**Volume 11215**

Proceedings of SPIE, 1605-7422, V. 11215

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Diagnostic and Therapeutic Applications of Light in Cardiology 2020*, edited by Kenton W. Gregory, Laura Marcu, Proceedings of SPIE Vol. 11215 (SPIE, Bellingham, WA, 2020) Seven-digit Article CID Number.

---

**Paper Numbering:** *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

vii	<i>Conference Committee</i>

---

## OPTICAL IMAGING GUIDED THERAPY

---

11215 08	<b>Quantifying differences in cardiac tissue structure related to patient characteristics using an optical coherence tomography cardiac tissue atlas [11215-7]</b>
----------	--

---

## OPTICAL SPECTROSCOPY

---

11215 0C	<b>Spatial frequency domain imaging of hemodynamic parameters in a murine model of hindlimb ischemia [11215-11]</b>
11215 0D	<b>Analysis diffusion and glycation rate of artery in high concentration sugar condition via autofluorescence of advanced glycation end productions [11215-12]</b>

---

## BLOOD AND OXIMETRY

---

11215 0R	<b>Optical spectroscopy to assess muscle oxygenation in infants undergoing extracorporeal life support [11215-25]</b>
----------	---

---

## MICROSCOPY

---

11215 0V	<b>Development of a polarized hyperspectral microscope for cardiac fiber orientation imaging [11215-31]</b>
----------	---
