction Based on Event Data Recorder .722
*Fenghu Guo (Shanghai University of Engineering Science, China), Yubin Qian (Shanghai University of Engineering Science, China), and Wei Li (Academy of Forensic Science Shanghai, China)*

Tomato Processing Defect Detection Using Deep Learning .728
*Xunang Shi (Shanghai University of Engineering Science, China) and Xuncheng Wu (Shanghai University of Engineering Science, China)*

Halcon-Based Solar Panel Crack Detection .733
*Guanghua Yao (Shanghai University of Engineering Science, China) and Xuncheng Wu (Shanghai University of Engineering Science, China)*

Analysis of Abnormal Problem of Low Temperature Working Resistance of a Radar Transmission System .737
*Jiang Yang (CETC 14, China), Wei Zhongliang (CETC 14, China), and Yuan Xinjiang (CETC 14, China)*

Research on Lifetime Distribution Model for Mechanical Product .742
*Feng Du (Tianjin University of Technology and Education, China), Junkai Li (Tianjin University of Technology and Education, China), Yijie Cai (Tianjin University of Technology and Education, China), and Di Wu (Tianjin University of Technology and Education, China)*

Reliability Design against Catastrophic Failure Caused by Rare Event .747
*Jing Lin (Dalian Ocean University, China) and LingYu Chen (Dalian Ocean University, China)*

Design of the Facility Vegetable Environment Monitor System of Greenhouse Based on Internet of Things .752
*Huifang Zhao (Shanxi Academy of Agricultural Sciences, China), Yuxiang Cui (Shanxi Academy of Agricultural Sciences, China), Fang Yang (Shanxi Academy of Agricultural Sciences, China), Rui Yang (Shanxi Academy of Agricultural Sciences, China), Dafeng Pan (Shanxi Academy of Agricultural Sciences, China), and Liang Zhao (Shanxi Academy of Agricultural Sciences, China)*

SSIM-NET: Real-Time PCB Defect Detection Based on SSIM and MobileNet-V3 .756
*Beixin Xia (Shanghai University, China), Jianbin Cao (Shanghai University, China), and Chen Wang (Shanghai University, China)*

Research on Accuracy of Heave Data Test System for Inertial Navigation Equipment .760
*Xinping Xu (Chongqing Academy of Metrology and Quality Inspection, China), Rui Wang (Chongqing Academy of Metrology and Quality Inspection, China), Jing Yuan (Chongqing Academy of Metrology and Quality Inspection, China), Hao Luo (Chongqing Academy of Metrology and Quality Inspection, China), and Tianhao Fei (Chongqing Academy of Metrology and Quality Inspection, China)*

Error Analysis of the Geometric Self-Calibration of the Grating Interferometer System for the Wafer Stage ..765
*Weinan Ye (State Key Laboratory of Tribology, Department of Mechanical Engineering Beijing Lab of Precision/Ultra-Precision Manufacture Equipment and Control Tsinghua University Beijing, China), Leijie Wang (State Key Laboratory of Tribology, Department of Mechanical Engineering Beijing Lab of Precision/Ultra-Precision Manufacture Equipment and Control Tsinghua University Beijing, China), Ming Zhang (State Key Laboratory of Tribology, Department of Mechanical Engineering Beijing Lab of Precision/Ultra-Precision Manufacture Equipment and Control Tsinghua University Beijing, China), Yu Zhu (Tsinghua University, China), Jinchun Hu (Tsinghua University, China), Xin Li (Tsinghua University, China), and Chuxiong Hu (Tsinghua University, China)*

Health Monitoring and Dynamic Analysis of Quayside Container Crane ..770
*Ding Xu (Tongji University, China), Qin Xianrong (Tongji University, China), Zhang Qing (Tongji University, China), Yu Chuanqiang (Tongji University, China), and Liu Zhaohang (Tongji University, China)*

Deep Sea Laser Scanning System for Underwater In-Situ Measurement ..776
*Liangliang Xie (Shanghai University, China), Dawei Tu (Shanghai University, China), Xu Zhang (Shanghai University, China), and Guoliang Xiao (Shanghai University, China)*

System Fault Simulation Based on Fuel Cell Dynamic Model ..779
*Su Zhou (Tongji University, China), Zhe Hu (Tongji University, China), and Xiao-bo He (Re-Fire Technology Co. Ltd., China)*

**Author Index** ..783
